Anglo-Dutch Connections in the Early Modern World Sjoerd Levelt, Esther van Raamsdonk, Michael D. Rose, 2023-02-10

This ground breaking collection reveals the networks of interrelation between Early Modern England and the Dutch Republic As people ideas and goods moved back and forth across the North Sea or spread further afield in the vanguard of globalisation and empire Anglo Dutch relations shaped all aspects of life with profound implications still relevant today A diverse range of expert scholars share new research in their discipline ranging across technology trade politics religion and the arts Different aspects of this history of competition alliance migration and conflict are taken up by each chapter providing the reader with detailed case studies as well as the broader background and its historical roots Anglo Dutch Connections in the Early Modern World aims to be both accessible and innovative It will be essential to students and researchers interested in European politics intellectual history and shared Anglo Dutch society while showcasing current research in multiple facets of the Early Modern World

Parish Churches in the Early Modern World Andrew Spicer, 2016-12-05 Across Europe the parish church has stood for centuries at the centre of local communities it was the focal point of its religious life the rituals performed there marked the stages of life from the cradle to the grave Nonetheless the church itself artistically and architecturally stood apart from the parish community It was often the largest and only stone built building in a village it was legally distinct being subject to canon law as well as consecrated for the celebration of religious rites The buildings associated with the cure of souls were sacred sites or holy places where humanity interacted with the divine In spite of the importance of the parish church these buildings have generally not received the same attention from historians as non parochial places of worship This collection of essays redresses this balance and reflects on the parish church across a number of confessions Catholic Lutheran Reformed and Anti Trinitarian during the early modern period Rather than providing a series of case studies of individual buildings each essay looks at the evolution of parish churches in response to religious reform as well as confessional change and upheaval They examine aspects of their design and construction furnishings and material culture liturgy and the use of the parish church While these essays range widely across Europe the volume also considers how religious provision and the parish church were translated into a global context with colonial and commercial expansion in the Americas and Asia This interdisciplinary volume seeks to identify what was distinctive about the parish church for the congregations that gathered in them for worship and for communities across the early modern world

Nostalgia in the Early Modern World Harriet Lyon, Alexandra Walsham, 2023 How can the concept of nostalgia illuminate the culturally specific ways in which societies understand the contested relationship between the past present and future The word nostalgia was invented in the late seventeenth century to describe the debilitating effects of homesickness Now widely defined as a sense of longing for a lost past initially it was more closely linked with

dislocation in space By exploring some of its many textual visual and musical manifestations in the tumultuous period between c 1350 and 1800 this volume resists the assumption that nostalgia is a distinctive by product of modernity It also forges a fruitful link between three lively areas of current scholarly enquiry memory temporality and emotion The contributors deploy nostalgia as a tool for investigating perceptions of the passage of time and historical change unsettling experiences of migration and geographical displacement and the connections between remembering and forgetting affect and imagination Ranging across Europe and the Atlantic world they examine the moments sites and communities in which it arose alongside how it was used to express both criticism and regret about the religious political social and cultural upheavals that shaped the early modern world They approach it as a complex mixed feeling that opens a new window into individual subjectivities and collective mentalities

The Dynamic Society Graeme Snooks,2002-09-11 This book discusses the nature and process of change in human society over the past two million years The author draws on economic historical and biological concepts to examine the driving forces of change and looks to likely developments in the future This analysis produces some very thought provoking and controversial conclusions

India and the Early Modern World Jagjeet Lally,2023-12-20 India and the Early Modern World provides an authoritative and wide ranging survey of the Indian subcontinent over the fifteenth to eighteenth centuries set within a global context This book explores questions critical to our understanding of early modern India How for instance were Indians religious beliefs their ways of life and the horizons of their learning changing over this period What was happening in the countryside and towns to culture and the arts and to the state and its power Were such experiences comparable or linked to those in other parts of the world Can we speak of a global early modernity therefore within which India played an important role Organised thematically each chapter engages with such key issues debates and concepts covering wide ground as it connects compares and contrasts developments witnessed across early modern South Asia to those around the globe Drawing on the fruits of research in numerous fields over the past fifty years and rich in detail India and the Early Modern World is a pathbreaking volume written engagingly and accessibly with scholars students and non specialists in mind

Merchant Networks in the Early Modern World, 1450-1800 Sanjay Subrahmanyam,2016-12-05 Merchant organisation was a global phenomenon in the early modern era and in the growing contacts between peoples and cultures merchants may be seen as privileged intermediaries This collection is unique in essaying a truly global coverage of mercantile activities from the Wangara of the Central Sudan Mississippi and Huron Indians to the role of the Jews the Muslim merchants of Anatolia to the social structure of the mercantile classes in early modern England The histories of merchant communities are not their histories alone but also the histories of assumptions concerning their contexts From the comparative perspective adopted here it emerges that in markets where Western European merchants vied for place with competitors from the Near East South Asia or East Asia they were very often unsuccessful

The Ephemeral Civilization Graeme Snooks,2002-09-11 The Ephemeral Civilization is an astonishing

intellectual feat in which Graeme Snooks develops an original and ground breaking analysis of changing sociopolitical forms over the past 3 000 years Snooks challenges the prevailing theories of social evolutionism with an innovative approach which also looks ahead to the twenty first century The Ephemeral Civilization builds on the model of dynamic strategy outlined in the author s highly acclaimed companion volume The Dynamic Society The Ephemeral Society is divided into three parts theory history and future **Language Dynamics in the Early Modern Period** Karen Bennett,Angelo

Cattaneo,2022-04-25 In the fifteenth and sixteenth centuries the linguistic situation in Europe was one of remarkable fluidity Latin the great scholarly lingua franca of the medieval period was beginning to crack as the tectonic plates shifted beneath it but the vernaculars had not yet crystallized into the national languages that they would later become and multilingualism was rife Meanwhile elsewhere in the world languages were coming into contact with an intensity that they had never had before influencing each other and throwing up all manner of hybrids and pidgins as peoples tried to communicate using the semiotic resources they had available Of interest to linguists literary scholars and historians amongst others this interdisciplinary volume explores the linguistic dynamics operating in Europe and beyond in the crucial centuries between 1400 and 1800 Assuming a state of individual societal and functional multilingualism when codeswitching was the norm and languages themselves were fluid unbounded and porous it explores the shifting relationships that existed between various tongues in different geographical contexts as well as some of the myths and theories that arose to make sense of them
