*Advancing Long-Term Care Policy and Research in China* Zhanlian Feng, Bei Wu, 2025-08-06 Population aging and rapid socioeconomic changes are weakening family based elder care while escalating the needs for long term care services for older adults in China This book presents insightful analysis and research findings on a wide range of policy relevant issues related to long term care for older adults in China China s population is aging at an unprecedented pace Currently older Chinese adults aged 65 and over account for approximately 15% or 208 million of the total population a figure projected to exceed 30% or 390 million by 2050 Rapid demographic and socioeconomic changes in China are weakening traditional family based elder care while increasing the demand for long term care services This book features a collection of studies that provides timely analyses and fresh insights into a wide range of policy relevant topics related to long term care for older adults in China These topics are explored in the volume s nine chapters organized under four main themes migration caregiving and elder care challenges long term care service users frontline workers and workforce challenges unmet needs across the care continuum in healthcare long term care and end of life care and long term care financing Grounded in a thoughtful analysis of the best available empirical data and employing rigorous and cutting edge research methods the findings from these studies contribute to building scientific evidence where it is lacking and support evidence informed long term care policymaking and practice to address the mounting challenges of population aging in China This book was originally published as a special issue of the Journal of Aging Social Policy

**Dimensions of Long-Term Care Management: An Introduction, Third Edition** Mary Helen McSweeney-Feld, PhD, LNHA, FACHCA, Carol Molinari, PhD, 2023-04-10 Instructor Resources Test bank PowerPoint slides answers to end of chapter questions and case studies sample course syllabi and a transition guide to the new edition Long term care continues to evolve and change especially in response to the global COVID 19 pandemic Dimensions of Long Term Care Management provides a comprehensive overview of this field and how it has been affected by regulatory changes the response to these changes by managers performing their day to day operations and the opportunities

presented by the growing use of technology along with skilled workforce shortages Readers will gain a thorough understanding of how long term services and supports are delivered and what it is like to work in this sector The book opens with an overview of long term services supports and systems for coordination of care and care transitions from acute to post acute and long term in light of policy changes The next chapters focus on the importance of taking a population health and health equity perspective in administration of these services as well as support for cultural competence training The book's final section covers long term care community operations leadership and administration of these services legal and ethical challenges and risk management and quality improvement to ensure successful patient outcomes and safety This revised edition includes updated statistics throughout and is aligned with the National Association of Long Term Care Administrator Boards Domains of Practice for Health Services Executives It also features the following updates A new chapter detailing the key business and clinical operations of long term care communities and the administrator's responsibilities A new chapter describing models for population health and wellness and their application to long term care consumers Expanded discussion of workforce shortages including recruitment and retention strategies and a new human resources case study Updated regulatory information including the new Medicare Conditions of Participation for all long term care providers and the new Minimum Data Set assessment Expanded coverage of long term care services leadership including a new case study New case studies in several chapters that highlight the health disparities and health equity issues affecting long term services and supports Dimensions of Long Term Care Management can be used in any business gerontology healthcare management long term care administration or public health program to provide students with a broad understanding of the field and the career opportunities it provides

Shaping Long-Term Care in Emerging Asia Vasoontara S. Yiengprugsawan, John Piggott, 2022-12-15 Countries are facing increasing life expectancy and a shrinking family size and in effect this may escalate demands for medical and supportive services The role of families in providing informal care will remain important However the simultaneous decline in the supply of informal caregiving caused by changes in family structure and higher female labour market participation necessitate the expansion of the public role in care provision This book analyses the challenges of long term care LTC policy development and implications from advanced LTC systems and a current trajectory in emerging economies in Asia The book approaches the subject through comparative analysis on what works and what does not to provide insight into public policy options for sustainable LTC provision and financing mechanisms How the countries adopt different approaches to health and social systems towards LTC development could provide important insight and perspectives into policy options in the region This book aims at academics policymakers and practitioners in health social and aged care services and could also be used as a teaching resource for undergraduate students in health and social sciences and postgraduate programs in public health epidemiology social demography gerontology and nursing The book will be of interest to a wider audience not only on social and health consequences of population ageing but also health and social policy

relating to older persons      *Blood and Marrow Transplantation Long Term Management* Bipin N. Savani, Andre Tichelli, 2021-03-02 Blood and Marrow Transplantation Long Term Management Hematopoietic cell transplantation HCT provides curative therapy for a variety of diseases Over the past several decades significant advances have been made in the field of HCT to the point where HCT has become an integral part of treatment modality for a variety of hematologic malignancies and some nonmalignant diseases HCT remains an important treatment option for a wide variety of hematologic and nonhematologic disorders despite recent advances in the field of immunologic therapies Factors driving this growth include expanded disease indications greater donor options expanding unrelated donor registries and haploidentical HCT and accommodation of older and less fit recipients The development of less toxic pretransplant conditioning regimens more effective prophylaxis of graft versus host disease GVHD improved infection control and other advances in transplant technology have resulted in a rapidly growing number of transplant recipients surviving long term free of the disease for which they were transplanted The changes over decades in the transplant recipient population and in the practice of HCT will have almost inevitably altered the composition of the long term survivor population over time Apart from an increasingly older transplant recipient cohort the pattern of transplant indications has shifted from the 1990s when chronic myeloid leukemia made up a significant proportion of allo HCT indications Changes in cell source donor types conditioning regimens GVHD prophylaxis and supportive care have all occurred with ongoing reductions in both relapse and non relapse mortality NRM have been demonstrated These patients have increased risks for a variety of late complications which can cause morbidity and mortality Most long term survivors return to the care of their local hematologists oncologists or primary care physicians who may not be familiar with specialized monitoring and management of long complications after HCT for this patient population As HCT survivorship increases the focus of care has shifted to the identification and treatment of long term complications that may affect quality of life and long term morbidity and mortality Preventive care as well as early detection and treatments are important aspects to reducing morbidity and mortality in long term survivors after allo HCT This second edition *Blood and Marrow Transplantation Long Term Management Survivorship after Transplant* provides up to date information about diagnosis screening treatment and long term surveillance of long term survivors after HCT

**Long-Term Care Reforms in OECD Countries** Cristiano Gori, Jose-Luis Fernandez, Raphael Wittenberg, 2016-06-01 Since the early 1990s long term care policies have undergone significant transformations across OECD countries In some countries these changes have responded to the introduction of major policy reforms while in others significant transformations have come about through the accumulation of incremental policy changes The book brings together evidence from over 15 years of care reform to examine changes in long term care systems occurring in OECD countries It discusses and compares key changes in national policies and examines the main successes and failures of recent reforms Finally it suggests possible policy strategies for the future in the sector With contributions from a wide range of experts across OECD

countries this book is essential reading for academics researchers and policy makers in the field of long term care policy
