Child Abuse and Neglect John T. Pardeck,1989 Child abuse and neglect is recognized as one of the major social problems facing modern society today An increase in the theory and research into causes and treatment has resulted in the growth of practical knowledge derived from the fields of psychiatry psychology education sociology social work and related professions Reflecting a multi disciplinary approach this study presents the latest findings from these fields by exploring the issue of child abuse and neglect from a broad theoretical perspective Both micro and macro approaches are stressed in the

Kress, 2014-07-03 Erich Fromm's body of work written more than 50 years ago was prophetic of the contemporary moment Increasingly global society is threatened by the many headed monster of corporate greed neo liberalism nihilism extreme fundamentalist beliefs and their resulting effects on the natural world and the lived lives of people Fromm clearly warned us of the peril of the misuse of technology and the destructive nature of man's perverse desire to possess control and or destroy Through his theories of having vs being the importance of hope as active resistance and his notion of freedom as the capacity to love self and others Fromm encouraged his readers to cultivate biophilic ways of being in

the world that will counter and heal the impending necrophilic plunder of man's hubris This multi authored volume sheds new light on Fromm's forgotten role in the formation of contemporary thought through an engaging variety of reflexive and historical narratives from fields of sociology clinical psychology political science critical theory of religion and education Key concepts from his body of work are interpreted and expressed in ways that offer hopeful and humane alternatives to the present global conditions of despair greed and depersonalization **The Radical Humanism of Erich Fromm** K.

Durkin,2014-09-04 This book shortlisted for the British Sociological Association's Philip Abrams Memorial Prize 2015 argues that Fromm is a vital and largely overlooked contribution to twentieth century intellectual history and one who offers a refreshingly reconfigured form of humanism that is capable of reintegrating explicitly humanist analytical categories and schemas back into social theoretical and scientific considerations *Choice* ,1989 *Erich Fromm's Revolutionary Hope*

Annual Meeting Program American Educational Research Association,1992 *Love, Justice, and Education* William H. Schubert,2010-01-01 *Love Justice and Education* by William H Schubert brings to life key ideas in the work of John Dewey and their relevance for the world today He does this by imagining continuation of a highly evocative article that Dewey

published in the New York Times in 1933 Dewey wrote from the posture of having visited Utopia Schubert begins each of thirty short chapters with a phrase or sentence from Dewey's article in response to which a continuous flow of Utopians consider what is necessary for educational and social reform among Earthlings Schubert encourages the Utopians who have studied Earthling practices and literatures to recommend from their experience what Earthlings need for educational and social reform and how they can address obstacles to that reform The Utopians speak to myriad implications of Dewey's report by drawing upon a wide range of philosophical literary and educational ideas including many of Dewey's other writings Their central message is that loving relationships and empathic dedication to social justice are necessary for educational reform that responds wholeheartedly to learner needs and interests True to Dewey's original position such education must be built upon social reform that works to overcome acquisitive society based on greed the principal impediment to realizing human potential democratic society and educational relationships that enhance it To overcome the debilitating acquisitiveness that plagues Earth is the challenge for educators and all human beings who seek to involve the young in composing their lives and cultivating a world of integrity beauty justice love and continuously evolving capacities of humanity

Emancipated Education Azhar Ibrahim, 2022-12-06 The obsession with world rankings and vocational training has turned universities into factories for the production of students and publications Teaching plays second fiddle to research output normally circulated within a small circle of experts to be validated or condemned to the abyss leading to the justifiable charge that universities are ivory towers In *Emancipated Education* Dr Azhar Ibrahim's call to reclaim the space of what he calls the educative front as a site for emancipation is timely and urgent Channelling the thoughts of giants like Paulo Freire and N F S Grundtvig the book articulates the higher purpose of higher education It serves to re-humanise the human process of learning that we may have harmed Dr Nazry Bahrawi Literary and cultural critic Co-founder of the Bras Basah Open School for Theory and Philosophy Dr Azhar's book is a detour around the current climate of global education which tends to celebrate rankings at the expense of empowerment and humanisation He clearly shows that education should be a combative front against any establishment without having to succumb to dogmatic power through a combination of reason ethics conscience and spirituality For him education is not just a ladder for immediate gains but is also supposed to be a part of supra-structure to ensure social justice *Emancipated Education* is a must-read book for teachers lecturers and education policy makers alike who wish to recharge their intellectual spirits Dr Achmad Uzair Fauzan Director of the Office for International Affairs Sunan Kalijaga State Islamic University Yogyakarta

American Jewish History, 1989 Feeling White Cheryl E. Matias, 2016-03-22 Discussing race and racism often conjures up emotions of guilt shame anger defensiveness denial sadness dissonance and discomfort Instead of suppressing those feelings coined emotionalities of whiteness they are nonetheless important to identify understand and deconstruct if one ever hopes to fully commit to racial equity *Feeling White Whiteness Emotionality and Education* delves deeper into these white emotionalities and other latent

ones by providing theoretical and psychoanalytic analyses to determine where these emotions stem from, how they operate and how they perpetuate racial inequities in education and society. The author beautifully weaves in creative writing with theoretical work to artistically illustrate how these emotions operate while also engaging the reader in an emotional experience in and of itself, claiming one must feel to understand. This book does not rehash former race concepts; rather, it applies them in novel ways that get at the heart of humanity, thus revealing how feeling white ultimately impacts race relations. Without a proper investigation on these underlying emotions that can both stifle or enhance one's commitment to racial justice in education and society, the field of education denies itself a proper emotional preparation so needed to engage in prolonged educative projects of racial and social justice. By digging deep to what impacts humanity most, our hearts, this book dares to expose one's daily experiences with race, thus individually challenging us all to self-investigate our own racialized emotionalities. Drawing on her deep wisdom about how race works, Cheryl Matias directly interrogates the emotional arsenal white people use as shields from the pain of confronting racism, peeling back its layers to unearth a core of love that can open us up. In *Feeling White: Whiteness, Emotionality, and Education*, Matias deftly names and deconstructs distancing emotions, prodding us to stay in the conversation in order to become teachers who can reach children marginalized by racism.

Christine Sleeter, Ph.D., Professor Emerita, California State University, Monterey Bay, in *Feeling White*, Cheryl E. Matias blends astute observations, analyses, and insights about the emotions embedded in white identity and their impact on the racialized politics of affect in teacher education. Drawing deftly on her own classroom experiences as well as her mastery of the methodologies and theories of critical whiteness studies, Matias challenges us to develop what Dr. King called the strength to love by confronting and conquering the affective structures that promote white innocence and preclude white accountability.

George Lipsitz, Ph.D., Professor, University of California, Santa Barbara, and author of *The Possessive Investment in Whiteness*, Cheryl E. Matias, Ph.D., is an assistant professor in the School of Education and Human Development at the University of Colorado, Denver. She is a motherscholar of three children, including boy-girl twins.

[The Lives of Erich Fromm](#)

Lawrence J. Friedman, Anke M. Schreiber, 2013-02-12. This brilliantly comprehensive study explores the influential thinker's contributions to psychology, philosophy, and more academic biography at its best. Kirkus starred review. Erich Fromm was a political activist, psychologist, psychoanalyst, philosopher, and one of the most important intellectuals of the twentieth century. Known for his theories of personality and political insight, Fromm dissected the sadomasochistic appeal of populist dictators. He eloquently championed the virtues of love rooted in joyful contact with others and humanity at large. Admired all over the world, Fromm continues to inspire with his message of universal brotherhood. In the first systematic study of Fromm's influences and achievements, Lawrence J. Friedman revisits the thinker's most important works, including *Escape from Freedom* and *The Art of Loving*. He also recounts Fromm's political activism as a founder of Amnesty International, the National Committee for a Sane Nuclear Policy, and other peace groups. Friedman also reveals Fromm's support for anti-

Stalinist democratic movements in Central and Eastern Europe and his efforts to revitalize American democracy Friedman elucidates Fromm's key intellectual contributions especially his innovative concept of social character in which social institutions and practices shape the inner psyche and he clarifies Fromm's conception of love as an acquired skill Taking full stock of the thinker's historical and global accomplishments Friedman portrays a man of immense authenticity and spirituality who made life in the twentieth century more humane than it might have been World Authors, 1900-1950, 1996 Provides almost 2700 articles on twentieth century authors from all over the world who wrote in English or whose works are available in English translation *Bibliographic Index*, 1991 Education in the Era of Globalization Klas Roth, Ilan Gur-Ze'ev, 2007-10-11 Education seems to have lost its orientation in Western culture and is in disarray all over the globe in time of global transitions Globalizing capitalism is the general headline for some of the most profound deep and dramatic developments in our era that education must address The response of educationalists is only in its beginning and there is an urgent need to address the dramatic changes inflicted on promised to our era philosophically sociologically culturally ecologically physically aesthetically and politically In the proposed book we try to address the challenge of globalization to education in the broadest sense of the concept of education by treating this challenge in various perspectives through different disciplines and topics within which the challenge of globalization is conceived as the most profound dynamic of this historical moment a development that is realized in many diverse and different levels fields and spaces of human and natural existence The various texts in this collection written by some of the famous and interesting scholars in the field of philosophy of education and the sociology of education try to address the richness and diversity of the challenge of globalization It tries to reconstruct historically sociologically and philosophically the roots the practices and the fruits of globalization as a threat and as a gateway for new possibilities for today's education The collection is a meeting point for research that is not only analytical and critical but also offers new roads and possibilities for education in the 21st century in face of globalization As such this collection is unique in this field and opens the door for further research and public discussion on the future role of education
