M2/M3 Bradley Infantry Fighting Vehicle 1983-95 Steven J. Zaloga,1996-01-15 One of the most sophisticated armoured fighting vehicles in the world the M2 M3 Bradley is the United States equivalent of the British Warrior combining the role of personnel carrier with the formidable armament of a 25mm cannon and TOW anti tank missiles With a maximum road speed of 66kmh it also has a degree of manoeuvrability dreamed of by other armoured vehicles In this book Steven Zaloga examines the different variants of the Bradley in detail and looks at the changing tactical requirements of the US Army for an armoured personnel carrier US Mechanized Infantryman in the First Gulf War Gordon L. Rottman,2011-09-20 In many

ways the end of the Vietnam War left the US army a spent force Plagued by low morale drug and race issues and terrible public relations the army faced an uphill climb in the effort to rebuild itself The story of this reconstruction is mirrored in the rise of the Mechanized Infantryman Deciding that the key to future conflict lay in highly trained and mobile warriors that could be delivered quickly to battle the army adopted the mechanized infantryman as its frontline troops This new all volunteer force was given the best training and equipment Most notably they were to be deployed onto the battlefield from the new M2 Bradley Armoured Fighting Vehicle This new breed of American warriors got their first test in the First Gulf War Fighting in the deserts of Kuwait and Iraq these soldiers proved that the US Army was once again a force with which to be reckoned This book tells the story of the rise of the US mechanised infantryman focusing on his recruitment training lifestyle and combat experiences in Iraq Bradley vs BMP Mike Guardia,2016-07-28 In the mid 1960s the Soviet Union unveiled the BMP the first true infantry fighting vehicle A revolutionary design the BMP marked a significant departure from the traditional armoured personnel carrier with a lower silhouette and heavier armament than rival APCs One of the most fearsome light armoured vehicles of its day it caused great consternation on the other side of the Iron Curtain as the Americans scrambled to design a machine to rival the BMP The result was the M2 M3 Bradley These Cold War icons first clashed not on the plains of Europe but in southern Iraq during the Gulf War of 1991 Featuring specially commissioned full colour artwork this is the absorbing story of the origins development and combat performance of the BMP and Bradley culminating in the bloody battles of the Gulf War **M1A2 Abrams Main Battle Tank 1993-2018** Steven J.
