Long Road To Reform Restructuring Public Education In Quebec:

The Long Road to Reform Henry Milner, 1986 Although it has often been assumed that the Quiet Revolution represented the triumph of secularism over religion in Quebec important vestiges of ecclesiastical influence have remained among those which have proved to be particularly well entrenched are the structural foundations of the school system

The Reconquest Of Montreal Marc Levine, 2010-04-28 An examination of the nature of the linguistic transformation of Montreal and the role of public policy in promoting it

Religion and Schooling in Canada Robert K. Crocker, 2022-11-15 Christian organizations have always played a large role in Canadian education By 1949 five provinces had constitutionally protected denominational schools The federal government's responsibility for the education of Indigenous Peoples was effectively contracted out to the churches for more than a century resulting in a history of abuse that has only recently come to light From the 1950s to the 1970s several initiatives in different provinces set the stage for significant reforms to education Some of these tested the limits of denominational protections but could not shake the underlying constitutional structures Patriation of the Constitution and adoption of the Canadian Charter of Rights and Freedoms in 1982 codified fundamental changes in thinking about civil rights The Charter allowed existing denominational rights to be challenged on many fronts However all such challenges were rebuffed by the courts on the grounds that the Charter cannot be used to override other parts of the Constitution By the 1990s it became apparent that another route to reform was available through the amending formula Constitutional amendments were used to end denominational control of schools in Newfoundland and Quebec in 1997 and 1998 The circumstances around those constitutional amendments are discussed in detail as possible precedents for similar outcomes in Alberta Ontario and Saskatchewan This book contends that change will certainly come to these provinces and several paths to reform are explored This reform aims to remove the discrimination inherent in denominational institutions while preserving some form of religious involvement in certain schools

A Meeting of the People Roderick MacLeod, Mary Anne Poutanen, 2004 A study of the local school board as a key political and social institution in Protestant communities in Quebec

policies of all ten provinces are very similar today Without intervention from Ottawa the provinces have fashioned what amounts to a de facto pan Canadian system Learning to School explains how and why the provinces have achieved this unexpected result Beginning with the earliest provincial education policies and taking readers right up to contemporary policy debates the book chronicles how through learning and cooperation the provinces gradually established a country wide system of public schooling A rich and ambitious work of scholarship it will appeal to readers seeking fresh insights on Canadian federalism education policy and policy diffusion *Québec Studies*, 1988 *Black Racialization and Resistance at an Elite University* Rosalind Hampton, 2020-05-12 The presence and experiences of Black people at elite universities have been largely underrepresented and erased from institutional histories This book engages with a collection of these experiences that span half a century and reflect differences in class gender and national identifications among Black scholars By mapping Black people's experiences of studying and teaching at McGill University this book reveals how the whiteness of the university both includes and exceeds the racial identities of students and professors It highlights the specific functions of Blackness and of anti Blackness within society in general and within the institution of higher education in particular demonstrating how structures and practices of the university reproduce interlocking systems of oppression that uphold racial capitalism reproduce colonial relations and promote settler nationalism Critically engaging the work of Black learners academics organizers and activists within this dynamic political context this book underscores the importance of Black Studies across North America *Canadiana*, 1986 *Politics* Paul W.
