Lp Whats Missing:

Secrets of Practice Success Marc B. Cooper, 2005-02 By now you've realized that generating a successful dental practice has little to do with technical excellence. You have to know how to lead, manage, own, and market. This book addresses the most common problems you confront in your business every day, providing insights and recommendations to help you build a more successful and personally satisfying practice. The book is divided into four sections: Ownership, Leadership, Management, and Marketing. Each section has numbers of questions posed by dentists along with the Dr. Cooper's responses. If you are like the dentists who have read this material, you will find these answers open new avenues for success and satisfaction unlike any other practice management information. Blues & Soul, 1991-06

The articles address the following topics: history of the famous James theorem on reflexivity, projective tensor products, construction of noncommutative L_p spaces via interpolation, Banach spaces with abundance of nontrivial operators, Banach spaces with small spaces of operators, convex geometry of Coxeter invariant polyhedra, uniqueness of unconditional bases in quasi-Banach spaces, dynamics of cohyponormal operators, and Fourier algebras for locally compact groupoids.
