**Snitch** Ethan Brown, 2007-12-10 Our criminal justice system favors defendants who know how to play the 5K game criminals who are so savvy about the cooperation process that they repeatedly commit serious crimes knowing they can be sent back to the streets if they simply cooperate with prosecutors In Snitch investigative reporter Ethan Brown shows through a compelling series of case profiles how the sentencing guidelines for drug related offenses along with the 5K1.1 section have unintentionally created a cottage industry of cooperators and led to fabricated evidence The result is wrongful convictions and appallingly gruesome crimes including the grisly murder of the Harvey family in Richmond Virginia and the well publicized murder of Imette St Guillen in New York City This cooperator coddling criminal justice system has ignited the infamous Stop Snitching movement in urban neighborhoods deplored by everyone

from the NAACP to the mayor of Boston for encouraging witness intimidation But as Snitch shows the movement is actually a cry against the harsh sentencing guidelines for drug related crimes and a call for hustlers to return to old school street values like do the crime do the time Combining deep knowledge of the criminal justice system with frontline true crime reporting Snitch is a shocking and brutally troubling report about the state of American justice when it s no longer clear who are the good guys and who are the bad Cases Reported , The Federal Reporter ,1993 A Commission Report United States. *Selective Security in the War on Drugs* Alke Jenss,2023-01-09 Paramilitaries crime and tens of thousands of disappeared persons the so called war on drugs has perpetuated violence in Latin America at times precisely in regions of economic growth Legal and illegal economy are difficult to distinguish A failure of state institutions to provide security for its citizens does not sufficiently explain this *Selective Security in the War on Drugs* analyzes authoritarian neoliberalism in the war on drugs in Colombia and Mexico It interprets the security projects of the 2000s when the security provided by the state became ever more selective as embedded in processes of land appropriation transformed property relations and global capital accumulation By zooming in on security practices in Colombia and Mexico in that decade and juxtaposing the two contexts this book offers a detailed analysis of the role of the state in violence To what extent and for whom do states produce order and disorder Which social forces support and drive such state practices Expanding the literature on authoritarian neoliberalism and the coloniality of state power thus linking political economy to postcolonial approaches the book builds a theoretical lens to study state security practices Different social groups enjoying differentiated access to the state influenced the state discourse on crime to very different extents Security practices which oscillated between dispersed organization by a multiplicity of actors and institutionalization with the military materialized as horrific insecurity for social groups thought of as disposable In tendency putting security centerstage disabled dissent The security projects exacerbated contradictions driven by a particular economic model and simultaneously criminalized precisely those that this model had already radically disadvantaged
