The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950 George Watson, I. R. Willison, 1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries

The New Cambridge Bibliography of English Literature: 1900-1950 George Watson, 1969 Light on the Path Mark S. Morrisson, 2025-12-02 In the late nineteenth and early twentieth centuries the US and UK experienced an occult revival a flourishing occulture that signalled the increasing presence of the occult in the popular imagination This period also witnessed another major cultural development a rapid expansion of print culture that offered a dizzying array of new magazines pulp fiction cheap single volume and paperback novels and emerging forms of genre fiction all designed to meet

and create the demands of a growing fiction readership In *Light on the Path* Mark S Morrisson explores the surprising interdependence of these two phenomena As supernatural fiction moved in increasingly occult directions modern occultism itself became so entangled with popular fiction that it can almost be seen as a literary phenomenon Morrisson recounts the strategic efforts by modern occultists including Mabel Collins Aleister Crowley Dion Fortune Kenneth Morris and Talbot Mundy to use popular fiction to wrest esotericism away from its traditional modes of secrecy and make esoteric experiences of self transformation widely accessible Through experiments to forge a new esoteric fiction genre from already existing genres these occultists intended their novels to open gates for readers to offer an occult gnosis through the simple act of reading a novel In so doing they transformed genre fiction into a tool with which to launch new religious movements that persist today Bulletin of Bibliography and Dramatic Index ,1930 Contesting Earth's History in Transatlantic Literary Culture, 1860-1935 Richard Fallon,2025-02-14 By the mid nineteenth century geologists and palaeontologists had reconstructed an authoritative narrative of Earth s deep history from the planet s molten origins to the rise of humanity Many figures in transatlantic science across subsequent decades however had problems with this narrative it was too secular inhuman and evolutionary or controlled too exclusively by elite scientists Speaking from palaeoscience s unevenly professionalized and controversy racked borders Christian fundamentalists charismatic psychics and respected scholars alike voiced their objections Until now no study has brought their work together for detailed comparative analysis Spanning from the 1860s to the interwar decades *Contesting Earth s History* examines the fascinating stories of five significant examples of fringe or borderline palaeoscience old and young earth creationism hollow earth theory clairvoyant time travel and sunken continent catastrophism Innovatively combining methods from literary studies with the history of science this book attends not just to the conceptual content of these strange sciences but also to their proponents communication of truth claims through diverse genres ranging from the scientific textbook and the technical monograph to the lost world romance and the epic poem By paying close attention to the hitherto overlooked textual forms and literary strategies of these works of pseudoscience this volume throws into relief the variant conceptions of audience evidence and method that jostled and competed in wider scientific culture during this period It also demonstrates that for all their diversity authors of borderline palaeoscience shared the desire to shift the balance of power creating textual spaces where exclusive hierarchies of scientific expertise could be levelled away These conjurors of lost worlds often captivated wide audiences and many of their bizarre astonishing and iconoclastic ideas remain with us to this day Some even inspired early science fiction by the likes of H P Lovecraft and Edgar Rice Burroughs Hijacking geologists and palaeontologists longstanding effort at making the prehistoric past visible authors on the borderlines of palaeoscience asserted their right to scientific authority and encouraged readers to gaze into time s abyss with bold new eyes *Lucifer at Large* C.
