Several chapters explore French tastes in popular literature and other reading matter including comics cartoons mystery and spy fiction newspapers and magazines and science fiction. Film popular music radio and television are also discussed in detail and influences from other cultures particularly American imports are assessed. The remaining essays examine French sports the use of leisure time the French style of eating and drinking and relations between men and women and their attitudes toward romantic love. *Reimagining Society in 18th Century French Literature* Jonas Ross Kjærgård, 2018-08-06. The French revolutionary shift from monarchical to popular sovereignty came clothed in a new political language a significant part of which was a strange coupling of happiness and rights. In Old Regime ideology Frenchmen were considered subjects who had no need of understanding why what was prescribed to them would be in the interest of their happiness. The 1789 Declaration of the Rights of Man and of the Citizen equipped the French with a list of inalienable rights and if society would respect those rights the happiness of all would materialize. This volume explores the authors of fictional literature who contributed alongside pamphleteers politicians and philosophers to the establishment of this new political arena filled with sometimes vague yet insistent notions of happiness and rights. The shift from monarchical to popular sovereignty and the corollary transition from subjects to citizens culminated in the summer of 1789 but it was preceded by an immense piece of imaginative work. **The Eighteenth Century**, 1996      *Female Intimacies in Seventeenth-Century French Literature* Marianne Legault, 2016-04-15. Examining literary discourses on female friendship and intimacy in seventeenth century France this study takes as its premise the view that unlike men women have been denied for centuries the possibility of same sex friendship. The author explores the effect of this homosocial and homoprivileged heritage on the deployment and constructions of female friendship and homoerotic relationships as thematic narratives in works by male and female writers in seventeenth century France. The book consists of three parts the first surveys the history of male thinkers denial of female friendship concluding with a synopsis of the cultural representations of female same sex practices. The second analyzes female intimacy and homoeroticism as imagined appropriated and finally repudiated by Honoré d'Urfé's pastoral novel *L'Astrée* and Isaac de

Benserade's seemingly lesbian friendly comedy *Iphis et Iante* The third turns to unprecedented depictions of female intimate and homoerotic bonds in Madeleine de Scudry's novel *Mathilde* and Charlotte Rose de Caumont de La Force's fairy tale *Plus Belle que Fée* This study reveals a female literary genealogy of intimacies between women in seventeenth century France and adds to the research in lesbian and queer studies fields in which pre eighteenth century French literary texts are rare

**L'Esprit Créateur**, 1987      **The Publishers' Trade List Annual**, 1904      *The Other Rise of the Novel in Eighteenth-Century French Fiction* Olivier Delers, 2015-09-01 The rise of the novel paradigm and the underlying homology between the rise of a bourgeois middle class and the coming of age of a new literary genre continues to influence the way we analyze economic discourse in the eighteenth century French novel Characters are often seen as portraying bourgeois values even when historiographical evidence points to the virtual absence of a self conscious and coherent bourgeoisie in France in the early modern period Likewise the fact that the nobility was a dynamic and diverse group whose members had learned to think in individualistic and meritocratic terms as a result of courtly politics is often ignored The *Other Rise of the Novel* calls for a radical revision of how realism the language of self interest and commercial exchanges and idealized noble values interact in the early modern novel It focuses on two novels from the seventeenth century Furetière's *Roman bourgeois* and Lafayette's *Princesse de Clèves* and four novels from the eighteenth century Prevost's *Manon Lescaut* Graffigny's *Lettres d'une Pruvienne* Rousseau's *La Nouvelle Héloïse* and Sade's *Les infortunes de la vertu* It argues that eighteenth century French fiction does not reflect material culture mimetically and that character action is best analyzed by focusing on the social and discursive exchanges staged by the text rather than by trying to create parallels between specific behavior and actual historical changes The novel produces its own reality by transforming characters and their stories into alternative social models different articulations of how individuals should define their economic relations to others The representation of interpersonal relations often highlights personal conceptions of private interest that cannot be easily reconciled with the traditional narrative of a transition towards economic modernity Realism then is not only about verisimilar storytelling and psychological depth it is an epistemological questioning about the type of access to reality that a particular genre can give its readers      *Women Writers in Pre-Revolutionary France* Collette H. Winn, Donna Kuizenga, 2018-12-07 This extensive collection of English language essays examines the many strategies of resistance to male domination that women in France from the 16th through the 18th centuries utilized in their lives and their writings      *Bibliographic Index*, 1989      **Through the Reading Glass** Suellen Diaconoff, 2006-06-01 Argues that women's relationship to books and their promotion of reading contributed greatly to the cultural and intellectual vitality of the Enlightenment      *Riding the Black Ram* Susan Heinzelman, 2010-02-25 Unruly women are not often represented in a good light Whether historical or fictional disruptive women with their real or imagined excesses have long provided the material for literary and legal narratives This probing new work analyzes a series of literary legal and historical texts to demonstrate the persistence of certain gender stereotypes

In her 1820 adultery trial Queen Caroline was depicted in a cartoon riding into the House of Lords on a black ram that had the face of her Italian lover As this book reveals a number of women remembered largely for their insubordinate presence have metaphorically ridden the black ram in the last 700 years Heinzelman's historicized understanding of the relationship between law and literature reveals a disquieting pattern in the legal and literary representations of women and provides a new recognition of the significance of sexuality and gender in the way we narrate our world Seducing the Eighteenth-century French Reader Paul J. Young, 2008 Considering canonical and lesser known works by authors that include Rousseau Sade Bastide Laclos Crillon and the writers of two widely read libertine novels Paul Young suggests that narratives of seduction function as a master plot for eighteenth century French literature How authors reacted to a cultural discourse that coded literature and solitary reading as dangerous seductive practices sheds light on the history of authorship especially the development of the novel *Strategic Rewriting* David Lee Rubin, 2002 A broad based innovative survey of rewriting in several modalities translation adaptation recycling appropriation and re mediation along with the effect of each on form and meaning kind and canon historical and discursive continuity as well as the conceptualizing of gender Essays on Du Bellay Montaigne La Cepp de Tbophile de Viau Corneille d'Aubignac La Fontaine Diderot and recent Anglo American translations of La Princesse de Cleves **Women, the Family, and Freedom** Susan G. Bell, Karen M. Offen, 1983 This is the first book in a two part collection of 264 primary source documents from the Enlightenment to 1950 chronicling the public debate that raged in Europe and America over the role of women in Western society The present volume looks at the period from 1750 to 1880 The central issues motherhood women's legal position in the family equality of the sexes the effect on social stability of women's education and labor extended to women the struggle by men for personal and political liberty These issues were political economic and religious dynamite They exploded in debates of philosophers political theorists scientists novelists and religious and political leaders This collection emphasizes the debate by juxtaposing prevailing and dissenting points of view at given historical moments e.g. Madame de Staël vs Rousseau Eleanor Marx vs Pope Leo XIII Strindberg vs Ibsen Simone de Beauvoir vs Margaret Mead Each section is preceded by a contextual headnote pinpointing the documents significance Many of the documents have been translated into English for the first time **Traumatic Politics** Barry M. Shapiro, 2010-11-01 **Market Strategies and German Literature in the Long Nineteenth Century** Vance Byrd, Ervin Malakaj, 2020-01-20 Building upon recent German Studies research addressing the industrialization of printing the expansion of publication venues new publication formats and readership Market Strategies maps a networked literary field in which the production promotion and reception of literature from the Enlightenment to World War II emerges as a collaborative enterprise driven by the interests of actors and institutions These essays demonstrate how a network of authors editors and publishers devised mutually beneficial and at times conflicting strategies for achieving success on the rapidly evolving nineteenth century German literary market In particular the contributors consider how these actors shaped

a nineteenth century literary market which included the Jewish press highbrow and lowbrow genres and modernist publications They explore the tensions felt as markets expanded and restrictions were imposed which yielded resilient new publication strategies fostered criticism and led to formal innovations The volume thus serves as major contribution to interdisciplinary research in nineteenth century German literary media and cultural studies      **Unmaking Sex** Anne E. Linton, 2022-03-24 During the nineteenth century words like intersex and trans had not yet been invented to describe individuals whose bodies or senses of self conflicted with binary sex But that does not mean that such people did not exist In nineteenth century France case studies filled medical journals high profile trials captured headlines and doctors staked their reputations on sex determinations only to have them later reversed by colleagues While medical experts fought over what separated a man from a woman novelists began to explore debates about binary sex and describe the experiences of gender ambiguous characters Anne Linton discusses over 200 newly uncovered case studies while offering fresh readings of literature by several famous writers of the period as well as long overlooked popular fiction This landmark contribution to the history of sexuality is the first book to examine intersex in both medicine and literature sensitively relating historical hermaphroditism to contemporary intersex activism and scholarship      **The Cumulative Book Index** , 1997 A world list of books in the English language
