Shadowing the White Man's Burden Gretchen Murphy,2010-05-03 During the height of 19th century imperialism Rudyard Kipling published his poem The white man s burden While some of his American readers argued that the poem served as justification for imperialist practices others saw Kipling s satirical talents at work and read it as condemnation The

author explores this tension embedded in the notion of the white man's burden to create a historical frame for understanding race and literature in America. She maintains that literature symptomized and channeled anxiety about the racial components of the U.S. world mission while also providing a potentially powerful medium for multiethnic authors interested in redrawing global color lines. She identifies a common theme in the writings of African, Asian, and Native American authors who exploited anxiety about race and national identity through narratives about a multiracial U.S. empire.
