glorify itself This body is so plastic so well made that it is capable of shrinking or enlarging It is precisely this body that builds the physical body as well as all other bodies The intellect and heart are as important as the physical body The latter represents the base in the bosom of which man draws his life forces The physical body represents a divine garment that is constantly being renewed It changes every seven years Because of this permanent renewal man is healthy full of energy and well being At present our spiritual body is in formation as it is not completed the forehead nose mouth bones skull brain hands are not yet fully processed The astral hand is in the process of forming The astral substance is condensing preparing for a higher purer life At present it resembles something fluidic liquid like Man is shaped like a cone wider at the top at shoulder level narrower at the bottom This testifies to his descent into the physical world that is the material world
