**Shedding The Veil: Mapping The European Discovery Of America And The World** Thomas Suarez,1994-04-29

Shedding the Veil is a highly original overview of Europe's exploration and discovery beyond her own confines. It tackles the subject via an analysis of maps dating from circa 1434 to 1865 with an emphasis on the period before 1600. The book begins with an appraisal of the peculiar circumstances which led late medieval Europe to pursue long distance travel both overland and by sea, introduces cosmographic traditions inherited from classical times and investigates pre-Columbian excursions into the western ocean. Finally the great voyages and mappamundi of the early sixteenth century are described in depth. After 1600 the focus begins to narrow to North America and particularly to the colonization of the American Northeast. All maps discussed in detail are illustrated: 40 full page b/w plates, 25 full page color plates.

Hariramsait,2016-01-15 Though modern astronomers and astrophysicists like Stephen Hawking have their doubts about

interstellar travel, there are countless references to interdimensional travel in mostly ancient Indian texts. The *Kandha Puranam*, nearly 17 million years old, mentions that the Asura Titan King Sooran ruled over 1008 universes and had vimanas or flying crafts that could in an instant travel all over space, cutting across dimensions at tremendous speed that could hover in mid-air, over water, disappear and reappear all of a sudden, and had a host of stealth weapons, even nuclear. Winter is mentioned for it is said that the entire world was enveloped in darkness caused by Sooran during the war. Lord Muruga possessed the Peacock Craft that could circumvent the 14 worlds and fly beyond in a microsecond, and his missile with the lengthy flame, *Nedunchudar Vel*, was voice-activated and reusable and was so powerful that it blew up into smithereens the *Kraunja* mountain, which even our modern-day nuclear weapons cannot do, according to scientists. The *Ramayana*, 17 million years old, mentions that Emperor Ravana's *Pushpaka vimana*, which he captured from Kubera, the Lord of riches in heaven, could host as many passengers as it takes, there were stun weapons and stealth technology. In the *Mahabharata* war, 3500 b.c., nuclear weapons like the *brahmastra* were used, and there is mention of numerous flying crafts of the Lords, Angels of Asuras, Titans, and Rakshasas, Demons who all travelled to and fro from the upper and lower worlds. The *Sri Linga Purana* mentions that Lord Brahma's Swan Craft flew and transcended the seven upper worlds while Lord Vishnu's Boar Craft tunneled through the seven lower worlds and went even beyond *Baathala*, the lowest plane, which all reminds us of blackholes being portals and shortcuts to parallel universes, which is being theoretically proved today. More than 2500 years ago, the Japanese Royal Family's ancestors met with the Sun God who landed on Mount Fuji and were presented with a sword and an orb, which are still in the Imperial Palace in Japan. The native Indians' forefathers living on Sun Island on Lake Titicaca in South America were visited by the Sun God. The Dogon tribes of Mali have a tradition that their forefathers had sailed on a great ship that flew down from Sirius, the star, but what is interesting is that they don't wear spacesuit-like gear and celebrate their homecoming.

Based on an intriguing alternative history hypothesis this novel imagines a world where the Moors never left Southern Spain after their 800 year reign but instead expanded their empire across Europe This fascinating premise is explored through the chaotic lens of a bumbling film crew in the Sahara desert The director lost in a haze of Moroccan kif has embraced the local culture a little too enthusiastically With the scriptwriters gone and the leading actor in a perpetual sulk inside his Airstream the production is at a standstill Enter Tinctorio Indigolin a bitcoin billionaire on the run from a Shakespeare quoting Irish assassin In a bid to leverage a tax loss Indigolin acquires the film rights injecting a new lease of life into the project

Mysteriously a captivating screenplay begins to appear on set page by page night after night Penned by an enigmatic writer the script proposes a world where the Moors didn't just resist expulsion in 1492 but went on to dominate Spain France and Italy creating an Islamic State of Europe As the screenplay unfolds it transforms the lives of everyone involved in the film The narrative weaves through a labyrinth of twists assassinations and narrow escapes employing the most unexpected methods only to culminate in the most uplifting conclusion you'll encounter this year Letters to Christian about God Douglas A.
