Aircraft Wrecks: The Walker's Guide Alan Clark, Nick Wotherspoon, Mark Sheldon, 2009-09-19 This book gives readers a direct link to crash sites that can be visited with accurate grid references site description and current photographs It covers some 450 selected sites with emphasis given to those on open access land The areas covered are Southern England Dartmoor and Exmoor 20 entries Wales 120 entries Isle of Man 20 entries Peak District 75 entries Yorkshire Moors Eastern 20 entries Lake District 25 entries Pennines East Lancashire West Yorkshire Scotland Central and Southern 30 entries Scotland Highlands Islands Ireland 20 entries Each area includes a preamble describing the local geography and historical notes Individual site entries include exact location details of the aircraft and crew and the circumstances of the loss *Eagles over the Sea, 1943-45* Lawrence Paterson, 2020-05-30 This is the second volume of Lawrence Paterson's detailed account of all the Luftwaffe's naval operations during World War II The first volume took the story up to 1942 and by the end of that year Hermann Goering's Reich Air Ministry had subsumed nearly every aspect of Wehrmacht maritime aviation Kriegsmarine attempts to develop an independent Fleet Air Arm had been perpetually frustrated reflecting the chaotic nature of the Third Reich's internal military and political mechanics Driven more by vanity than operational prudence the Luftwaffe had continually thwarted the advancement of maritime aviation and by 1942 began to reap the whirlwind it had created The U boat war hung precariously in the balance the lack of well trained and properly equipped aerial reconnaissance suddenly assuming greater importance than ever before During 1943 the nature of Germany's war mutated and by its close the Allies were on the offensive in nearly all theatres This volume resumes the story with Operation Torch in November 1942 when Germany faced an Allied seaborne invasion of North Africa that it was ill equipped to counter by land sea or air and the spectre of even greater invasion armadas loomed on both the southern and western fronts during the months that followed Facing the Russians maritime air units were stripped to the bone those precious few formations available shunted rapidly between military crisis points until barely able to function The rise of Luftwaffe maritime operations described in the author's first volume now became from 1942 onwards a fall of catastrophic proportions as frequently undertrained crews flew increasingly obsolete aircraft against odds that had become overwhelming The Luftwaffe was paying the price for its pre war lack of cohesive strategic planning none more so than its beleaguered maritime specialists The author covers this story across all the theatres of the war and in doing so gives the reader a complete and coherent picture of all the Luftwaffe's naval operations Heavily illustrated throughout this detailed and exciting narrative will be of huge appeal to both naval and aviation historians and enthusiasts **Secret Sunderland** Marie Gardiner, 2019-03-15 Explore the secret history of Sunderland through a fascinating selection of stories facts and photographs **Almost Forgotten** Chris R. Davies, 2012-12-15 An important piece in the jigsaw of aviation history in Northumberland [The Luftwaffe's Blitz](#) Chris Goss, 2010 Due to the failure of the day campaign during what has become known as the Battle of Britain on 7 September

1940 the Luftwaffe commenced bombing London and major cities predominantly by night What became known as the Blitz continued until 10 May 1941 with many towns and cities across the country being attacked and London being attacked 57 nights in succession By the end of May 1941 over 43 000 civilians half of them in London had been killed by bombing and more than a million houses destroyed or damaged in London alone The Blitz failed to break the morale of the British people and any thoughts of a German invasion were cancelled with German attention quickly being transferred to the Soviet Union Accordingly the intensity of the attacks against mainland Britain lessened considerably Much has been written about the Blitz from a British perspective but The Luftwaffe s Blitz tells the story from the viewpoint of the German aircrew involved many of whom were shot down and taken prisoner Using over 30 first hand accounts and previously unpublished photos The Luftwaffe s Blitz details the Luftwaffe s assault against the United Kingdom in 1941 covering the major attacks and those that occurred during the remaining months of that year Integrated with accounts from the aircrew of RAF s embryonic night fighter force as they fought against the Luftwaffe night after night in very difficult and sometimes primitive circumstances this book provides a new perspective on the Blitz from the attacker s point of view Book jacket **Broken Eagles 2** Bill Norman,2002 This highly illustrated book is the second in a two volume work that records all known Luftwaffe losses over NE England during World War II The first volume Broken Eagles Luftwaffe Losses over Yorkshire was published by Leo Cooper Pen Sword in 2001 At least 64 German aircraft crashed in Northumberland and Durham or off their respective coastlines during the War and 256 German aircrew became casualties This book records in fascinating detail the losses of both German aircraft and personnel It also describes the exciting and dramatic circumstances in which such losses occurred and the reactions of people involved *Tynemouth and Wallsend at War, 1939-45* Craig Armstrong,2017-11-30 Tynemouth and Wallsend were key communities in the national war effort despite their relatively small size Located on the key East Coast they played a significant military and civil role in the war Tynemouth was situated at the key entry to the strategically important River Tyne and was well defended against enemy attack with several forts and other measures in place The scenic seaside town saw a large military buildup with several different army and naval units rotating through the area to man defenses and to train whilst the local Home Guard unit was voted one of the best in the country and was asked to give a radio broadcast on its methods despite some comic accidents along the way Wallsend a largely urban industrial community was home to key wartime industries with its shipbuilding yards including Swan Hunters building and repairing huge numbers of vessels both naval and merchant throughout the war This made the town a significant target for the Luftwaffe and several determined raids were made which inflicted heavy casualties especially during 1941 The area also hosted a large number of heavy and light industrial works which made significant contributions to the war effort The fishermen of the North Shields fishing fleet also played a dangerous role during the war many including one of the authors grandfathers served in the Royal Naval Reserve when supplying fresh fish already a dangerous task to a near starving wartime population was made more

dangerous through enemy action The book also looks at the considerable contribution made by the men and women who volunteered for the ARP and Civil Defence Services The heavy raids resulted in great loss of life including the most deadly single attack outside of London when over 100 people were killed when a North Shields shelter took a direct hit in 1941 and the men and women of the emergency services were faced with horrifying scenes the authors other grandfather was a regular fireman and ambulanceman who had a particularly lucky escape when his fire engine was blown into a shell crater during a raid which they had to overcome and work through No member of the community was left untouched by the war whether they were evacuees the authors father was one of them workers servicemen or just civilians struggling to maintain a home in wartime Britain
