By Honor Bound Nancy Shields Kollmann, 2016-11-01 In the sixteenth and seventeenth centuries Russians from all ranks of society were bound together by a culture of honor Here one of the foremost scholars of early modern Russia explores the intricate and highly stylized codes that made up this culture Nancy Shields Kollmann describes how these codes were manipulated to construct identity and enforce social norms and also to defend against insults to pursue vendettas and to unsettle communities She offers evidence for a new view of the relationship of state and society in the Russian empire and her richly comparative approach enhances knowledge of statebuilding in premodern Europe By presenting Muscovite state and society in the context of medieval and early modern Europe she exposes similarities that blur long standing distinctions between Russian and European history Through the prism of honor Kollmann examines the interaction of the Russian state and its people in regulating social relations and defining an individual s rank She finds vital information in a collection of transcripts of legal suits brought by elites and peasants alike to avenge insult to honor The cases make clear the conservative role honor played in society as well as the ability of men and women to employ this body of ideas to address their relations with one another and with the state Kollmann demonstrates that the grand princes and later the tsars tolerated a surprising degree of local autonomy throughout their rapidly expanding realm Her work marks a stark contrast with traditional Russian historiography which exaggerates the power of the state and downplays the volition of society The Works of Ioseph Bellamy Joseph Bellamy, 1853 The Works of Joseph Bellamy, D.D., First Pastor of the Church in Bethlem, Conn Joseph Bellamy, 1853
