The Perils of Interpreting Henrietta Harrison, 2023-10-24 A fascinating history of China's relations with the West told through the lives of two eighteenth century translators The 1793 British embassy to China which led to Lord George Macartney's fraught encounter with the Qianlong emperor has often been viewed as a clash of cultures fueled by the East's lack of interest in the West In The Perils of Interpreting Henrietta Harrison presents a more nuanced picture ingeniously shifting the historical lens to focus on Macartney's two interpreters at that meeting Li Zhibiao and George Thomas Staunton Who were these two men How did they intervene in the exchanges that they mediated And what did these exchanges mean for them From Galway to Chengde and from political intrigues to personal encounters Harrison reassesses a pivotal moment in relations between China and Britain She shows that there were Chinese who were familiar with the West but growing tensions endangered those who embraced both cultures and would eventually culminate in the Opium Wars Harrison demonstrates that the Qing court's ignorance about the British did not simply happen but was manufactured through the repression of cultural go betweens like Li and Staunton She traces Li's influence as Macartney's interpreter the pressures Li faced in China as a result and his later years in hiding Staunton interpreted successfully for the British East India Company in Canton but as Chinese anger grew against

British imperial expansion in South Asia he was compelled to flee to England Harrison contends that in silencing expert voices the Qing court missed an opportunity to gain insights that might have prevented a losing conflict with Britain

J. Marshall,2007-09-27 In *The Making and Unmaking of Empires* P J Marshall distinguished author of numerous books on the British Empire and former Rhodes Professor of Imperial History provides a unified interpretation of British imperial history in the later eighteenth century He

brings together into a common focus Britain's loss of empire in North America and the winning of territorial dominion in parts of India and argues that these developments were part of a single phase of Britain's imperial history rather than marking the closing of a first Atlantic empire and the rise of a second eastern one. In both India and North America Britain pursued similar objectives in this period. Fearful of the apparent enmity of France, Britain sought to secure the interests overseas which were thought to contribute so much to her wealth and power. This involved imposing a greater degree of control over colonies in America and over the East India Company and its new possessions in India. Aspirations to greater control also reflected an increasing confidence in Britain's capacity to regulate the affairs of subject peoples especially through parliament. If British objectives throughout the world were generally similar, whether they could be achieved depended on the support or at least acquiescence of those they tried to rule. Much of this book is concerned with bringing together the findings of the rich historical writing on both post-Mughal India and late colonial America to assess the strengths and weaknesses of empire in different parts of the world. In North America, potential allies who were closely linked to Britain in beliefs, culture, and economic interest were ultimately alienated by Britain's political pretensions. Empire was extremely fragile in two out of the three main Indian settlements. In Bengal, however, the British achieved a *modus vivendi* with important groups which enabled them to build a secure base for the future subjugation of the subcontinent. With the authority of one who has made the study of empire his life's work, Marshall provides a valuable resource for scholar and student alike.

Howard Weinbrot and the Precincts of Enlightenment Kevin L. Cope, 2024-05-07 Seeking to honor and extend the critical legacy of Howard Weinbrot, this volume re-examines, rebuilds, and upgrades the most prominent pillars of long eighteenth-century scholarship. The collection is divided into four thematic sections, beginning with a series of chapters offering fresh analyses of Swift, Dryden, Hogarth, and other major authors and artists of the period. In the sections that follow, the contributors not only explore biographies of both highly esteemed figures and notorious deviants but also investigate the very concept of Enlightenment as it has evolved from the eighteenth century to today. The final section features chapters that probe the complex interaction of identity, persona, and place, traversing the countless locales in which the British and the international eighteenth century emerged. The volume ultimately covers a range of experience that extends from the gallows to the landscape garden and from heroic antiquity to the Romantic era. France, juxtaposing the local and particular against the grand and universal, Howard Weinbrot and the Precincts of Enlightenment testifies to the complexity and ongoing significance of eighteenth-century culture.

*Scandal of Colonial Rule* James Epstein, 2012-03-22 In 1806 General Thomas Picton Britain's first governor of Trinidad was brought to trial for the torture of a free mulatto named Louisa Calderon and for overseeing a regime of terror over the island's slave population James Epstein offers a fascinating account of the unfolding of this colonial drama He shows the ways in which the trial and its investigation brought empire home and exposed the disjuncture between a national self image of humane governance and the brutal realities of colonial rule He uses the trial to open up a range of issues including colonial violence and norms of justice the status of the British subject imperial careering visions of development after slavery slave conspiracy and the colonial archive He reveals how Britain's imperial regime became more authoritarian hierarchical and militarised but also how unease about abuses of power and of the rights of colonial subjects began to grow

*Irish Imperial Networks* Barry Crosbie, 2011-11-17 This is an innovative study of the role of Ireland and the Irish in the British Empire which examines the intellectual cultural and political interconnections between nineteenth century British imperial Irish and Indian history Barry Crosbie argues that Ireland was a crucial sub imperial centre for the British Empire in South Asia that provided a significant amount of the manpower intellectual and financial capital that fuelled Britain's drive into Asia from the 1750s onwards He shows the important role that Ireland played as a centre for recruitment for the armed forces the medical and civil services and the many missionary and scientific bodies established in South Asia during the colonial period In doing so the book also reveals the important part that the Empire played in shaping Ireland's domestic institutions family life and identity in equally significant ways

Also available as a journal, volume five of the sixth series will include 'The Peoples of Ireland 1110-1400', 'Names and Boundaries', 'Rees Davies: My special friend', 'The Settlement of Disputes and Political Power in the Kingdom of the French tenth to early twelfth centuries', 'Jane Martindale: The structures of politics in early Stuart England', 'Steve Gunn: Liberalism and the establishment of collective security in British Foreign Policy', 'Joseph C Heim: Empire and opportunity in later eighteenth century Britain', 'Peter Marshall: History through fiction', 'British lives in the novels of Raymond Wilson David B Smith: Institutions and economic development in early modern central Europe', 'proto industrialisation in Württemberg 1580-1797', 'Sheila Ogilvie'. *The Radical Potter* Tristram Hunt, 2021-10-26 From one of Britain's leading historians and the director of the Victoria and Albert Museum, Catherine II of Russia ordered hundreds of pieces for her palace. British diplomats hauled it with them on their first ever mission to Peking, audaciously planning to impress China with their china. But the life of Josiah Wedgwood is far richer than just his accomplishments in ceramics. He was a leader of the Industrial Revolution, a pioneering businessman, a cultural tastemaker and a tireless scientific experimenter whose inventions made him a fellow of the Royal Society. He was also an ardent abolitionist whose Emancipation Badge medallion depicting an enslaved African and inscribed 'Am I Not a Man and a Brother' became the most popular symbol of the antislavery movement on both sides of the Atlantic. And he did it all in the face of chronic disability and relentless pain: a childhood bout with smallpox eventually led to the amputation of his right leg. As historian Tristram Hunt puts it in this lively, vivid biography, Wedgwood was the Steve Jobs of the eighteenth century, a difficult, brilliant, creative figure whose personal drive and extraordinary gifts changed the way we work and live. Drawing on a rich array of letters, journals and historical documents, *The Radical Potter* brings us the story of a singular man, his dazzling contributions to design and innovation and his remarkable global impact. **Getting Our Way** Christopher Meyer, 2013-04-18 A highly informed insider's account of some of the honest men as they sought by fair means or foul to get Britain its way in the world. *GETTING OUR WAY* recounts nine stories from Britain's diplomatic annals over the last five hundred years in which the diplomats themselves are at the centre of the narrative. It is an inside account of their extraordinary experiences, sometimes in the face of physical danger, often at history's hinge. Be it Henry Killigrew's mission to Edinburgh in 1572, Castlereagh at the Congress of Vienna, Our Man in Washington and the Nassau Deal or the handover of Hong Kong to China, we can see how Britain has viewed its interests in the world and sought to advance them. Some of these dramatic episodes record triumph, some failure, but all of them illustrate how the three pillars of the national interest—security, prosperity and values—have been the foundation of British foreign policy for half a century. Each story is illuminated by colourful anecdotes and insights drawn from Christopher Meyer's first-hand experience of international relations. Moreover, the book is a salutary reminder that foreign policy and diplomacy begin and

end with the national interest And far from being the preserve of aloof aristocrats the pursuit of our national interest is replete with an extraordinary combination of high principle and low cunning vice and virtue all with the specific aim of getting our way      **The Pursuit of the Heiress** A. P. W. Malcomson,2006 The Pursuit of the Heiress is a new greatly enlarged and more widely focused version of what the late Lawrence Stone described as a brilliant long essay or short book on the subject of the role of heiresses among the Irish aristocracy which was published by the Ulster Historical Foundation under the same title in 1982 and has long been out of print The new book comes to the same broad conclusions about heiresses namely that their importance as a means of enlarging the estates or retrieving the fortunes of their husbands has been much exaggerated This was because known heiresses were well protected by a variety of legal devices and in common with many aristocratic women of the day also had minds and strong preferences of their own which meant that they were not generally an object of deliberate or profitable pursuit The new book also ranges more widely than its central theme of heiresses and addresses other aspects of aristocratic marriage such as abductions elopements mesalliances the supposed rise of the affective family and the disadvantaged situation of even the richest and most privileged women in an age when both adultery and divorce were largely the prerogative of men      **Remembering All the Orrs** R. H. Foy,1999 William Orr of Farranshane 1766 1797 married Isabella Greer 1768 1847 in 1788 They had six children      **Long Room** ,1986
