Sample Book Insights

- 1 The breed aspect of your dog is extremely important It determines his appearance temperament intelligence energy level and health It's the result of genetic manipulation by people who've manipulated the DNA of dogs to create a better dog
- 2 The dog world is full of groups each created for a specific task For example herding dogs were originally bred to control livestock while hounds were bred to hunt
- 3 The best time to consider how breed impacts a dog's behavior is before bringing that dog home Pet owners have to learn to live with DNA driven problems or commit the time and energy it takes to teach a more acceptable behavior
- 4 The world has changed a lot since the English bulldog was bred in the 1400s and 1600s Today's English bulldog is a great family pet but they still have characteristics that hark back to the old days
