Radzki, 2019-07-30 This book presents the heritage of the Lvov Warsaw School from both the historical and the philosophical perspective The historical view focuses on the beginnings and the dramatic end of the School brought about by the outbreak of World War II The philosophical view on the other hand encompasses a broad spectrum of issues including logical epistemological axiological and psychological problems revealing the interdisciplinary nature of studies carried out by Kazimierz Twardowski and his students With thirteen diverse and original essays this volume is split into three parts History Culture and Axiology Psychology and Logic and Methodology Exploring not only the history of philosophy represented by the Lvov Warsaw school the book also reflects on the condition of contemporary philosophy from the perspective of concepts developed by its representatives Furthermore the studies presented in this book delve into problems of contemporary science and its distinctive interdisciplinary character This volume is therefore not only a collection of analyses of the Lvov Warsaw School philosophy but also an investigation into the interdisciplinarity of science and philosophy itself **The Lvov-Warsaw**

**School and Contemporary Philosophy** K. Kijania-Placek, Jan Wolenski, 2012-12-06 This collection celebrates the centenary of the Lvov Warsaw school established by Kazimierz Twardowski in Lvov in 1895 This school belongs to analytic philosophy and successfully worked in all branches of philosophy The Warsaw school of logic became perhaps the most important part of Twardowski's heritage Lesniewski Łukasiewicz and Tarski leading Polish logicians achieved results which essentially influenced the development of contemporary logic A close connection of logic and philosophy was a typical feature of the

Lvov Warsaw school The papers included in the collection deal with all directions of research undertaken by Polish analytic philosophers Special attention is paid to logic and comparisons with other philosophical movements particularly with Brentanism which was one of the sources of the Lvov Warsaw school

**The Lvov-Warsaw School - the New Generation** Jacek Juliusz Jadacki, Jacek Pańniczek, 2006 The influence of Kazimierz Twardowski on modern philosophy in Poland is all pervasive Twardowski instilled in his students a passion for clarity and seriousness He taught them to regard philosophy as a collaborative effort a matter of disciplined discussion and argument and he encouraged them to train themselves thoroughly in at least one extra philosophical discipline and to work together with scientists from other fields both inside Poland and internationally This led above all to collaborations with mathematicians so that the Lvov school of philosophy would gradually evolve into the Warsaw school of logic Twardowski taught his students too to respect and to pursue serious research in the history of philosophy an aspect of the tradition of philosophy on Polish territory which is illustrated in such disparate works as Jan Łukasiewicz's ground breaking monograph on the law of non contradiction in Aristotle and Władysław Tatarkiewicz's highly influential multi volume histories of philosophy and aesthetics The term Polish philosophy is a misnomer for Polish philosophy is philosophy per se it is part and parcel of the mainstream of world philosophy simply because it meets international standards of training rigour professionalism and specialization Barry Smith from Why Polish Philosophy does Not Exist

**The History and Philosophy of Polish Logic** K. Mulligan, K. Kijania-Placek, T. Placek, 2016-01-26 The book presents the state of the art of research into the legacy of interwar Polish analytic philosophy and exemplifies different approaches to the history of philosophy It contains discussions and reconstructions of aspects of Polish philosophy and logic as well as reactions to and developments of this tradition

**Alfred Tarski and the Vienna Circle** Jan Wolenski, Eckehart Köhler, 2013-03-09 The larger part of Yearbook 6 of the Institute Vienna Circle constitutes the proceedings of a symposium on Alfred Tarski and his influence on and interchanges with the Vienna Circle especially those on and with Rudolf Carnap and Kurt Gödel It is the first time that this topic has been treated on such a scale and in such depth Attention is mainly paid to the origins development and subsequent role of Tarski's definition of truth Some contributions are primarily historical others analyze logical aspects of the concept of truth Contributors include Anita and Saul Feferman Jan Wolenski Jan Tarski and Hans Sluga Several Polish logicians contributed Gzregorczyk W jicki Murawski and Rojszczak The volume presents entirely new biographical material on Tarski both from his Polish period and on his influential career in the United States at Harvard in Princeton at Hunter and at the University of California at Berkeley The high point of the analysis involves Tarski's influence on Carnap's evolution from a narrow syntactical view of language to the ontologically more sophisticated but more controversial semantical view Another highlight involves the interchange between Tarski and Gödel on the connection between truth and proof and on the nature of metalanguages The concluding part of Yearbook 6 includes documentation book reviews and a summary of current activities of the Institute Vienna Circle Jan Tarski introduces letters written by his father to Gödel Paolo Parrini reports on the Vienna Circle's influence in Italy several reviews cover recent books on logical empiricism on Gödel on cosmology on holistic approaches in Germany and on Mauthner

Development Of Mathematics Between The World Wars, The: Case Studies, Examples And Analyses Martina Becvarova, 2021-05-14 The Development of Mathematics Between the World Wars traces the transformation of scientific life within mathematical communities during the interwar period in Central and Eastern Europe specifically in Germany Russia Poland Hungary and Czechoslovakia Throughout the book in depth mathematical analyses and examples are included for the benefit of the reader World War I heavily affected academic life In European countries many talented researchers and students were killed in action and scientific activities were halted to resume only in the postwar years However this inhibition turned out to be a catalyst for the birth of a new generation of mathematicians for the emergence of new ideas and theories and for the surprising creation of new and outstanding scientific schools The final four chapters are not restricted to Central and Eastern Europe and deal with the development of mathematics between World War I and World War II After describing the general state of mathematics at the end of the 19th century and the first third of the 20th century three case studies dealing with selected mathematical disciplines are presented set theory potential theory combinatorics in a way accessible to a broad audience of mathematicians as well as historians of mathematics

**Universities in Imperial Austria 1848-1918** Jan Surman, 2018-12-15 Combining history of science and a history of universities with the new imperial history Universities in Imperial Austria 1848 1918 A Social History of a Multilingual Space by Jan Surman analyzes the practice of scholarly migration and its lasting influence on the intellectual output in the Austrian part of the Habsburg Empire The Habsburg Empire and its successor states were home to developments that shaped Central

Europe's scholarship well into the twentieth century Universities became centers of both state and nation building as well as of confessional resistance placing scholars if not in conflict then certainly at odds with the neutral international orientation of academe By going beyond national narratives Surman reveals the Empire as a state with institutions divided by language but united by legislation practices and other influences Such an approach allows readers a better view to how scholars turned gradually away from state centric discourse to form distinct language communities after 1867 these influences affected scholarship and by examining the scholarly record Surman tracks the turn Drawing on archives in Austria the Czech Republic Poland and Ukraine Surman analyzes the careers of several thousand scholars from the faculties of philosophy and medicine of a number of Habsburg universities thus covering various moments in the history of the Empire for the widest view Universities in Imperial Austria 1848 1918 focuses on the tension between the political and linguistic spaces scholars occupied and shows that this tension did not lead to a gradual dissolution of the monarchy's academia but rather to an ongoing development of new strategies to cope with the cultural and linguistic multitude

**A Collection of Polish Works on Philosophical Problems of Time and Spacetime** Helena Eilstein, 2013-04-17 This is a collection of some works of Polish philosophers and physicists on philosophical problems of time and spacetime Without restricting the thematic scope of the papers the issue concerning objectivity of time flow runs as a uniting thread through most of them Partly it is discussed directly and partly the authors focus on themes which are of paramount importance for one's attitude to that question In the first six papers the authors deal with their topics against the background of contemporary physics its theories its difficulties and discussed conjectures For the paper of S Snihur that background is provided by everyday world outlook and the author discusses the problem of existence and character of the future in the light of basic principles of classical logic The paper of A P61tawski about the views of the outstanding Polish philosopher Roman Ingarden enriches the thematic scope of the collection introducing into it some questions from philosophical anthropology and ethics JERZY GOŁOŚ MOTION SPACE TIME Abstract The paper discusses the properties of spacetime we study by analyzing the phenomenon of motion Of special interest are the spacetime symmetries the spacetime structures and the ontological status of spacetime These problems are considered on the grounds of the classical theories of motion contained in Newtonian physics special and general theory of relativity The controversy between an absolute and a relational conception of motion and its ontological implications are also analyzed
