**Ma grossesse, mon enfant** René Frydman, Julien Cohen-Solal, 1990 Fruit de la mise en commun des connaissances et de l'expérience d'un obstétricien et d'un psychiatre ce guide pratique contient aussi une part d'anticipation et de réflexion autour de la naissance Un manuel pour une femme enceinte. Tout ce que vous devez savoir lorsque vous portez un enfant.

O. Nashchubskiy, Il n'y a rien de plus magique dans ce monde que le moment où la vie commence sa nouvelle histoire C'est le moment où un petit miracle se réveille dans les bras de la mère et du père et le monde entier révèle ses miracles sous de nouvelles couleurs Telles les pages d'un livre de magie la vie d'une femme enceinte est remplie de mystères et de surprises Chaque instant est un chapitre chaque mouvement est un art et le battement d'un cœur est une magie qui ne peut être décrite avec des mots Ce livre est la clé de ce livre magique de la vie Elle vous invite un voyage plein de mystère et de merveillement dans un monde où les moindres touches deviennent les plus importantes C'est un voyage dans le monde de la maternité et de la paternité où chaque jour est un nouveau chapitre chaque minute est une rencontre avec la magie Vous trouverez ici des histoires sur la naissance des rêves et des espoirs sur la naissance de l'amour et du bonheur Ce livre est une image colorée de la vie où chaque couleur chaque note fait partie de cette symphonie magique Ouvrons ensemble la première page de ce livre magique et partons pour un voyage incroyable où chaque instant est rempli de la magie d'une Nouvelle Vie Dans ce monde où chaque pas marque un nouveau départ et où chaque début entraîne avec lui le cercle éternel de la vie concevoir un enfant est l'un des moments les plus magiques et mystérieux C'est comme un doux murmure de la nature une promesse d'une nouvelle vie mergeant doucement dans les profondeurs secrètes de l'existence Cet acte de création d'une nouvelle vie est le moment où l'amour transcende le visible et devient une force qui peut changer le monde Concevoir un enfant n'est pas seulement un processus biologique c'est un acte d'amour et d'espoir C'est le moment où deux corps travaillent ensemble pour créer un miracle donnant au monde une nouvelle vie C'est le début d'un voyage plein d'excitation de joie parfois de peur et d'incertitude mais toujours plein d'amour Et puis vient le moment de la naissance un véritable solennel et magique où une nouvelle vie rencontre la lumière pour la première fois C'est le moment où le temps s'arrête et où l'univers tout entier semble concentrer dans cette petite création qui repose impuissante dans les bras de sa mère La naissance d'un enfant est l'accomplissement du sens de la vie l'incarnation de l'amour et de l'espoir inhérents au moment de la conception Cet événement s'accompagne d'une nouvelle responsabilité la responsabilité d'une nouvelle vie de ce petit miracle qui dépend désormais de ses parents Il s'agit d'une responsabilité non seulement pour le bien-être physique de l'enfant mais aussi pour son développement motionnel et spirituel Les parents deviennent les premiers enseignants les premiers mentors et le premier soutien au monde pour leur enfant Et bien sûr avec la naissance d'un enfant vient un amour incroyable un amour qui ne connaît pas de frontières qui ne connaît pas la fatigue et qui ne connaît pas la peur C'est un amour qui est plus fort que tout au monde un amour qui est capable des plus grands sacrifices et des plus grands actes C'est l'amour qui reste avec les parents pour la vie grandit

et se développe avec l'enfant. Concevoir et donner naissance un enfant ne sont pas seulement des étapes naturelles de la vie ; ce sont des actes sacrés pleins de sens profond et de grandeur. Ils nous rappellent le miracle de la vie, le pouvoir de l'amour et combien il est important de chercher chaque moment passé avec nos enfants. C'est un voyage qui nous change, nous rend meilleurs, plus sages et plus heureux.

Dans un monde où chaque souffle et chaque pas portent la magie invisible du destin, l'éducation psychologique d'un enfant dès le moment de la conception et surtout au cours de la première année de vie est l'un des fils les plus significatifs et les plus subtils avec lesquels nous adultes tissons le tissu du futur. Dès le moment de la conception, alors qu'une nouvelle vie commence, la peine palpiter dans l'utérus elle absorbe déjà l'essence du monde environnant, traversant les sens de la matière. L'atmosphère motionnelle, les pensées, les sensations de la matière deviennent les premières couleurs avec lesquelles elle peut être inconnue, peignant les premières images dans l'esprit de son enfant. L'amour, le calme et l'harmonie entourant la matière deviennent la base du développement d'un sentiment de sécurité chez l'enfant. Lorsque un bébé naît, son développement psychologique prend un nouveau tournant. Chaque contact, chaque regard, chaque mot des parents s'imprime dans la tendre matière de l'enfant, formant ses idées sur le monde, sur lui-même et sur ceux qui l'entourent. Au cours de la première année de vie, lorsque le bébé ne peut pas encore parler, il apprend activement à comprendre le monde, traversant les motions et les sensations tactiles. C'est le moment où les bases de la confiance dans le monde sont posées : traversant la chaleur des mains, la tendresse des clins d'œil et la confiance que les parents sont toujours là. Le sourire de maman, la voix douce de papa, leur calme et leur confiance se transmettent au bébé, procurant un sentiment de sécurité et d'anticipation des bonnes choses.

L'importance de l'éducation psychologique pendant cette période ne peut être surestimée. C'est le moment où sont posées les bases de l'estime de soi, de l'adaptabilité et des premières compétences sociales. Les parents sont les premiers enseignants et mentors grâce auxquels l'enfant apprend à comprendre et à comprendre les autres, à ressentir et à exprimer ses motions. L'amour, l'attention, le respect et la compréhension qu'un enfant reçoit au cours de la première année de sa vie deviennent la pierre angulaire de sa santé psychologique et de son bien-être pour le reste de sa vie. C'est le socle sur lequel se construiront toutes ses relations futures, sa confiance en lui et sa capacité à affronter les difficultés. Ainsi, l'éducation psychologique commence bien avant le premier mot, le premier pas, elle commence avec le premier battement du cœur dans l'utérus et se poursuit chaque instant de la première année de la vie. C'est une étape mystérieuse et majestueuse qui va remplir ce monde d'amour en levant une nouvelle page qui en fera un jour un endroit meilleur.
