## **Shell And The Kernel Renewals Of Psychoanalysis:**

**The Shell and the Kernel** Nicolas Abraham, Maria Torok, 1994-09 This volume is a superb introduction to the richness and originality of Abraham and Torok's approach to psychoanalysis and their psychoanalytic approach to literature. Abraham and Torok advocate a form of psychoanalysis that insists on the particularity of any individual's life story, the specificity of texts, and the singularity of historical situations. In what is both a critique and an extension of Freud, they develop interpretive strategies with powerful implications for clinicians, literary theorists, feminists, philosophers, and all others interested in the uses and limits of psychoanalysis. Central to their approach is a general theory of psychic concealment, a poetics of hiding. Whether in a clinical setting or a literary text, they search out the unspeakable secret as a symptom of devastating trauma revealed only in linguistic or behavioral encodings. Their view of trauma provides the linchpin for new psychic and linguistic structures such as the transgenerational phantom, an undisclosed family secret handed down to an unwitting descendant, and the intra-psychic secret or crypt, which entombs an unspeakable but consummated desire. Throughout, Abraham and Torok seek to restore communication with those intimate recesses of the mind which are for one reason or another denied expression. Classics of French theory and practice: the essays in volume one include four previously uncollected works by Maria Torok. Nicholas Rand supplies a substantial introductory essay and commentary throughout. Abraham and Torok's theories of fractured meaning and their search for coherence in the face of discontinuity and disruption have the potential to reshape not only psychoanalysis but all disciplines concerned with issues of textual, oral, or visual interpretation.

primacy within individual texts     The Spectral Metaphor E. Peeren, 2014-01-30 What does it mean to live as a ghost Exploring spectrality as a metaphor in the contemporary British and American cultural imagination Peeren proposes that certain subjects migrants servants mediums and missing persons are perceived as living ghosts and examines how this figuration can signify both dispossession and empowerment or agency     Ecosophy and Educational Research for the Anthropocene Alysha J. Farrell, 2021-12-23 Problematizing the aims of education in the Anthropocene this text illustrates the value of relational psychoanalytic theory in the study and practice of education amidst the climate crisis Illustrating how dominant educational theory fails to acknowledge climate precarity and the consequences of living beyond the Earth's carrying capacity Ecosophy and Educational Research for the Anthropocene calls for a reorientation of scholarship to decentre the human subject The author discusses the evolution of intersubjective psychoanalysis to make a case for a turn to relational and psychoanalytically informed educational research Chapters foreground areas for educational researchers to consider in pursuing intersubjective inquiries into the affective dimensions of curriculum and pedagogy to foster an emergence of eco attunement and ecosophical educational research EER By framing an ecosophical approach this book enables educational leaders researchers and educators to fulfil their responsibility to engage in educational praxis which is contextually responsive relationally attuned and recognizant that we cannot be studied apart from our connections to the planet     **After Evil** Robert Meister, 2011-01-05 Mainstream human rights discourse speaks of such evils as the Holocaust slavery or apartheid in ways that put them solidly in the past Its elaborate techniques of transitional justice encourage future generations to move forward but the false assumption of closure enables those who are guilty to elude responsibility This approach to history common to late twentieth century humanitarianism doesn't presuppose that evil ends only when justice begins Rather it assumes that a time before justice is the moment to put evil in the past Merging examples from literature and history Robert Meister confronts the problem of closure and the resolution of historical injustice He boldly challenges the empty moral logic of never again or the theoretical reduction of evil to a cycle of violence and counterviolence that is broken once evil is remembered for what it was Meister calls out such methods for their deferral of justice and susceptibility to exploitation Specifically he spells out the moral logic never again in relation to Auschwitz and its evolution into a twenty first century doctrine of the Responsibility to Protect     **Born Under Auschwitz** Mary Cosgrove, 2014 Uncovers the literary traditions of melancholy that inform major works of postwar and contemporary German literature dealing with the Holocaust and the Nazi period     **On Freud's "Remembering, Repeating and Working-Through"** Udo Hock, Dominique Scarfone, 2024-04-22 In On Freud's Remembering Repeating and Working Through international contributors from a range of psychoanalytic backgrounds reflect on this key 1914 paper Each chapter considers an aspect of Freud's original work addressing both the theoretical and clinical dimensions of the paper and incorporating contemporary perspectives Bringing out all three aspects of the paper's title the contributors consider the issues raised by the so called change in psychoanalytic

paradigm from the classic central concern of remembering to a clinical experience which prioritises enactment and repetition. The reflections on this important paper demonstrate how it goes beyond technique to open new vistas on the conception of psychoanalysis as a whole. On Freud's Remembering, Repeating and Working Through will be essential reading for psychoanalysts and psychoanalytic psychotherapists in practice and in training. It will also be of interest to readers seeking a deeper understanding of current Freudian thinking.

**The Wolf Man's Burden** Lawrence Johnson, 2001. The Wolf Man was Sigmund Freud's most famous patient, a man whose enigmatic childhood dream of being gazed at by wolves outside his bedroom window bedeviled the founding practitioners of psychoanalysis. More than simply a rich source of imagery and meaning, though, the Wolf Man case might be interpreted as the primal scene of psychoanalysis itself. Lawrence Johnson regards the creation of the psychoanalytic case study as the writing of two lives: those of the analysand and the analyst. So Freud's own biography and subjective viewpoint could hardly fail to bear a direct influence on the institution of psychoanalysis. When Freud met the patient known as the Wolf Man, Johnson maintains, psychoanalysis was at an impasse because of Freud's inability to work through repressed material from his own childhood. Freud overcame this impasse through a countertransference that cast his patient in the role of a rival for the control of psychoanalysis; his means for vanquishing him set the terms for Freud's legacy to psychoanalysis. Johnson offers a rigorous methodological framework for discussing the relationship between psychoanalytic writing and the lives of those who engage in it. He fruitfully extends the work of Nicholas Abraham, Maria Torok and Jacques Derrida into the realm of Freud's own life. The result is both sophisticated psychobiography and psychoanalytic theory grounded firmly in historical lives.

**Contemporary Slavic horror across media** Agnieszka Jezyk, 2025-06-17. In the Western cultural production that puts individual or collective fear at its center, East Central Europe has been portrayed as an othered space of horror, lawless, frightening zones where anything can happen. Incorporating articles on literature, film, visual arts, video games, music videos and music festivals, *Contemporary Slavic horror across media: Cursed zones* is a pioneering anthology of academic essays devoted to Slavic horror fiction. The book focuses on works from the mid 20th century through the present, particularly the post-Soviet period. Assessing current trends in Czech, Polish, Russian, Slovak, Ukrainian and East Central European horror media, the book looks at similarities and idiosyncrasies of the genre in its Slavic variant. With this anthology, we hope to tame the Easterner Other and start exorcising monstrous East Central Europe.

*Remembering Generations* Ashraf H. A. Rushdy, 2003-01-14. Slavery is America's family secret, a partially hidden phantom that continues to haunt our national imagination. *Remembering Generations* explores how three contemporary African American writers artistically represent this notion in novels about the enduring effects of slavery on the descendants of slaves in the post-civil rights era. Focusing on Gayl Jones's *Corregidora* (1975), David Bradley's *The Chaneysville Incident* (1981) and Octavia Butler's *Kindred* (1979), Ashraf Rushdy situates these works in their cultural moment of production, highlighting the ways in which they respond to contemporary debates about race and family. Tracing the

evolution of this literary form he considers such works as Edward Ball's *Slaves in the Family* 1998 in which descendants of slaveholders expose the family secrets of their ancestors *Remembering Generations* examines how cultural works contribute to social debates how a particular representational form emerges out of a specific historical epoch and how some contemporary intellectuals meditate on the issue of historical responsibility of recognizing that the slave past continues to exert an influence on contemporary American society

**Learning Desire** Sharon Todd, 2013-10-31 What role can desire play in pedagogical interaction In *Learning Desire* contributors from the fields of education cultural studies psychoanalysis and literary theory explore the many ways desire intersects with knowledge recognition fantasy and embodiment and what this can mean for transformative pedagogical practice While acknowledging the productive and destructive force desire can have on the learning experience the authors offer engaging innovative modes of thinking about teaching and thinking about desire as an education tool This volume rooted in theory is one also geared towards practice in taking a fresh look at the limits and possibilities of a transformative pedagogy it will also give teachers and students new languages for articulating their experiences in the classroom and beyond

**The Edge of Modernism** Walter Kalaidjian, 2006-01-06 Explores American poetry on genocide the Holocaust and total war as well as on postwar social antagonisms racial oppression and domestic violence Combining Psychoanalytic theory and cultural studies this account of modern poetics analyzes the ways in which literary form gives testimony to the trauma of twentieth century history

*Dark Matter* Richard Langston, 2020-08-04 Unravelling the thought of Alexander Kluge and Oskar Negt Collaborators for more than four decades lawyer author filmmaker and multimedia artist Alexander Kluge and social philosopher Oskar Negt are an exceptional duo in the history of Critical Theory precisely because their respective disciplines think so differently *Dark Matter* argues that what makes their contributions to the Frankfurt School so remarkable is how they think together in spite of these differences Kluge and Negt's gravitational thinking balances not only the abstractions of theory with the concreteness of the aesthetic but also their allegiances to Frankfurt School mentors with their fascination for other German French and Anglo American thinkers distinctly outside the Frankfurt tradition At the core of all their adventures in gravitational thinking is a profound sense that the catastrophic conditions of modern life are not humankind's unalterable fate In opposition to modernity's disastrous state of affairs Kluge and Negt regard the huge mass of dark matter throughout the universe as the lodestar for thinking together with others for dark matter is that absolute guarantee that happier alternatives to our calamitous world are possible As illustrated throughout Langston's study dark matter's promise its critical orientation out of catastrophic modernity finds its expression above all in Kluge's multimedia aesthetic
