The Vampire Goes to College Lisa A. Nevárez, 2013-12-03 This collection of original essays presents pedagogical tools, methods and approaches for incorporating the figure of the vampire into the learning environment of the college classroom in the hopes of ushering the Undead out of the coffin and into the classroom. The essays foster interdisciplinary collaboration and dialogue and serve as a collective resource for those currently teaching the vampire as well as newcomers to vampire studies. Opening with a foreword by Sam George, the collection is organized around such topics as historicizing the vampire, teaching the diverse vampire, and engaging the student learner. Interwoven throughout the volume are strategies for incorporating writing instruction and generating conversations about texts, defined broadly so as to include film and other media. The vampire allows instructors to explore timeless themes such as life and death, love and passion, immortality and monstrosity, and Otherness.

Screening Twilight Wickham Clayton, Sarah Harman, 2014-06-19 The Twilight saga, a series of five films adapted from Stephanie Meyer's four vampire novels, has been a sensation both at the box office and through the attention it has won from its predominantly teenaged fans. This series has also been the subject of criticism and sometimes derision, often from critics and on occasion even from fans. However, it also offers rich opportunities for analytic and critical attention, which the contributors to *Screening Twilight* demonstrate with energy and style. Through examining Twilight, the book unpacks how this popular group of films work as cinematic texts, what they have to say about cinema and culture today, and how fans may seek to re-read or subvert these messages. The chapters address Twilight in the context of the vampire and myth in terms of genre and reception, identity, gender, and sexuality, and through re-viewing the series fandom. *Screening Twilight* is also a revelation of how a popular cinematic phenomenon like Twilight rewards close attention from contemporary critical scholars of cinema and culture.

Near Dark Stacey Abbott, 2020-10-29 First released in 1987, *Near Dark* is a vampire film set in the contemporary American Midwest that tells the story of Caleb, a half-vampire trying to decide whether to embrace his vampire nature or return to his human family. The film, an early work of the now-established director Kathryn Bigelow, skilfully mixes genre conventions, combining gothic tropes with those of the Western road movie and film noir, while also introducing elements of the outlaw romance genre. Stacey Abbott's study of the film addresses it as a genre hybrid that also challenges conventions of the vampire film. The vampires are morally ambiguous and undermine the class structures that have historically defined stories of the undead. These are not aristocrats; instead, they capture the allure and horror of the disenfranchised and the underclass. As Abbott describes, *Near Dark* was crucial in consolidating Bigelow's standing as a director of significance at an early point in her career, not simply because of her visual art background but because of the way in which she would, from *Near Dark* onward, re-envision other traditionally mainstream genres of filmmaking.
