Loves Architecture Devotional Modes In Seventeenth Century English Poetry:

Love's Architecture Anthony Low, 1978 *Doctrine and Devotion in Seventeenth-century Poetry* R. V. Young, 2000
English devotional poets of 17c set in a wider European and Catholic context Thomas Traherne and Seventeenth-century Thought Elizabeth S. Dodd, Cassandra Gorman, 2016 New essays on Thomas Traherne challenge traditional critical readings of the poet The Challenges of Orpheus Heather Dubrow, 2011-06-15 This critical exploration of how we define lyric poetry is thorough penetrating and on the cutting edge of contemporary scholarship Choice As a literary mode lyric is difficult to define The term is conventionally applied to brief songlike poems expressing the speaker's interior thoughts but many critics have questioned the underlying assumptions of this definition While many people associate lyric with the Romantic era Heather Dubrow turns instead to the poetry of early modern England The Challenges of Orpheus confronts widespread assumptions about lyric exploring such topics as its relationship to its audiences the impact of material conditions of production and other cultural pressures lyric's negotiations of gender and the interactions and tensions between lyric and narrative Dubrow offers fresh perspectives on major texts of the period from Sir Thomas Wyatt's *My lute awake* to John Milton's *Nativity Ode* as well as poems by lesser known figures She also extends her critical conclusions to poetry in other historical periods and to the relationship between creative writers and critics recommending new directions for the study of lyric and of genre A Choice Magazine Outstanding Academic Title *Scientific Discourse in John Donne's Eschatological Poetry* Ludmila Makuchowska, 2014-10-16 *Scientific Discourse in John Donne's Eschatological Poetry* offers a compelling critique of John Donne's religious and erotic poetry focusing on the intersection of two seemingly antithetical discourses the language of the scientific revolution and of Christian eschatology Throughout its three chapters which correspond to three scientific disciplines cartography physics and alchemy the volume examines the ways in which the references to early modern and medieval science in Donne's poetry contribute to conceptualizing the Christian mystery of death **John Donne and the Protestant Reformation** Mary Arshagouni Papazian, 2003 This collection of thirteen essays by an international group of scholars focuses on the impact of the Protestant Reformation on Donne's life theology poetry and prose The early transition from Catholicism to Protestantism was a complicated journey for England as individuals sorted out their spiritual beliefs chose their political allegiances and confronted an array of religious differences that had sprung forth in their society since the reign of Henry VIII Inner anxieties often translated into outward violence Amidst this turmoil the poet and Protestant preacher John Donne 1572-1631 emerged as a central figure one who encouraged peace among Christians Raised a Catholic but ordained in 1615 as an Anglican clergyman Donne publicly identified himself with Protestantism and yet scholars have long questioned his theological orientation Drawing upon recent scholarship in church history the authors of this collection reconsider Donne's relationship to Protestantism and clearly demonstrate the political and theological impact of the Reformation on his life and writings The collection includes thirteen essays that together place

Donne broadly in the context of English and European traditions and explore his divine poetry his prose work the Devotions Upon Emergent Occasions and his sermons It becomes clear that in adopting the values of the Reformation Donne does not completely reject everything from his Catholic background Rather the clash of religion erupts in his work in both moving and disconcerting ways This collection offers a fresh understanding of Donne s hard won irenicism which he achieved at great personal and professional risk *Rhetoric and the Familiar in Francis Bacon and John Donne* Daniel Derrin,2013-03-08

Rhetoric and the Familiar examines the writing and oratory of Francis Bacon and John Donne from the perspective of the faculty psychology they both inherited Both writers inherited the resources of the classical rhetorical tradition through their university education The book traces from within that tradition the sources of Bacon and Donne s ideas about the processes of mental image making reasoning and passionate feeling It analyzes how knowledge about those mental processes underlies the rhetorical planning of texts by Bacon such as *New Atlantis Essayes or Counsels* *Novum Organum* and the parliamentary speeches and of texts by Donne such as the *Verse Letters* *Essayes in Divinity* *Holy Sonnets* and the sermons The book argues that their rhetorical practices reflect a common appropriation of ideas about mental process from faculty psychology and that they deploy it in divergent ways depending on their rhetorical contexts It demonstrates the vital importance in early modern thinking about rhetoric of considering what familiar remembered material will occur to a given audience how that differs according to context and the problems the familiar entails *The Complete English Poems* George Herbert,2004-10-07

George Herbert combined the intellectual and the spiritual the humble and the divine to create some of the most moving devotional poetry in the English language His deceptively simple verse uses the ingenious arguments typical of seventeenth century metaphysical poets and unusual imagery drawn from musical structures the natural world and domestic activity to explore a mosaic of Biblical themes From the wit and wordplay of *The Pulley* and the formal experimentation of *Easter Wings* and *Paradise* to the intense highly personal relationship between man and God portrayed in *The Collar* and *Redemption* the works collected here show the transcendental power of divine love **Amazing Grace at 250** Martin V. Clarke,Gareth Atkins,2025-08-01

This book focuses on arguably the best known Christian hymn worldwide From the slave trade to the civil rights movement and from obscurity in its country of origin to global recognition the origins history influence and legacy of *Amazing Grace* are uniquely complex The volume brings together historians theologians literary scholars and musicologists to shed new light on the ways in which the hymn s lyrics familiar musical setting and its performance by leading vocalists contribute to its enduring popularity and the meanings and value ascribed to it by diverse communities across time and place The chapters explore the literary and religious qualities of the text its relationship with the ubiquitous NEW BRITAIN melody its adoption and adaptation by famous singers and in Christian churches from South America to Asia The contributors highlight significant facets of the hymn s origins and legacy while the collection as a whole provides a focused emphasis on the importance of historical literary theological and musical approaches in understanding the ways in which Christian

congregational music acquires meaning and influences thought and practice in local and global contexts *Reimagining Constancy in the English Civil Wars* Rachel Zhang, 2024-09-30 *Reimagining Constancy in the English Civil Wars* exposes writers' reliance on conservative language during one of the most radical periods of English history. In case studies of both familiar genres (country house poem, love lyric, epic) and understudied ones (emblem book, prose romance), it shows how the conservative language of constancy was used to justify opposing positions in the period's most pressing controversies, including monarchical rule, ecclesiastical order, Catholicism, and England's relationship to the wider world. At the same time, writers like John Milton, Andrew Marvell, Hester Pulter, Percy Herbert, and others establish the virtue's importance to literary tradition as they use constancy to retain yet reimagine inherited formal structures and strategies. This book thus uses women's writing and non-canonical texts to highlight cross-factional conservatism and international investment in what scholars often describe as the English Revolution.
