Wherever you re from from whatever background or class no one knows what goes on behind closed doors The trauma and abuse I was brought up with from a young child has made me the person that I am today It is like a branding iron put onto a developing mind The scars you cannot see but dictate my every moment others of you out there will know exactly what I mean I hold no shame for what was done to me as a child It has certainly given me more tolerance for other s situations because of it It has certainly made me more understanding For all my adult life I have suffered from mental health issues as a result This itself has made me more empathetic with others All these poems come from deep within Some written from very dark places others from hope and forgiveness I ve written many poems when I ve had no one to talk to Writing has always been there for me it has always been my friend Forgive those that hurt you for it will only harm you Love and good luck Braveheart

The English in Love Claire Langhamer,2013-08-22 Love has a history It has meant different things to different people at different moments and has served different purposes This book tells the story of love at a crucial point a moment when the emotional landscape changed dramatically for large numbers of people It is a story based in England but informed by America and covers the period from the end of the First World War until the break up of The Beatles To the casual observer this era was a golden age of marriage More people married than ever before They did so at increasingly younger ages And there was a revolution in our idea of what marriage meant Pragmatic notions of marriage as institution were superseded by the more romantic ideal of a relationship based upon individual emotional commitment love sex and personal fulfilment And yet this new idea of marriage based on a belief in the transformative power of love and emotion carried within it the seeds of its own destruction Romantic love particularly when tied to sexual satisfaction ultimately proved an unreliable foundation upon which to build marriages fatally it had the potential to evaporate over time and under pressure Scratching beneath the surface of the apparent golden age of marriage Claire Langhamer uncovers the real story of love in the twentieth century via the recollections of ordinary people who lived through the period It is a tale of quiet emotional instability persistent subversion and unsettling change At its end the idea of life long marriage was in serious decline And as Langhamer shows this was a decline directly rooted in the contradictions and tensions that lay at the heart of the emotional revolution itself **Catalog of Copyright Entries** ,1945 Love + Fear Shantini Munthre,2019-02-22 Love Fear
