Nelson, Najma Chowdhury, Nājamā Caudhurī, 1994-01-01 This is the first book to analyse the complexities of women's political participation on a cross national scale and from a feminist perspective Surveying forty three countries chosen to represent a variety of political systems regions and levels of economic development questions of women's status power means and methods of reform are addressed on a global scale Includes chapters on the following countries Argentina Australia Bangladesh Bolivia Brazil Canada China Costa Rica Cuba Czechoslovakia former Egypt France Germany Ghana Great Britain Greece Hong Kong Hungary India Israel Japan Kenya Korea Republic of South Korea Mexico Morocco Nepal The Netherlands Nigeria Norway Palestine Papua New Guinea Peru The Philippines Poland Puerto Rico South Africa Spain Sudan Switzerland Turkey Union of Soviet Socialist Republics former United States Uruguay *Political Empowerment of Women* Monique Leyenaar, 2004-11-01 The problem of ensuring that women are at the heart of political decision making is now very topical in Europe This is because despite all of the international agreements the research the recommendations and the untold other efforts the participation of women in political bodies remains low in most European countries European governance in short still fails to include 50 per cent of women in its political decision making Why do political leaders attach importance to this issue The under representation of women in national parliaments poses a problem in terms of both the practice and the theory of politics In practical terms the under representation of women in political leadership is even more remarkable when one realizes that women have succeeded in gaining access to other sectors of society in many European countries Moreover equality between men and women is now a leading political principle all over Europe Taking part in decision making however in politics as well as in the private sector typically remains a male privilege This book explains the high level of current concern for the under representation of women in politics It explores the reasons behind recent favourable attitudes towards sharing political power with women in the Netherlands and in other European countries It identifies the many obstacles and strategies and it points out future expectations about the representation of women in Europe Under which circumstances can political players be influenced to change institutions and procedures in favour of newcomers to politics The current crisis of politics opens a window of opportunity for changing the underlying male biased structures **Political Worlds of Women** Mary Hawkesworth, 2018-04-19 *Political Worlds of Women* provides a comprehensive overview of women's political activism comparing formal and informal channels of power from official institutions of state to grassroots mobilizations and Internet campaigns Illuminating the politics of identity enmeshed in local national and global gender orders this book explores women's creation of new political spaces and innovative political strategies to secure full citizenship and equal access to political power Incorporating case studies from Africa Asia Europe and the Americas Mary Hawkesworth analyzes critical issues such as immigration and citizenship the politics of representation sexual regulation and gender mainstreaming in order to examine how women mobilize in this era of globalization *Political Worlds of Women* deepens understandings of national and global
