Lyric Generations G. Gabrielle Starr, 2015-11-01 Eighteenth century British literary history was long characterized by two central and seemingly discrete movements the emergence of the novel and the development of Romantic lyric poetry In fact recent scholarship reveals that these genres are inextricably bound constructions of interiority developed in novels changed ideas about what literature could mean and do encouraging the new focus on private experience and self perception developed in lyric poetry In *Lyric Generations* Gabrielle Starr rejects the genealogy of lyric poetry in which Romantic poets are thought to have built solely and directly upon the works of Chaucer Spenser Shakespeare and Milton She argues instead that novelists such as Richardson Haywood Behn and others while drawing upon earlier lyric conventions ushered in a new language of self expression and community which profoundly affected the aesthetic goals of lyric poets Examining the works of Cowper Smith Wordsworth Coleridge and Keats in light of their competitive dialogue with the novel Starr advances a literary history that considers formal characteristics as products of historical change In a world increasingly defined by prose poets adapted the new forms characters and moral themes of the novel in order to reinvigorate poetic practice

The Lyric in Victorian Memory Veronica Alfano, 2017-11-11 This book is a study of nineteenth century poems that remember yearn for fixate on and forget the past Reflecting the current critical drive to reconcile formalist and historicist approaches to literature it uses close readings to trace the complex interactions between memory as a theme and the often memorable formal traits such as brevity stanzaic

structure and sonic repetition that appear in the lyrics examined This book considers the interwoven nature of remembering and forgetting in the work of four Victorian poets It uses this theme to shed new light on the relationship between lyric and narrative on the connections between gender and genre and on the way in which Victorians represented and commemorated the past [The Elizabethan Lyric](#) John Erskine,1903 A comprehensive review of Elizabethan lyric poetry with discussions of form meter themes and famous lyrists **Rethinking Lyric Communities** Irene Fantappiè,Francesco Giusti,Laura Scuriatti,2024-10-28 In contemporary Western societies lyric poetry is often considered an elitist or solipsistic literary genre Yet a closer look at its history reveals that lyric has always been intertwined with the politics of community formation from the imagining of national and transnational discursive communities to the use of poetry in episodes of collective action protest and social resistance Poetic forms have circulated between languages and traditions from around the world and across time But how does lyric poetry address or even create communities and of what kinds This volume takes a global perspective to investigate poetic communities in dialogue with recent developments in lyric theory and concepts of community In doing so it explores both the political potentialities and the perils of lyric poetry **What Kind of a Thing Is a Middle English Lyric?** Cristina Maria Cervone,Nicholas Watson,2022-08-30 What Kind of a Thing Is a Middle English Lyric considers issues pertaining to a corpus of several hundred short poems written in Middle English between the twelfth and early fifteenth centuries The chapters draw on perspectives from varied disciplines including literary criticism musicology art history and cognitive science Since the early 1900s the poems have been categorized as lyrics the term now used for most kinds of short poetry yet neither the difficulties nor the promise of this treatment have received enough attention In one way the book argues considering these poems to be lyrics obscures much of what is interesting about them Since the nineteenth century lyrics have been thought of as subjective and best read without reference to cultural context yet nonetheless they are taken to form a distinct literary tradition Since Middle English short poems are often communal and usually spoken sung and or danced this lyric template is not a good fit In another way however the very differences between these poems and the later ones on which current debates about the lyric still focus suggest they have much to offer those debates and vice versa As its title suggests this book thus goes back to the basics asking fundamental questions about what these poems are how they function formally and culturally how they are and are not related to other bodies of short poetry and how they might illuminate and be illuminated by contemporary lyric scholarship Eleven chapters by medievalists and two responses by modernists all in careful conversation with one another reflect on these questions and suggest very different answers The editors introduction synthesizes these answers by suggesting that these poems can most usefully be read as a kind of play in several senses of that word The book ends with eight new Middle English lyrics by seven contemporary poets [Goethe's Lyric Poems in English Translation Prior to 1800](#) Lucretia Van Tuyl Simmons,1919 [The Complete Book of 1970s Broadway Musicals](#) Dan Dietz,2015-09-03 The 1970s was an exciting decade for musical theatre Besides shows from

Textual Subjectivity A. C. Spearing, 2005-10-27 This book investigates how subjectivity is encoded in the texts of a wide variety of medieval narratives and lyrics not how they express the subjectivity of individuals but how subjectivity escaping the bounds of individuality is incorporated in the linguistic fabric of their texts Most of the poems discussed are in English and the book includes analyses of Chaucer s Troilus and Criseyde Man of Law s Tale and Complaint Unto Pity the works of the Pearl poet Havelok the Dane the lyric sequence attributed to Charles of Orleans the earliest such sequence in English and many anonymous poems It also devotes sections to Ovid s Heroides and to poems by the troubadour Bernart de Ventadorn For the first time it brings to bear on medieval narratives and lyrics a body of theory which denies the supposed necessity for literary texts to have narrators or speakers and in doing so reveals the implausibilities into which a dogmatic assumption of this necessity has led much of the last century s criticism

On Biblical Poetry F.W. Dobbs-Allsopp, 2015-08-26 On Biblical Poetry takes a fresh look at the nature of biblical Hebrew poetry beyond its currently best-known feature, parallelism. F.W. Dobbs-Allsopp argues that biblical poetry is in most respects just like any other verse tradition, and therefore biblical poems should be read and interpreted like other poems, using the same critical tools and with the same kinds of guiding assumptions in place. He offers a series of programmatic essays on major facets of biblical verse, each aspiring to alter currently regnant conceptualizations in the field and to show that attention to aspects of prosody, rhythm, lineation, and the like, allied with close reading, can yield interesting, valuable, and even pleasurable interpretations. What distinguishes the verse of the Bible, says Dobbs-Allsopp, is its historicity and cultural specificity, those peculiar encrustations and encumbrances that typify all human artifacts. Both the literary and the historical then are in view throughout. The concluding essay elaborates a close reading of Psalm 133. This chapter enacts the final movement to the set of literary and historical arguments mounted throughout the volume, an example of the holistic staging which Dobbs-Allsopp argues is much needed in the field of Biblical Studies. Catullus in Twentieth-Century Music

Stephanie Oade, 2024-08-19 One of the most famous voices to have survived from the Roman world, Catullus's poetry is still amongst the most popular and widely read. But what is it that makes this 2,000-year-old voice so relevant, so personal, and so endlessly fascinating? Reinvigorating discussions around the nature of Catullus's lyricism. Catullus in Twentieth-Century Music takes a completely new approach to Catullus and ideas of lyric. It centres around four musical works from the twentieth century, each one capturing the essence of Catullus in musical retellings and showcasing a very personal response to the original text. Considering how and why these musical composers used Catullus's poetry as their stimulus allows us to uncover new ideas about Catullus's poetry. By considering the very process of reception, Stephanie Oade takes a broader view of lyric, identifying traits and characteristics that are common to both music and poetry, thus transcending the boundaries of individual art forms in order to consider the genre in larger interdisciplinary terms. It offers insights into compositional processes and challenges audiences to think about ways of engaging with music and poetry. More than anything, it shows how ancient voices continue to resound in modernity and offer everlasting expression for our own experiences and emotions.
