Lyautey And The French Conquest Of Morocco:

Lyautey and the French Conquest of Morocco William A. Hoisington Jr, 1995-09-15 Lyautey and the French Conquest of Morocco describes and analyzes the method of colonial conquest and rule linked to the name of Marshal Louis Hubert Lyautey 1854 1934 France's first resident general in Morocco and the most famous of France's 20th century overseas soldier administrators Lyautey popularized the notions of peaceful penetration and indirect rule as part of a grand colonial design of military pacification economic development political modernization and social betterment For Lyautey imperialism could be a life giving force for both Frenchmen and Moroccans alike and during his thirteen years as resident general he boldly promoted France's actions in Morocco as the highest form of imperialism This book traces the development of Lyautey's ideas on conquest and rule at home and abroad and shows how they translated into practice While there was much that was praiseworthy in Lyautey's approach to colonial matters in the end force always remained more effective than anything else and whether used gently or severely it failed to stem Moroccan resistance to French rule Based on archival material in Morocco and France Lyautey and the French Conquest of Morocco is the first book to deal in a detailed manner with French pacification strategy in Morocco and with the mechanics of indirect rule always in reality rather more direct than indirect It should be of great value to readers of 19th and 20th century French European and North African history and to students of colonialism and imperialism

French Military Rule in Morocco Moshe Gershovich, 2012-10-12 This analysis of French colonial ideology and interest in Morocco delineates the manner in which the agents of the protectorate regime sought to conquer the country and control its indigenous inhabitants Numerous comparative perspectives are offered placing the French policy towards Morocco in a wider context making this study relevant to not only North Africa but also to other parts of the post colonial world

Lamentation and Modernity in Literature, Philosophy, and Culture R. Anthropology, Colonial Policy and the Decline of French Empire in Africa Douglas W. Leonard, 2019-12-26 Conceived as both a vehicle to national prestige and as a civilizing mission the second French colonial empire 1830 1962 challenged soldiers scholars and administrators to understand societies radically different from their own The resultant networks of anthropological inquiry however did not have this effect Rather they opened pathways to political and intellectual independence framed in the language of social science and in the process upended the colonial political system and reshaped the nature of human inquiry in France While still unequal French colonial rule in Africa revealed the durability and strength of non European modes of thought In this influential new study historian Douglas W Leonard examines the political and intellectual repercussions of French efforts to understand and to dominate colonial Africa through the use of

Encyclopedia of African Colonial Conflicts Timothy J. Stapleton, 2016-11-07 Two volumes introduce the history of colonial wars in Africa and illustrate why African countries like the Democratic Republic of Congo, Nigeria, Somalia, and Sudan continue to experience ethnic, political, and religious violence in the early 21st century. This sweeping study examines the wars of colonial conquest fought in Africa during the 19th and early 20th centuries. From Britain's efforts to wrest control of the Sudan from military leader Muhammad Ahmad al Mahdi to Italy's decisive defeat at the Battle of Adowa in Ethiopia to Leopold II's brutal reign over the Belgian Congo, the work surveys the devastation reaped upon the continent by colonization and illustrates how its combative influence continues to resonate in Africa today. Written by scholars in the fields of history and politics, this complete reference includes entries on wars, campaigns, rebellions, battles, leaders, and organizations. The work delves into key historical periods including the Scramble for Africa (ca. 1880 to 1910), early European colonial wars in Africa such as the Dutch in the Cape and the Portuguese in Angola and Mozambique, and African rebellions against the early colonial state in the 1890s and early 1900s. Entries feature prominent events and personalities as well as lesser-known occurrences and players.

Colonial Cinema and Imperial France, 1919-1939 David Henry Slavin, 2001-10-09 In this book, the author uses such key colonial era films as *L'Atlantide* and *Pepe le Moko* to document how the French cinema reflected the changing policies and values of French colonialism in the interwar period.

Neocolonialism and Built Heritage Daniel E. Coslett, 2019-07-02 Architectural relics of nineteenth and twentieth-century colonialism dot cityscapes throughout our globalizing world, just as built traces of colonialism remain embedded within the urban fabric of many European capitals. *Neocolonialism and Built Heritage* addresses the sustained presence and influence of historic built environments and processes inherited from colonialism within the contemporary lives of cities in Africa, Asia, and Europe. Novel in their focused consideration of ways in which these built environments reinforce neocolonialist connections among former colonies and colonizers, states, and international organizations, the volume's case studies engage highly relevant issues such as historic preservation, heritage management, tourism, toponymy, and cultural imperialism. Interrogating the life of the past in the present, authors thus challenge readers to consider the roles played by a diversity of historic built environments in the ongoing asymmetrical balance of power and unequal distribution of capital around the globe. They present buildings, maintenance, management, reuse, and reinterpretation, and in so doing, they raise important questions about the ramifications of which transcend the specifics of the individual sites and architectural histories they present.

North Africa, Islam and the Mediterranean World Julia Clancy-Smith, 2013-11-05 Long regarded as the preserve of French scholars and Francophone audiences due to its significance to France's colonial empire, North Africa is increasingly recognized for its own singular importance as a crossover region. Situated where Islamic, Mediterranean, African, and European histories intersect, the Maghrib has long acted as a cultural conduit, mediator, and broker. From the medieval era when the oasis of Sijilmasa in the Moroccan wilderness funnelled caravan loads of gold into international networks through the 16th century when two

superpowers the Ottomans and the Spanish Hapsburgs battled for mastery of the Mediterranean along the North African frontier and well into the 20th century which witnessed one of Africa's cruellest wars unfold in French Algeria the Maghrib has retained its uniqueness as a place where worlds meet *International Encyclopedia of Military History* James C. Bradford, 2004-12 With its impressive breadth of coverage both geographically and chronologically the International Encyclopedia of Military History is the most up to date and inclusive A Z resource on military history From uniforms and military insignia worn by combatants to the brilliant military leaders and tacticians who commanded them the campaigns and wars to the weapons and equipment used in them this international and multi cultural two volume set is an accessible resource combining the latest scholarship in the field with a world perspective on military history **The Military and Conflict Between Cultures** James C. Bradford, 1997 As the twenty first century approaches and the threat of war between the superpowers declines our attention is drawn to conflicts between nations or ethnic groups with vastly different cultures The United States the last superpower is divided in its motives to maintain its giant Cold War military structure or to create a new world police force that will react to and influence the outcome of intercultural conflict Brought together by James C Bradford these essays by prominent military historians cover three thousand years and five continents in treating various examples of intercultural interaction
