Bossing the Billionaire Judy Angelo, 2016-06-16 The Billionaire Brothers Kent & Ryder's story Intent on freeing himself from the demons of his past Ryder Kent sets off on a road trip alone This is the only way he can find the peace of mind he so desperately craves But on his way to Mexico a missed turn takes him to the remote southwest Texas town of Pequoia There an unfortunate turn of events puts him at the mercy of one of the most beautiful women he's ever met Instead of his usual role as the big boss in Pequoia he's lost power and prestige and ends up having to work for this Texas rose But Ryder soon finds out that manual labor is the least of his problems He hasn't even put his demons to rest and now he's falling for his boss which after what he's been through is the last thing he needs Blake Beaumont has had enough of men She's been hurt by one who declared his undying love for her until he turned around and stabbed her in the back After that how can she trust any other man And then out of the blue the perfect one falls right into her hands Does she dare trust her heart to another or is he just too good to be true A matter of trust a matter of the heart And in the end a matter of love **He Said** John

Amerson, 2018-08-22 He said Long before Earth and the stars that you see in the night sky were created there were thousands upon thousands of planets throughout the universe supporting life The inhabitants of the planets live in peace The gods were pleased Yes I said the gods not one not just your god but all the gods Even back then no one knew how many there were how they came to be or where they came from Some of the inhabited planets were only a few million miles apart As the inhabitants of the planets began to venture out into space they encountered other races and cultures Wars broke out And soon the whole universe was filled with warring planets determined to conquer one another The gods became angry Mankind had become a disappointment The gods decided to put an end to all the violence Your scientists got the big bang theory practically right It wasn't the creation of the universe It was the destruction of the universe Earth and what you see in the night sky is the aftermath the rubble you might say of a universe that had been home to thousands upon thousands of

inhabited planets **Life Goes On , Bicycle Dreams** Joseph W. Michels,2008-09-15 In 1889 twenty five year old Lemuel Dearce heads for Chicago where he gets swept up in the country s new craze bicycles Hiring on as a worker in a bicycle manufacturing plant he masters the technology and seeks to apply it as a bicycle repairman This takes him to Minneapolis in 1893 a city in the full grip of bicycle mania By 1910 married with three children he watches his dream of a career in bicycles collapse as the automobile takes center stage Lemuel then gets caught up in the widespread enthusiasm for scientific farming of dry lands out west He brings his family to eastern Montana where he files a homestead claim on a desolate patch of prairie Hardships and separations plague the family But by 1917 he manages to secure legal title to the land only to see it devastated by the drought of 1918 With his dreams in tatters Lemuel once again searches for a new beginning
