*Satchmo* Louis Armstrong,1986 In all my whole career the Brick House was one of the toughest joints I ever played in It was the honky tonk where levee workers would congregate every Saturday night and trade with the gals who d stroll up and down the floor and the bar Those guys would drink and fight one another like circle saws Bottles would come flying over the bandstand like crazy and there was lots of just plain common shooting and cutting But somehow all that jive didn t faze me at all I was so happy to have some place to blow my horn So says Louis Armstrong a tough kid who just happened to be a musical genius about one of the places where he performed and grew up This raucous rich tale of his early days in New Orleans concludes with his departure to Chicago at twenty one to play with his boyhood idol King Oliver and tells the story of a life that began mythically on July 4 1900 in the city that sowed the seeds of jazz Ella Fitzgerald J. Wilfred Johnson,2001-01-01 Ella Fitzgerald was one of America s greatest jazz singers This volume is as complete a discography of her recorded songs as currently seems possible to compile This volume also contains a complete discography 1927 1939 for drummer and bandleader Chick Webb with whom Ella began her recording career in 1935 Part One includes a chronological listing of all known recorded performances of both Chick Webb and Ella Part Two gives the complete contents of Ella s LPs and CDs including track listings titles with lyricists and composers and timings Part Three is an annotated alphabetical listing of all songs contained on all of Fitzgerald s records with detailed information on each song s composer lyricist and

history Reviews of the movies in which Ella appeared and surveys of her career with the Decca Verve and Pablo music companies are included The book also has an index of album and CD recordings and composers lyricists and musicians

*Music Is My Life* Daniel Stein,2012-05-03 *Music Is My Life* is the first comprehensive analysis of Louis Armstrong s autobiographical writings including his books essays and letters and their relation to his musical and visual performances Combining approaches from autobiography theory literary criticism intermedia studies cultural history and musicology Daniel Stein reconstructs Armstrong s performances of his life story across various media and for different audiences complicating the monolithic and hagiographic views of the musician The book will appeal to academic readers with an interest in African American studies jazz studies musicology and popular culture as well as general readers interested in Armstrong s life and music jazz and twentieth century entertainment While not a biography it provides a key to understanding Armstrong s oeuvre as well as his complicated place in American history and twentieth century media culture

From Jazz Novice to Jazz Connoisseur The Jazzsippers Group,2017-05-23 Become a Jazz Connoisseur In Just One Read A connoisseur is a person who through study and interest has a fine appreciation for something like the connoisseur who can identify the clarinet player on a jazz recording the sound of his inhalations alone **Schwann Long Playing Record Catalog** ,1969 **Music in America's Cold War Diplomacy** Danielle Fosler-Lussier,2015-04-30 During the Cold War thousands of musicians from the United States traveled the world sponsored by the U S State Department s Cultural Presentations program Performances of music in many styles classical rock n roll folk blues and jazz competed with those by traveling Soviet and mainland Chinese artists enhancing the prestige of American culture These concerts offered audiences around the world evidence of America s improving race relations excellent musicianship and generosity toward other peoples Through personal contacts and the media musical diplomacy also created subtle musical social and political relationships on a global scale Although born of state sponsored tours often conceived as propaganda ventures these relationships were in themselves great diplomatic achievements and constituted the essence of America s soft power Using archival documents and newly collected oral histories Danielle Fosler Lussier shows that musical diplomacy had vastly different meanings for its various participants including government officials musicians concert promoters and audiences Through the stories of musicians from Louis Armstrong and Marian Anderson to orchestras and college choirs Fosler Lussier deftly explores the value and consequences of musical diplomacy **White Malice** Susan Williams,2021-08-10 A revelatory history of how postcolonial African Independence movements were systematically undermined by one nation above all the US In 1958 in Accra Ghana the Hands Off Africa conference brought together the leading figures of African independence in a public show of political strength and purpose The charismatic Kwame Nkrumah who had just won Ghana s independence led a determined appeal for Pan Africanism Young idealistic leaders across the continent as well as African Americans seeking civil rights at home heeded his call Yet a moment that signified a new era of African freedom simultaneously marked a new era of

foreign intervention and control In White Malice Susan Williams unearths the CIA s covert operations from Ghana to the Congo to the UN which frustrated the attempts of Africa s new generation of nationalist leaders to establish democratic governance These revelations dramatically upend the conventional wisdom that African nations failed to establish effective democratic states on their own accord As the old European powers moved out the US moved in Drawing on original research and recently declassified documents Williams introduces readers to idealistic African leaders and to the secret agents ambassadors and even presidents who deliberately worked against them forever altering the future of a continent

*Semi-annual Report* President's Special International Program (U.S.), *Nixon's Secrets* Roger Stone, 2014-08-11 Learn the inside scoop on Watergate the Ford Pardon and the 18 minute Gap Roger Stone The New York Times bestselling author of *The Man Who Killed Kennedy* the *Case Against LBJ* gives the inside scoop on Nixon s rise and fall in Watergate in his new book *Nixon s Secrets* Stone charts Nixon s rise from election to Congress in 1946 to the White House in 1968 after his razor thin loss to John Kennedy in 1960 his disastrous campaign for Governor of California in 1962 and the greatest comeback in American Presidential history Just as the assassination of JFK prevents a balanced analysis of Kennedy and his times the myth of Watergate prevents a reappraisal of our 37th President said Stone who s book on LBJ was the second biggest selling book during the 50th anniversary of Kennedy s murder Stone reveals how the Kennedy s wiretapped Nixon s hotel room the night before the Nixon Kennedy debate and stole Nixon s medical records from his psychiatrist s office Stone lays out how Kennedy running mate Lyndon Johnson stole Texas from JFK through vote fraud while Mayor Richard Daley stole Illinois and how JFK actually lost the popular vote Stone looks at the Nixon Presidency the desegregation of the public schools the progressive social programs Nixon s struggle to end the war in Vietnam the historic SALT arms reduction agreement with Russia the saving of Israel in the Six Days War the opening to China and the disastrous decision to take America off the Gold standard The mainstream media s interpretation of the facts surrounding the Watergate episode are a fantastic and grotesque distortion of historical truth said Stone cursory examination of the facts in Watergate will reveal that the actions which caused the fall of Nixon cannot be reduced to the simplistic account summarized by Bob Woodward and Carl Bernstein of the Washington Post The author outlines how White House Counsel John Dean planned pushed and covered up the Watergate break in then sought to avoid responsibility for it Stone examines the bungled Watergate break in to determine what exactly Nixon s agents were looking for and how the CIA infiltrated the burglar team and sabotaged the break in to gain leverage over Nixon Find out why Nixon demanded the CIA turn over the records of the Bay of Pigs and Kennedy Assassination Learn how a cabal of military and intelligence hard liners spied on and undermined Nixon to stop his pro peace d tente foreign policy his withdrawal of troops from Vietnam his arms limitation agreement with the Soviets and his opening to Red China Discover how Vice President Spiro Agnew was setup to move him out of the line of presidential succession Stone makes the compelling case that General Alexander Haig orchestrated Nixon s removal from office in a coup d tat and

brokered the deal for his pardon Finally the public will learn what is on the 18 minute gap in the White House Tapes Stone a Washington Insider for forty years outlines why FBI Man Mark Felt is not deep throat why there is no deep throat and why Bob Woodward and Carl Bernstein lie about it even today Stone reveals how Nixon used the dark secrets he knew to avoid prosecution by blackmailing Gerald Ford for a full free and unconditional pardon Nixon s secret would not only destroy his presidency it would save him from prison and allow him to launch his final comeback advising President Bill Clinton on Foreign Affairs despite Hillary s attempts to block him and her being fired from the 1974 House Impeachment Committee for lying and violating Nixon s rights

The State of the American Mind: Stupor and Pathetic Docility Amechi Okolo PhD,2010-06-10 This book The State of the American Mind Stupor and Pathetic Docility Volume One begins to unravel some of the most obvious perplexing embarrassing and enduring problems and contradictions of American history and sociology viz how could the American revolution that started with the most ringing and most inspiring Declarations of human equality in world history end up establishing the most vicious exploitative society the world ever knew Black chattel slavery and only ten percent white enfranchisement etc Further how could men of such great wisdom and intellect like George Washington James Madison Thomas Jefferson and others who were Enlightenment scholars and clearly knew that slavery was despicable and evil because they had variously experienced white servitude and slavery themselves collude to establish and institutionalize the horrible system of Negro chattel slavery in America and also disenfranchised over 90 percent of people of their own race actions that racism could not explain The structural institutional slavery system they established and the resultant consequent racism hobbles America today as it did in the past and forced Eric Holder the Attorney General to declare that America is a nation of cowards when it comes to race discussions Thus this book starts with serious critical discussions of race in America and reveals what no textbook has ever done viz that most early American whites and Blacks were slaves an uncomfortable fact that would shock most Americans because it contradicts the orthodoxy or the dominant narrative that only Blacks were brought here in chains Further the book also shows the year Black slavery started something almost all textbooks got wrong It also shows who was the first Black slave in America something no textbook ever mentions It also shows when and how racism started in America and many other very sensitive and embarrassing but necessary issues that America avoids but must be frankly discussed for America to move forward This book therefore shatters the two dominant themes of Americas history and sociology that Blacks were brought into America in chains as slaves while whites came to America in search of freedom as Obama famously told us in his race speech Thus the crowning lesson of this book in addition to discussing some critical policy issues like education health care etc is that it discovers the centripetal force of the American society that eluded contemporary Americans because American bosses have laboriously concealed the facts from the public the scary but clearly healthy

uniting fact that most Americans are united by their common ancestry their universal history and experience of servitude bond indentures and slavery Nothing is more universal more common and more shared in American history and sociology than the fact that most of our ancestors black and white were servants bond indentures and slaves who were dominated and super exploited by few overlords Colonial America was the preferred dumping ground for British outcasts rejects criminals masterless class vagabonds bond indentures slaves etc until 1776 when Australia replaced America as the British dump for its rejects and surplus citizens Thus that America was a nation founded by British rejects and losers is inherently more rational than the prevailing orthodoxy or the Obama theory of Americas founders that they were great honorable men who journeyed across the ocean for freedom because of the obvious reason that good powerful achieving citizens do not normally emigrate to new uncharted lands
