Love Sexuality And Matriarchy About Gender:

Love, Sexuality, and Matriarchy Erich Fromm, 1997 One of the world's most widely read psychoanalysts Erich Fromm was a groundbreaking thinker on gender and sex issues which have come to have a profound impact on psychology in recent years. He believed that a state of war has existed between the sexes for some six thousand years, a guerrilla war which followed the triumph of men over women and reorganized society on the basis of male domination, turning women into the property of men. As long as we fail to acknowledge this state of war dating back to the dawn of history, Fromm said, we will never understand the psychology of men and women. In *Love, Sexuality, and Matriarchy About Gender*, his most significant contributions about the problematic relations between men and women, some never before available in English, are brought together for the first time. They reveal Fromm as a pioneer of many of today's most challenging ideas about gender. BOOK JACKET Title Summary field provided by Blackwell North America Inc. All Rights Reserved *Erich Fromm's Critical Theory* Kieran Durkin, Joan Braune, 2020-04-16 Interest in Fromm is increasing as a prominent Marxist sociologist, psychoanalytic theorist, and public intellectual, the unique normative humanist thrust of his writings provides a crucial critical reference point for those seeking to understand and transcend the societal pathologies of our age. The essays in this volume retrieve, revive, and expand upon Fromm's central insights and contributions. They offer a critical theory of culture, the self, psychology, and society that goes beyond what is typical of the narrower concerns of the fragmented and isolated disciplines of today, demonstrating the pan-disciplinary potential of Fromm's work. But this book does not simply reassert Fromm's ideas and rehash his theories; rather, it reconstructs them to bring them into meaningful dialogue with contemporary ideas and cultural, political, and economic developments. Providing new approaches to Fromm's ideas and work brings them up to date with contemporary problems and debates in theory and society and helps us understand the challenges of our times. The Dunayevskaya-Marcuse-Fromm Correspondence, 1954-1978 Kevin Anderson, Russell Rockwell, 2012-01-01 This volume contains the correspondence during the years 1954 to 1978 between Marxist Humanist and feminist philosopher Raya Dunayevskaya (1910-87) and the Hegelian Marxist philosopher and social theorist Herbert Marcuse (1898-1979) and the psychologist and social critic Erich Fromm (1900-80). The exchanges show the deeply Marxist and humanist concerns of these theorists while also highlighting their significant differences on key issues in philosophy, politics, and psychology during the turbulent decades of the 1950s, 1960s, and 1970s. **From Eve to Dawn: A History of Women in the World Volume I** Marilyn French, 2008-04-01 The first volume of the New York Times bestselling author's monumental and unprecedented history. Consistently thought-provoking. *The New York Review of Books*. The internationally celebrated author of *The Women's Room*, Marilyn French spent over fifteen years with a team of researchers and prominent historians examining women's lives and activities in civilizations and societies spanning the ages. Beginning in prehistory, *Origins* moves on to examine women's lives in ancient Egypt, China, India, Peru, Mexico, Greece, and Rome. In her reconstruction of wars, laws, and other activities

affecting both women and men French also traces the worldviews underpinning them She also depicts how women's relationship to Judaism Christianity and Islam changed for good and bad over the centuries She backs up even her more controversial theories with an impressive accumulation of academically accepted historical anthropological and sociological sources Written in concise understated language this is a significant addition to literature on women's studies and history Publishers Weekly

[Amazons in America](#) Keira V. Williams, 2019-03-06 With this remarkable study historian Keira V Williams shows how fictional matriarchies produced for specific audiences in successive eras and across multiple media constitute prescriptive solution oriented thought experiments directed at contemporary social issues In the

process Amazons in America uncovers a rich tradition of matriarchal popular culture in the United States Beginning with late nineteenth century anthropological studies which theorized a universal prehistoric matriarchy Williams explores how representations of women centered societies reveal changing ideas of gender and power over the course of the twentieth century and into the present day She examines a deep archive of cultural artifacts both familiar and obscure including L Frank Baum s The Wizard of Oz series Progressive era fiction like Charlotte Perkins Gilman s utopian novel Herland the original 1940s Wonder Woman comics midcentury films featuring nuclear families and feminist science fiction novels from the 1970s that invented prehistoric and futuristic matriarchal societies While such texts have at times served as sites of feminist theory Williams unpacks their cyclical nature and in doing so pinpoints some of the premises that have historically hindered gender equality in the United States Williams also delves into popular works from the twenty first century such as Tyler Perry s Madea franchise and DC Comics Warner Bros globally successful film Wonder Woman which attest to the ongoing presence of matriarchal ideas and their capacity for combating patriarchy and white nationalism with visions of rebellion and liberation Amazons in America provides an indispensable critique of how anxieties and fantasies about women in power are culturally expressed ultimately informing a broader discussion about how to nurture a stable equitable society

Erich Fromm and Critical Criminology Kevin Anderson, Richard Quinney, 2000 Linking the writings of the great humanist psychologist Erich Fromm to criminology this collection shows how viewing crime patterns and the criminal justice system from Fromm s humanist perspective opens a path to more effective and more humane ways of understanding and dealing with crime and criminals Contributors to Erich Fromm and Critical Criminology draw on Fromm s writings on alienation sadomasochism and patriarchal matriarchal values to assess the kinds of crimes being committed and the kinds of people committing them They explore the spiritual and intellectual sources of Fromm s thought including Jewish theology Freudian psychoanalysis Marxism and Buddhism and demonstrate how his socialist humanism points toward a society free of crime and violence This volume also includes translations of two of Fromm s early articles on criminal justice never before available in English in which he develops a psychoanalytic Marxist critique of the role of criminal justice in a class society At a time when American society seems bent to an unprecedented degree on imprisonment executions and other violent responses to the problem of crime Fromm s humanist critique offers a unique vantage point from which to renew and develop a critical criminology

The War of Ideas Walid Phares, 2025-04-16 From Afghanistan and Iraq to Europe and the United States we are engaged in one of the most heated wars of all time In this incisive new book the man that has been called the only one to understand the mind of the jihadist shows that the most important battle is

actually taking place in the hearts and minds of the world's population. This is the war of ideas where ideology is the most powerful weapon of all. Phares explores the beliefs of two opposing camps: one standing for democracy and human rights and the other rejecting the idea of an international community and calling for jihad against the West. He reveals the strategies of both sides, explaining that new technologies and the growing media savvy of the jihadists have raised the stakes in the conflict. And most urgently, he warns that the West is in danger of losing the war for whereas debate and theorizing rarely translate into action here, ideas and deeds are inextricably linked for the forces of jihad.

Ebook: Theories of Personality Jess Feist, Gregory Feist, Tomi-Ann Roberts, 2014-10-16. The 8th edition of *Theories of Personality* follows in the tradition of the previous versions by centering on the premise that personality theories are a reflection of the unique cultural background, family experiences, personalities, and professional training of their originators. The book begins by acquainting students with the meaning of personality and providing them with a solid foundation for understanding the nature of theory as well as its crucial contributions to science. The chapters that follow present twenty-three major theories; coverage of each theory also encompasses a biographical sketch of each theorist, related research, and applications to real life. Changes in the 8th edition included a new chapter 8 on evolutionary personality theory focusing on the work of David Buss. The Related Research sections in each chapter have also been updated.

The Radical Humanism of Erich Fromm K. Durkin, 2014-09-04. This book shortlisted for the British Sociological Association's Philip Abrams Memorial Prize 2015 argues that Fromm is a vital and largely overlooked contribution to twentieth-century intellectual history and one who offers a refreshingly reconfigured form of humanism that is capable of reintegrating explicitly humanist analytical categories and schemas back into social, theoretical, and scientific considerations.

Marxism's Ethical Thinkers L. Wilde, 2016-01-20. In Marxism's uneasy relationship with ethics, a small number of prominent theorists considered it imperative to highlight the moral principles implicit in Marx's social theory and to develop these ethics in the light of changing conditions. They developed a humanistic Marxism in stark contrast to the crude end-justifies-the-means approach of Stalinism. This collection brings together analyses by leading scholars on those thinkers who made significant contributions to ethical thinking within the Marxist tradition: Kautsky, Bloch, Fromm, Marcuse, Lefebvre, Macpherson, and Heller.
