Guts & Glory Lawrence H. Suid, 1978 An excellent contribution to the growing studies on American films and to the war film genre in particular The author defines war movies as those in which combat or its influence are central although military movies in which military men are portrayed in training or preserving peace are also considered Within these definitions Suid selects several dozen films from *The Big Parade* 1925 to *Apocalypse Now* and uses them to develop his main themes the image of the military presented to mass audiences and the related question of the military s assistance to film makers The relationship between Washington and Hollywood that emerges will be a disappointment for anyone seeking confirmation of conspiracy The Pentagon is always looking for positive portrayals of the services and the military s chief concern has been for accuracy in detail and procedure with increasing sensitivity to any costs to taxpayers The author concludes that as long as movies can portray individual bravery perseverance

or the excitement of challenging death in personal combat they will maintain their special place in American homes and theaters **Generic Histories of German Cinema** Jaimey Fisher, 2013 Offers a fresh approach to German film studies by tracing key genres including horror the thriller Heimat films and war films over the course of German cinema history
