Mab And Songs Ed By Fabrice Fitch:

The Flower of Paradise David J. Rothenberg, 2011-10-05 There is a striking similarity between Marian devotional songs and secular love songs of the late Middle Ages and Renaissance Two disparate genres one sacred the other secular one Latin the other vernacular both praise an idealized impossibly virtuous woman Each does so through highly stylized derivations of traditional medieval song forms Marian prayer derived from earlier Gregorian chant and love songs and lyrics from medieval courtly song Yet despite their obvious similarities the two musical and poetic traditions have rarely been studied together Author David J Rothenberg takes on this task with remarkable success producing a useful and broad introduction to Marian music and liturgy and then coupling that with an incisive comparative analysis of these devotional forms and the words and music of secular love songs of the period The Flower of Paradise examines the interplay of Marian devotional and secular poetics within polyphonic music from ca 1200 to ca 1500 Through case studies of works that demonstrate a specific symbolic resonance between Marian devotion and secular song the book illustrates the distinctive ethos of this period in European culture Rothenberg makes use of an impressive command of liturgical and religious studies literature and poetry and art history to craft a study with wide application across disciplinary boundaries With its broad scope and unique incisive analysis this book will open up new ways of thinking about the history and development of secular and sacred music and the Marian tradition for scholars students and anyone with an interest in medieval and Renaissance religious culture *A Companion to Music at the Habsburg Courts in the Sixteenth and Seventeenth Centuries*, 2020-09-25 A Companion to Music at the Habsburg Courts in the Sixteenth and Seventeenth Centuries edited by Andrew H Weaver is the first in depth survey of Habsburg musical patronage over a broad timeframe Bringing together existing research and drawing upon primary sources the authors all established experts provide overviews of the musical institutions the functions of music the styles and genres cultivated and the historical political and cultural contexts for music at the Habsburg courts The wide geographical scope includes the imperial courts in Vienna and Prague the royal court in Madrid the archducal courts in Graz and Innsbruck and others This broad view of Habsburg musical activities affirms the dynasty's unique position in the cultural life of early modern Europe Contributors are Lawrence Bennett Charles E Brewer Drew Edward Davies Paula Sutter Fichtner Alexander J Fisher Christine Getz Beth L Glixon Jeffrey Kurtzman Virginia Christy Lamothe Honey Meconi Sara Pecknold Jonas Pfohl Pablo L Rodriguez Steven Saunders Herbert Seifert Louise K Stein and Andrew H Weaver **Renaissance Polyphony** Fabrice Fitch, 2020-08-27 This engaging study introduces Renaissance polyphony to a modern audience balancing the listening experience with what lies beyond the notes *Essays on Renaissance Music in Honour of David Fallows* Fabrice Fitch, Jacobijn Kiel, 2011 New articles on du Fay and Desprez on sacred and secular music and reception history form a fitting tribute to one of the field's foremost scholars This volume celebrates the work of David Fallows one of the most influential scholars in the field of medieval and Renaissance music It draws together articles by scholars from around the world focusing

Fabrice Fitch, 1997 *Goldberg*, 2007 *Gramophone*, 2009 *Operas in German: A Dictionary* Margaret Ross
Griffel, 2018-01-23 With nearly three thousand new entries, the revised edition of *Operas in German: A Dictionary* is the most current encyclopedic treatment of operas written specifically to a German text from the seventeenth century through 2016. Musicologist Margaret Ross Griffel details the operas, composers' scores, librettos, first performances, and bibliographic sources. Four appendixes then list composers, librettists, authors whose works inspired or were adapted for the opera librettos, and a chronological listing of the entries in the A-Z section. The bibliography details other dictionaries and encyclopedias, performance studies, collections of plot summaries, general studies on operas, sources on locales where opera premieres took place, works on the history of operas in German, and selective volumes on individual opera composers, librettists, producers, directors, and designers. Finally, two indexes list the main characters in each opera and the names of singers, conductors, producers, composers, directors, choreographers, and arrangers. The revised edition of *Operas in German* provides opera historians, musicologists, performers, and opera lovers with an invaluable resource for continued study and enjoyment. The Divine Economy Paul Seabright, 2024-05-14 Longlisted for the Financial Times and Schroders Business Book of the Year Award. A novel economic interpretation of how religions have become so powerful in the modern world. Religion in the twenty-first century is alive and well across the world despite its apparent decline in North America and parts of Europe. Vigorous competition between and within religious movements has led to their accumulating great power and wealth. Religions in many traditions have honed their competitive strategies over thousands of years. Today they are big business-like businesses; they must recruit, raise funds, disburse budgets, manage facilities, organize transportation, motivate employees, and get their message out. In *The Divine Economy*, economist Paul Seabright argues that religious movements are a special kind of business; they are platforms bringing together communities of members who seek many different things from one another: spiritual fulfilment, friendship, and marriage networks, even business opportunities. Their function as platforms, he contends, is what has allowed religions to consolidate and wield power. This power can be used for good, especially when religious movements provide their members with insurance against the shocks of modern life and a sense of worth in their communities. It can also be used for harm: political leaders often instrumentalize religious movements for authoritarian ends, and religious leaders can exploit the trust of members to inflict sexual, emotional, financial, or physical abuse, or to provoke violence against outsiders. Writing in a nonpartisan spirit, Seabright uses insights from economics to show how religion and secular society can work.

The New Grove Dictionary of Music and Musicians: Harpégé to Hutton Stanley Sadie, John Tyrrell, 2001 This reference classic has approximately doubled in size since its last publication 20 years ago and the expansion involves more than the thorough revision and addition of articles about music of the past More articles about 20th century composers and composer performers have been added as well as topical articles about the gender related multicultural and interdisciplinary ways that music is now being studied Add to these changes that New Grove is also available online making it a source that would have made its many faceted creator Sir George Grove proud Outstanding reference sources American Libraries May 2002
