Lucas Samaras Lucas Samaras, 1983 *Lucas Samaras, Photos Polaroid Photographs 1969-1983*, 1983 **Lucas Samaras, Photo-transformations** Lucas Samaras, Arnold B. Glimcher, California State University, Long Beach. Art Galleries, 1975 This richly illustrated book documents the 1973-75 photographic work of Greek born American artist Lucas Samaras. The PHOTO TRANSFORMATIONS made with the Polaroid SX 70 camera represent the extension of his unique self-referential surrealist imagery into the medium of experimental photography. This new series of tableaux catalogued here for the first time demonstrates Samaras' versatility in the artistic exploration of the human condition through an almost hallucinatory examination of himself, his environment, and his fantasies. Photographer, painter, sculptor, Lucas Samaras is one of the most influential and provocative artists of our time. Once again available to readers, this long out of print volume presents a thorough compilation of Samaras's photographic work beginning with his earliest Auto Polaroids. This exhaustive body of work paved the way for a generation of contemporary photo artists, expanding the expressive possibilities of the medium. Using Polaroid materials, large, sometimes life-sized formats, manipulated imagery, and composites, Samaras helped forge a vocabulary employed by artists and photographers throughout the eighties. In his most profound achievement, he adopted one of photography's basic genres, portraiture, and used it as a basis for an inquiry into the self, which remains unmatched in its intensity and boundless in its ramifications. Photography critic Ben Lifson provides a trenchant critique and history of Samaras's work. Samaras split himself into model, actor, director, audience, and critic. Lifson writes, "To each of these roles, he brought a skilled artist's hand and an eye deeply informed by the historical traditions and motifs of art and by the vernacular and popular traditions of photography. He became a rare figure in American art, not an artist who occasionally uses photography for tactical reasons, but an artist who made photography central to his aesthetic campaign." *Art Of The Postmodern Era* Irving Sandler, 2018-05-30 Sandler discusses the major and minor artists and their works, movements, ideas, attitudes, and styles, and the social and cultural context of the period. He covers postmodernist art theory, the art market, and consumer society. American and European art and artists are included.

Photography Mary Warner Marien, 2006 Each of the eight chapters takes a period of up to forty years and examines the medium through the lenses of art, science, social science, travel, war, fashion, the mass media, and individual practitioners. Back Cover Impure Vision Moa Goysdotter, 2015-01-01 American staged art photography is the focus of this unique in-depth study. Offering a new methodological strategy for viewing photographs, this fascinating account analyzes the work of four of the leading names in this new genre: Les Krims, Duane Michals, Arthur Tress, and Lucas Samaras, and applies new perspectives to 1970s art photography. As it sheds fresh light on the four artists' critiques of purist ideals, it also looks closely at their efforts to transcend the limitations of the purely visual effect of photography. Not only does this book tell the history of

American staged photography in broad terms by drawing on theories and methods new to the field but it also presents the latest approaches to photography history and theory
