The Loving Dominant John Warren, 1998

Lesbianism: A Study in Female Homosexuality David H. Rosen, Rachel Rosen, 2020-09-23 This new edition of *Lesbianism* allows one to understand lesbianism as a way of life The original 1965 1966 research study is included in its entirety Unlike Freud who based his view that lesbianism was a mental disorder on a single case study this breakthrough and innovative research project concerns interviews and psychological testing of 26 lesbians who were not psychiatric patients And as one would predict these lesbians were not disturbed as far as mental health was concerned The original research was done before homosexuality was removed as a mental disorder It seems odd today to even consider Freud's view as accurate We have come a long way in recognizing that one's sexual preference is just that This study was a pioneering one that disproved a false idea that lesbianism was evidence of an emotional disorder And this 2020 edition includes a conversation about the book with Rachel Rosen who is a lesbian The dialogue between the author and his daughter provides insightful questions and a true understanding of lesbianism

Women and Religious Writing in Early Modern England Erica

Longfellow, 2004-09-23 This study challenges critical assumptions about the role of religion in shaping women's experiences of authorship. Feminist critics have frequently been uncomfortable with the fact that conservative religious beliefs created opportunities for women to write with independent agency. The seventeenth-century Protestant women discussed in this book range across the religious, political, and social spectrums and yet all display an affinity with modern feminist theologians. Rather than being victims of a patriarchal gender ideology, Lady Anne Southwell, Anna Trapnel, and Lucy Hutchinson among others were both active negotiators of gender and active participants in wider theological debates. By placing women's religious writing in a broad theological and socio-political context, Erica Longfellow challenges traditional critical assumptions about the role of gender in shaping religion and politics and the role of women in defining gender and thus influencing religion and politics.
