He began playing rhythm and blues and continued to record and tour until his death. This is the first full length work on Johnson. Dean Alger answers many biographical mysteries including how many members of Johnson's large family were left after the epidemic. It also places Johnson and his musical contemporaries in the context of American race relations and argues for the importance of music in the fight for civil rights. Finally, Alger analyzes Johnson's major recordings in terms of technique and style. Distribution of an accompanying music CD will be coordinated with the release of this book.

To Place Our Deeds Shirley Ann Wilson Moore, 2023-09-01 *To Place Our Deeds* traces the development of the African American community in Richmond, California, a city on the San Francisco Bay. This readable, extremely well researched social history based on numerous oral histories, newspapers, and archival collections is the first to examine the historical development of one black working class community over a fifty year period. Offering a gritty and engaging view of daily life in Richmond, Shirley Ann Wilson Moore examines the process and effect of migration, the rise of a black urban industrial workforce, and the dynamics of community development. She describes the culture that migrants brought with them, including music, food, religion, and sports, and shows how these traditions were adapted to new circumstances. Working class African Americans in Richmond used their cultural venues, especially the city's legendary blues clubs, as staging grounds from which to challenge the racial status quo with a steadfast determination not to be Jim Crowed in the Golden State. As this important work shows, working class African Americans often stood at the forefront of the struggle for equality and were linked to larger political, social, and cultural currents that transformed the nation in the postwar period. *To Place Our Deeds* traces the development of the African American community in Richmond, California, a city on the San Francisco Bay. This readable, extremely well researched social history based on numerous oral histories, newspapers, and archival collections.

southern farms or in mountain hollows Rather much of this music recorded before World War II emerged from the bustling cities and towns of the Piedmont South No group contributed more to the commercialization of early country music than southern factory workers In *Linthead Stomp* Patrick Huber explores the origins and development of this music in the Piedmont s mill villages Huber offers vivid portraits of a colorful cast of Piedmont millhand musicians including Fiddlin John Carson Charlie Poole Dave McCarn and the Dixon Brothers and considers the impact that urban living industrial work and mass culture had on their lives and music Drawing on a broad range of sources including rare 78 rpm recordings and unpublished interviews Huber reveals how the country music recorded between 1922 and 1942 was just as modern as the jazz music of the same era *Linthead Stomp* celebrates the Piedmont millhand fiddlers guitarists and banjo pickers who combined the collective memories of the rural countryside with the upheavals of urban industrial life to create a distinctive American music that spoke to the changing realities of the twentieth century South

Music and the Racial Imagination Ronald M. Radano, Philip V. Bohlman, 2000-12 A specter lurks in the house of music and it goes by the name of race write Ronald Radano and Philip Bohlman in their introduction Yet the intimate relationship between race and music has rarely been examined by contemporary scholars most of whom have abandoned it for the more enlightened notions of ethnicity and culture Here a distinguished group of contributors confront the issue head on Representing an unusually broad range of academic disciplines and geographic regions they critically examine how the imagination of race has influenced musical production reception and scholarly analysis even as they reject the objectivity of the concept itself Each essay follows the lead of the substantial introduction which reviews the history of race in European and American non Western and global musics placing it within the contexts of the colonial experience and the more recent formation of world music Offering a bold new revisionist agenda for musicology in a postmodern postcolonial world this book will appeal to students of culture and race across the humanities and social sciences

[Georgia Women](#) Kathleen Ann Clark, Ann Short Chirhart, 2014-07-15 Women were leading actors in twentieth century developments in Georgia yet most histories minimize their contributions The essays in the second volume of *Georgia Women* edited by Ann Short Chirhart and Kathleen Ann Clark vividly portray a wide array of Georgia women who played an important role in the state s history from

little known Progressive Era activists to famous present day figures such as Pulitzer Prize winning author Alice Walker and former First Lady Rosalynn Carter Georgia women were instrumental to state and national politics even before they achieved suffrage and as essays on Lillian Smith Frances Pauley Coretta Scott King and others demonstrate they played a key role in twentieth century struggles over civil rights gender equality and the proper size and reach of government Georgia women s contributions have been wide ranging in the arena of arts and culture and include the works of renowned blues singer Gertrude Ma Rainey and such nationally prominent literary figures as Margaret Mitchell Carson McCullers and Flannery O Connor as well as Walker While many of the volume s essays take a fresh look at relatively well known figures readers will also have the opportunity to discover women who were vital to Georgia s history yet remain relatively obscure today such as Atlanta educator and activist Lugenia Burns Hope World War II aviator Hazel Raines entrepreneur and carpet manufacturer Catherine Evans Whitener and rural activist and author Vara A Majette Collectively the life stories portrayed in this volume deepen our understanding of the multifaceted history of not only Georgia women but also the state itself

Mississippi Ted Ownby, 2002-10-15 The dreams of abundance choice and novelty that have fueled the growth of consumer culture in the United States would seem to have little place in the history of Mississippi a state long associated with poverty inequality and rural life But as Ted Ownby demonstrates in this innovative study consumer goods and shopping have played important roles in the development of class race and gender relations in Mississippi from the antebellum era to the present After examining the general and plantation stores of the nineteenth century a period when shopping habits were stratified according to racial and class hierarchies Ownby traces the development of new types of stores and buying patterns in the twentieth century when women and African Americans began to wield new forms of economic power Using sources as diverse as store ledgers blues lyrics and the writings of William Faulkner Eudora Welty Richard Wright and Will Percy he illuminates the changing relationships among race rural life and consumer goods and in the process offers a new way to
