Emanuel Swedenborg,1852 Works of Love Søren Kierkegaard,2013-04-21 The various kinds and conditions of love are a common theme for Kierkegaard beginning with his early Either Or through The Diary of the Seducer and Judge William's eulogy on married love to his last work on the changelessness of God's love Works of Love the midpoint in the series is also the monumental high point because of its penetrating illuminating analysis of the forms and sources of love Love as feeling and mood is distinguished from works of love love of the lovable from love of the unlovely preferential love from love as the royal law love as mutual egotism from triangular love and erotic love from self giving love This work is marked by Kierkegaard's Socratic awareness of the reader both as the center of awakened understanding and as the initiator of action Written to be read aloud the book conveys a keenness of thought and an insightful poetic imagination that make such an attentive approach richly rewarding Works of Love not only serves as an excellent place to begin exploring the writings of Kierkegaard but also rewards many rereadings **The Shakespeare Symphony** Harold Bayley,1906 **The Delights of Wisdom Pertaining to Conjugal Love** Emanuel Swedenborg,1856 Prometheus the firegiver. Eros and Psyche. The growth of love. Notes Robert Bridges,1898 The Love Of Universal Reason Willeime,2025-08-14 From Plato and Aristotle with their uncaused cause to Immanuel Kant and his so called contradictions of pure Reason mainstream thinking has held that the principle of Reason is limited Following in the footsteps of Democritus Epicurus Spinoza Einstein this essay on the contrary elevates Reason or universal Causality to the rank of absolute foundation of reality and extends it without limits to the entire cosmos Based on the most recent scientific advances I reformulate the complete explanation for the existence of reality from the origin of the worlds to the most subtle faculties of the human mind Breaking through the metaphysical paradoxes deemed insoluble my thoughts then penetrate the secret cause of all things and revive a thousand year old philosophical current Integral rationalism has almost always frightened human beings At first glance the material world described by science condemns us to perish makes freedom impossible and ignores the meaning of all value Unable to meet the challenge of our condition Plato rejected the philosophers of nature and since then the majority of so called philosophers have followed him taking refuge in various intellectualized forms of spiritualism On the other side others are content with the appearance of things and oscillate between skepticism relativism and fatalism Against these two impasses I set out in search of true wisdom the one that refuses both to flee from reality and to renounce the most precious impulses of my heart Obviously the origin of reality the meaning of life and the torment of death have still not found clear and coherent answers that would completely reconcile us with reality and at the same time convince us of their veracity to the point that they are embraced by all friends of truth Despite a few rare geniuses who once touched upon this ultimate philosophy sublime answers to the great problems of existence have still not been clearly announced Observing this void I set out to find them for myself After long efforts I have now reached a level of coherence that exceeds all my initial hopes I offer you here the
