*Prognostication in the Medieval World* Matthias Heiduk, Klaus Herbers, Hans-Christian Lehner, 2020-11-09 Two opposing views of the future in the Middle Ages dominate recent historical scholarship According to one opinion medieval societies were expecting the near end of the world and therefore had no concept of the future According to the other opinion the expectation of the near end created a drive to change the world for the better and thus for innovation Close inspection of the history of prognostication reveals the continuous attempts and multifold methods to recognize and interpret God's will the prodigies of nature and the patterns of time That proves on the one hand the constant human uncertainty facing the contingencies of the future On the other hand it demonstrates the firm belief during the Middle Ages in a future which could be shaped and even manipulated The handbook provides the first overview of current historical research on medieval prognostication It considers the entangled influences and transmissions between Christian Jewish Islamic and non monotheistic societies during the period from a wide range of perspectives An international team of 63 renowned authors from about a dozen different academic disciplines contributed to this comprehensive overview *Cities, Migration, and Governance* Felicitas Hillmann, Michael Samers, 2023-07-31 This volume examines how cities migration and urban governance are intertwined Questioning and reworking the conceptual reliance on scales and levels it draws on examples from both Europe and North America to conceptualize the variety of cities as re active and pro active within global and socio territorial dynamics The book covers the governance of the myriad dimensions of urban life such as work housing racism Islamophobia xenophobia the arts leisure and other cultural practices political participation social movements and contentious politics in North American and European cities While cities might implement integration policies the chapters do not necessarily assume that migrants live with the telos of integration but rather conduct their lives as anyone else would making meaning and voicing concerns under often difficult material conditions strewn with the markers of race religion gender sexuality age and often illegality The volume highlights four arguments themes or contributions addressed by one or more of the chapters how demographic change is prompting more pro active urban governance responses in many cities in the 21st century how the sheer complexity of migration in the 21st century is shaping the participation of citizen civil society actors the growing role of new private actors in the realm of urban governance and the participation of migrants themselves in this governance The book reminds us that we are confronted with a spectrum of urban governance strategies ranging from re active cities to pro active and welcoming cities Both timely and relevant this book collects the work of well known scholars in the field of migration and urban studies The chapters in this book were originally published as a special issue of *Geographical Review* *Lunaria Day Journal* Friday Press, 2006-01-01 A spiral bound planner version of the Lunaria Lunar Almanac the journal contains weekly spreads with plenty of room for notes and a facing acid free blank page to journal or sketch Seasonal art poetry and prose spreads mark each new Moon *Apennine Crossings* Nick Havely, 2024 This

innovative exploration of the literature history and culture of the Apennines links a twenty first century journey along the walking trail of the Great Apennine Excursion to accounts and discussions of past travellers including pilgrims merchants tourists soldiers partisans and poets from the Medieval period up to World War Two

BOOK JACKET

Syrische Astrologie und das Syrische Medizinbuch Stefanie Rudolf, 2018-08-21 Erstmals wird eine Gesamtschau der Astrologie in der syrisch orthodoxen Literatur geboten. Die Frage, ob alte mesopotamische oder gyptische Vorläufer in dieser Literatur aufgegangen sind, begleitet die historische Einführung in Astrologie und Divination. Auch wenn die Astrologie als *scientia non grata* für die Orthodoxie ein vermeintliches Schattendasein führen musste, ist sie in den verschiedensten Textgattungen der syrischen Literatur zu finden. Die bedeutendste Quelle für diese Texte, das Syrische Medizinbuch, ist als Kompendium in mehrfacher Hinsicht fruchtbar. Zum einen wird durch die kompilative Gestaltung der Gebrauch solcher Texte, die im Grunde Anweisungen darstellen, deutlich, die Bezüge zu anderen Wissensbereichen wie der Landwirtschaft, der Astronomie, Kalender und Heilkunde bezeugen ihre nahezu universellen Anwendungsbereiche. Zum anderen konnte die Analyse des Materials bisher nicht identifizierte Texte zu Tage fördern, darunter ein Auszug aus den hippokratischen Aphorismen und den *Geoponica* in syrischer Übersetzung, eine bisher unbekannte Rezension einer syrischen Kosmologie von Pseudo-Dionysius Areopagites und zahlreiche Intertexte in syrischer, griechischer, arabischer und mandäischer Sprache. // *sole e la luna* Nathalie Blancardi, 2004      **Notebook** Lunaria Zu Notebook, 2019-09-12 Color Paperback Size 6 inches x 9 inches 82 sheets 164 pages for writing Lunaria 15682183018
