Spender, 1974 **Love-hate Relations: a Study of Anglo-American Sensibilities** Stephen Spender, 1974 Sylvia Plath Linda Wagner-Martin, 2013-04-15 This set comprises 40 volumes covering 19th and 20th century European and American authors These volumes will be available as a complete set mini boxed sets by theme or as individual volumes This second set compliments the first 68 volume set of Critical Heritage published by Routledge in October 1995 Edwardian Bloomsbury S. Rosenbaum, 2016-07-27 This is the second volume of a formidable enterprise and part of a series of publications by the same author that may entitle him to the position as the leading scholar of the Bloomsbury Group Rosenbaum has managed to write with freshness and insight about Forster s novels no matter how much they have been analyzed before The next volume will deal with the effect of that exhibition upon the Group s writing and much more I am sure of its early literary history The work is eagerly awaited Peter Stankys English Literature in Transition 1880 1920 Edwardian Bloomsbury is a continuation of the early literary history of the Bloomsbury Group begun with Victorian Bloomsbury but it can also be read independently as an account of the Group s interrelated writings during the first decade of the twentieth century **The Spectator**, 1921 A weekly review of politics literature theology and art Emotions in American History Jessica C. E. Gienow-Hecht, 2010-04-01 The study of emotions has attracted anew the interest of scholars in various disciplines igniting a lively public debate on the constructive and destructive power of emotions in society as well as within each of us Most of the contributors to this volume do not hail from the United States but look at the nation from abroad They explore the role of emotions in history and ask how that exploration changes what we know about national and international history and in turn how that affects the methodological study of history In particular they focus on emotions in American history between the 18th century and the present in war in social and political discourse as well as in art and the media In addition to case studies the volume includes a review of their fields by senior scholars who offer new insights regarding future research projects **America's 'Special Relationships'** John Dumbrell, Axel Schäfer, 2009-09-10 This unique volume offers an original collection of essays on the theme of America s special relationships It interrogates in an original and provocative manner the distinctive character of America s interactions with an array of allies and clients both international and domestic The essays vary in their focus some are primarily historical some are more contemporary All consider the quality of specialness in the context of America s

relationship with particular countries including the United Kingdom Canada Australia New Zealand Holland Russia Iran and Israel The collection also concerns the relationship between the American state and key special foreign policy interests notably ethnic lobbies and religious groups Bringing together a wide range of experts this timely collection provides a valuable addition to the debates surrounding US foreign policy and will be of great interest to students and scholars of American politics American history and international relations
