## **Lysias And The Corpus Lysiacum:**

Lysias and the Corpus Lysiacum Kenneth James Dover, 1968 Lysias a resident alien at Athens in the late fifth and early fourth centuries B C E acted as a consultant for clients involved in litigation and put into circulation written versions of the speeches that he composed for them In the early Hellenistic period a corpus of more than four hundred speeches was ascribed to him however literary critics in the first century C E formed the opinion that scarcely more than half that number were correctly ascribed In late Roman times a small selection of speeches was made without regard for the opinions of critics on authenticity and that selection has survived Our knowledge of the remainder is fragmentary and indirect K J Dover examines the extent to which and the means by which the work of the individual Lysias can be distinguished within the total corpus ascribed to him One part of the examination is an attempt to reconstruct the entire process of transmission from the making of the late Roman selection through the internal arrangement of the corpus in ancient editions to the relation between client and consultant at the time of writing The other part evaluates the criteria used to establish authenticity chronology ideology and style Dover concludes that any demand for a clear division of the speeches into two categories authentic and spurious is unreasonable and methodologically unsound Instead we must content ourselves with degrees of probability and treat the corpus as presenting us not with an individual but with certain aspects of Athenian art and society This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1968

The volume explores another kind of fragmentation that seems already to have been embraced by the ancient dramatists quotations extracted from their context and immersed in a new whole in which they work both as cohesive unities and detachable entities Sections of poetic works circulated in antiquity not only as parts of a whole but also independently i e as component fractions rather like quotations on facebook today Fragmentation can thus be seen operating on the level of dissociation but also on the level of cohesion The volume investigates interpretive possibilities quotation contexts production and reception stages of fragmentary texts looking into the ways dramatic fragments can either increase the depth of fragmentation or strengthen the intensity of cohesion

**Phaedrus** Plato,Alexander Nehamas,Paul Woodruff,1995-01-01 A superb translation that captures the rhetorical brilliance of the Greek The translation is faithful in the very best sense it reflects both the meaning and the beauty of the Greek text The footnotes are always helpful never obtrusive A one page outline is useful since there are no editorial additions to mark major divisions in the dialogue An appendix containing fragments of early Greek love poetry helps the reader appreciate the rich and perhaps elusive meaning of eros The entire Introduction is crisply written and the authors erudition shines throughout without a trace of pedantry this is an excellent book that deservedly should find wide circulation for many years to come Tim Mahoney University of Texas at Arlington Paul Woodruff is Professor of Philosophy University of Texas at Austin
