this very religion in the course of history The time span from the Hellenistic age to Late Antiquity was crucial in the establishment of concepts and institutions of religion and witnessed extended waves of urbanisation Rome being central to this In addressing this problem this book fills a significant gap in the scholarship on urban religion across time Taking seriously the proposition that space is condition medium and outcome of social relations the development of urban religion in lived urban space and urban culture or urbanity offers a lens onto processes of religious change that have been neglected for the history of religion and for the study of urbanism The key thesis is that city space engineered the major changes that revolutionised religions This stimulating book makes use of archaeology and history to address religion as an essential component of urban life in both the past and the present With a strong basis in the ancient Mediterranean as well as an insightful view of modern urban life R pke emphasizes that the practice and performance of religion at the everyday level is as essential in the creation of an urban ethos as the grand temples and institutions promulgated by the elite Monica L Smith author of Cities The First 6 000 Years I rg R pke offers a characteristically original and learned series of reflections on some of the many ways in which the history of religions and the history of cities might be entangled Urban Religion offers no single overarching thesis but it is consistently thought provoking and suggests many intriguing lines of investigation for the future Greg Woolf Institute of Classical Studies London An Introduction to the Sociology of Religion Inger Furseth, Pål Repstad, 2023-09-05 What are religion and nonreligion How do fundamentalism and religious radicalization emerge and grow How do social class gender sexuality race ethnicity and other factors affect religious beliefs practices and organizations Is religion a fundamental driving force or do political leaders use religion for their own purposes In exploring these pertinent questions An Introduction to the Sociology of Religion provides an overview of sociological theories of contemporary religious life Theoretical discussion is accompanied by presentations of empirical research from several religious traditions in many parts of the world The sociology of religion is linked closely to developments in general sociology Some chapters are organized according to topic while others offer brief presentations of classical and contemporary sociologists from Karl Marx to Patricia Hill Collins and their perspectives on social life including on religion This second edition has been thoroughly updated throughout with new chapters on religion and social inequalities social and religious movements and extremism Covering classical sociology of religion as well as contemporary debates and topics this book is ideal reading for students approaching the sociology of religion for the first time Introducing Theologies of Religion Knitter, Paul F., 2014-04-10 An up to date accessible and comprehensive study of every major position taken by Christian churches and theologians on world religions and religious pluralism This volume shares insights into the positions of writers concerned with understanding Christianity among the worlds great religious traditions Avoiding tired labels of past debates Exclusivism Pluralism and Inclusivism Knitter suggest four different models Replacement Fulfillment Mutuality and Acceptance that more adequately link together thirteen ways of approaching and understanding the variety of the worlds religious expressions The Oxford

Handbook of Mission Studies Kirsteen Kim, Knud Jørgensen, Alison Fitchett-Climenhaga, 2022-04-18 The Oxford Handbook of Mission Studies represents more than a century of scholarship related to the theology history and methodology of the propagation of Christian faith and the engagement of Christians with cultures religions and societies worldwide It contains more than 40 articles by experts from different disciplinary and ecclesial perspectives who are from all continents It not only offers a broad overview of key approaches and issues in mission studies but it also highlights current trends and suggests future developments The Handbook builds on renewed interest in mission studies this century generated by recent key statements on mission from ecumenical evangelical Catholic and Orthodox sources and by a spate of academic works on the topic Western church leaders now apply insights from foreign missions such as inculturation liberation interfaith work and power encounter to today s multicultural societies Meanwhile there are new initiatives in mission from the Majority World where most Christians live so that sending is not only from the west to the rest but from everywhere to everywhere Therefore this volume aims to reflect the voices of the receivers of mission as well as its protagonists and to raise awareness of new movements In a time of growing recognition of religions more generally this work examines and theorizes the missional dimensions of the world's largest religion its agendas growth outreach role in public life effect on cultures relevance for development and its approaches to other communities Religion, Spirituality and the Near-Death Experience Mark Fox, 2003-12-16 This dramatic and sustained response to decades of research into near death experiences NDEs is the first book to credibly bridge the gap between the competing factions of science and spirituality Neither a religious argument touting NDEs as hard evidence for God nor a scientific rebuke to religious interpretations it balances investigation of these much reported yet baffling phenomena and brings fresh urgency to the study of our hopes for a life beyond The Key to the Qigong Meditation State Tianjun Liu, 2016-12-21 Focusing on Rujing the meditation state fundamental to Qigong meditation this ground breaking book looks at the practice from the perspective of psychology and cognitive science It describes what happens in mind and body during meditation and how to reach the state of Rujing The Gaze of Drifting Skies Jonathan Barli, 2016-11-09 Depicting the bustling crowds of humanity from magisterial heights was once a popular visual genre among artists and the public regularly appearing in mass market newspapers and magazines carnivals and circuses cook outs and baseball games bustling city streets and train stations or parades and epic battle scenes artists depicted the everyday life of urban and country settings where communities gathered for fun and revelry Adults and children alike could spend hours delighting in the details of these marvelously orchestrated scenes of human bustle This coffee table collection showcases the remarkable beauty and breadth of these forgotten American classics The Faiths of the World James Gardner, 1858 **Liberation Theology for a Democratic Society** Heinrich Bedford-Strohm, 2018 Public Theology is an indispensable dimension of the calling of the church As minister bishop and academic teacher Heinrich Bedford Strohm in this collection of articles in English language draws on a multitude of experiences in theological reflection as well as in

pastoral praxis The contributions of this volume include fundamental reflections on the role of churches and religion in the public sphere But they also deal with issues of material ethics such as human rights economic justice overcoming violence ecology or interreligious dialogue. The volume shows how theology can give moral guidance not only for the church but also Buddhist-Christian Dialogue as Theological Exchange Ernest M Valea, 2015-10-29 This book for society as a whole is intended to encourage the use of comparative theology in contemporary Buddhist Christian dialogue as a new approach that would truly respect each religious tradition s uniqueness and make dialogue beneficial for all participants interested in a real theological exchange As a result of the impasse reached by the current theologies of religions exclusivism inclusivism and pluralism in formulating a constructive approach in dialogue this volume assesses the thought of the founding fathers of an academic Buddhist Christian dialogue in search of clues that would encourage a comparativist approach These founding fathers are considered to be three important representatives of the Kyoto School Kitaro Nishida Keiji Nishitani and Masao Abe and John Cobb an American process theologian The quiding line for assessing their views of dialogue is the concept of human perfection as it is expressed by the original traditions in Mahayana Buddhism and Orthodox Christianity Following Abe s methodology in dialogue an Orthodox contribution to comparative theology proposes a reciprocal enrichment of traditions not by syncretistic means but by providing a better understanding and even correction of one s own tradition when considering it in the light of the other while using internal resources for making the necessary corrections
