Kelly, 2004-01-30 Spicing erudition with wit Professor Kelly takes a new look at medieval attitudes toward love sexuality and marriage and he corrects a number of long standing misconceptions embodied in the concept of courtly love Through a close examination of canon law the common practice of clandestine marriage writings on mysticism and medieval poetry particularly Gower's *Confessio amantis* and Chaucer's romances and their sources he concludes that medieval lovers favored matrimony and did not consider sexual passion incompatible with virtue His evidence contradicts the theory closely associated with C S Lewis that extramarital love was preferred in the Middle Ages and that the sexual pleasures celebrated by poets were necessarily regarded as immoral by society at large By placing religious and cultural conventions in their proper context Professor Kelly shows that the hopes and fears of medieval lovers were much the same as those of lovers of all other ages Marriage in Medieval England Conor McCarthy, 2004 A survey of attitudes to marriage as represented in medieval legal and literary texts *Love & Marriage in Late Medieval London* , 1995-05-01 Depositions or testimony in marriage cases brought before fifteenth century English church courts reveal the attitudes and feelings of medieval people towards the marital bond *Strategies of Passion* Bjørn Bandlien, 2005 This book is concerned with the social and gendered meanings of love in medieval Norway and Iceland In the Viking Age to love would most often imply a submissive social position while being loved by a woman could elevate a man above the status of her family Women were supposed to love upwards in the social hierarchy but could also use their desire to negotiate the social position of men A close reading of the skaldic poetry shows the dilemma men faced when longing for women's love and approval These ideas of love relations shaped Norse interpretations of courtly love and marriage formation by consent in the twelfth and thirteenth centuries However new ideas of sexuality gender and aristocratic culture changed several aspects of love and marital affection in the later middle ages Men became the loving subject but in a way that did not challenge the social order For women ideal love was attached to humility and submission to parents and husband But even though the new ideology of love and marriage to some extent neutralized the tensions between consent and parental control the sources show that both men and women could use the new conceptions of love to serve their own marital and social strategies **Europe in the Central Middle Ages** Christopher Brooke, 2016-04-15 This wide ranging introduction to medieval Europe has been updated and revised In his popular survey Brooke explores the variety of human experience in the period He looks at society economy religious life and popular religion learning culture as well as political events the rise of the Normans and the heyday of the medieval Empire For the new edition there is increased coverage of the role of women and more attention to central Europe
