Leo Strauss and His Legacy John Albert Murley,2005-01-01 With over 10 000 entries identifying work of hundreds of Strauss s students and their students students this bibliography is the most indeed the only comprehensive guide to published writing in the tradition of Leo Strauss Murley includes Strauss s own complete bibliography and that of one of his most revered students George Anastaplo Homeland Fascism Herman Schwendinger,Julia Schwendinger,2016-06-23 It can t happen here This has been the prevailing sentiment about the possible emergence of fascism in the United States since the rise of international fascism in the 1930s Yet there are signs that it may already be happening and at the highest levels of government In their copiously researched and documented work the Schwendingers outline the structural transformations policies and practices that raise the prospect of fascist governance in the 21st Century United States They show that a homeland fascism has significant supports within the framework of American liberal democracy This is an important analysis in a context in which concerns about fascist demagoguery and far right mobilization appear to be growing in the US and beyond Spectres of Pessimism Mark Schmitt,2023-03-15 This book argues that philosophical pessimism can offer vital impulses for contemporary cultural studies Pessimist thought offers ways to interrogate notions of temporality progress and

futurity When the horizon of future expectation is increasingly shaped by the prospect of apocalypse and extinction an exploration of pessimist thought can help to make sense of an increasingly complex and uncertain world by affirming rather than suppressing the worst This book argues that a cultural logic of the worst is at work in a substantial section of contemporary philosophical thought and cultural representations Spectres of pessimism can be found in contemporary ecocritical thought antinatalist philosophies political thought and cultural theory as well as in literature film and popular music In its unsettling of temporality this new pessimism shares sensibilities with the field of hauntology Both deconstruct linear narratives of time that adhere to a stable sequence of past present and future Mark Schmitt therefore couples pessimism and hauntology to explore the spectres of pessimism in a range of theories and narratives from ecocriticism antinatalism and gueer theory to utopianism from afropessimism to the fiction of Hari Kunzru and Thomas Ligotti to the films of Camille Griffin Gaspar No Denis Villeneuve and Lars von Trier **Hearings** United States. Death Activism Patricia MacCormack, 2025-02-06 Traditional Western attitudes towards death deal with it as a painful inevitability something that has to be navigated as a trauma and a taboo They focus essentially on the management of death an anthropocentric practice prioritising the human life above every other type of existence Patricia MacCormack explores how we can develop a death activism a variety of tactics and posthuman practices which celebrate death its inevitability its forms from the slow to times of crisis and how trauma and mourning emerge as their own forms of expression Crucial to the foundation of death activism is the dissymmetry with which different deaths are met including the mass death of nonhuman animals and ecologies Death Activism is a feminist queer postcolonialist enquiry that seeks to queer death making queer our usual familiar death habits and trajectories of thought toward a jubilant activism that can transform death into a more democratically equal and a more jubilant force for life **Registration of Lobbyists** United States. <u>Perpetrators and Accessories in International Criminal Law</u> Neha Jain,2014-12-01 International criminal law lacks a coherent account of individual responsibility This failure is due to the inability of international tribunals to capture the distinctive nature of individual responsibility for crimes that are collective by their very nature Specifically they have misunderstood the nature of the collective action or framework that makes these crimes possible and for which liability may

be attributed to intellectual authors policy makers and leaders In this book the author draws on insights from comparative law and methodology to propose doctrines of perpetration and secondary responsibility that reflect the role and function of high level participants in mass atrocity while simultaneously situating them within the political and social climate which renders these crimes possible This new doctrine is developed through a novel approach which combines and restructures divergent theoretical perspectives on attribution of responsibility in English and German domestic criminal law as major representatives of the common law and civil law systems At the same time it analyses existing theories of responsibility in international criminal law and assesses whether there is any justification for their retention by international criminal Imagine There's No Heaven Mitchell Stephens, 2014-02-25 The historical achievements of religious belief have been large and well chronicled But what about the accomplishments of those who have challenged religion Traveling from classical Greece to twenty first century America Imagine There's No Heaven explores the role of disbelief in shaping Western civilization At each juncture common themes emerge by questioning the role of gods in the heavens or the role of a God in creating man on earth nonbelievers help move science forward By challenging the divine right of monarchs and the strictures of holy books nonbelievers including Jean Jacques Rousseau and Denis Diderot help expand human liberties and influence the early founding of the United States Revolutions in science in politics in philosophy in art and in psychology have been led on multiple occasions by those who are free of the constraints of religious life Mitchell Stephens tells the often courageous tales of history s most important atheists like Denis Diderot and Salman Rushdie Stephens makes a strong and original case for their importance not only to today s New Atheist movement but to the way many of us believers and nonbelievers now think and live Words on Cassette, 2002 R R Bowker Publishing, 2002 The Law of War Crimes Timothy L. H. MacCormack, Gerry J. Simpson, 1997-01-01 The essays discuss the philosophical and political implications of war crimes jurisprudence as well as the surprisingly rich and unexpected historical record of previous war crimes trials Issues also covered are legislative and judicial approaches to war crimes in Europe Israel Australia and North America This publication contains an indispensable new material and careful legal analysis Whitaker's Books in Print ,1990 The MacCormack Conspiracy Catherine Marshall, 1988
