**Figures of the Imagination** Roger Hansford,2017-03-16 This new study of the intersection of romance novels  
with vocal music records a society on the cusp of modernisation with a printing industry emerging to serve people's growing  
appetites for entertainment amidst their changing views of religion and the occult No mere diversion fiction was integral to  
musical culture and together both art forms reveal key intellectual currents that circulated in the early nineteenth century  
British home and were shared by many consumers Roger Hansford explores relationships between music produced in the  
early 1800s for domestic consumption and the fictional genre of romance offering a new view of romanticism in British print  
culture He surveys romance novels by Ann Radcliffe Matthew Lewis Sir Walter Scott James Hogg Edward Bulwer and  
Charles Kingsley in the period 1790 1850 interrogating the ways that music served to create mood and atmosphere enlivened  
social scenes and contributed to plot developments He explores the connections between musical scenes in romance fiction  
and the domestic song literature treating both types of source and their intersection as examples of material culture  
Hansford's intersectional reading revolves around a series of imaginative figures including the minstrel fairies mermaids  
ghosts and witches and Christians engaged both in virtue and vice the identities of which remained consistent as influence  
passed between the art forms While romance authors quoted song lyrics and included musical descriptions and characters  
their novels recorded and modelled the performance of songs by the middle and upper classes influencing the work of  
composers and the actions of performers who read romance fiction **Official Gazette of the United States Patent and
