Machiavelli And The Nature Of Political Thought:

Machiavelli and the Nature of Political Thought Martin Fleisher, 1973-01-01 **Machiavelli and the Nature of Political Thought** Martin Fleisher, 1972-02 American and English theorists discuss various facets of political philosophy and evaluate Machiavelli's contributions to modern political thought Machiavelli and the Nature of Political Thought, 1973

The Nature of Political Philosophy James V. Schall, 2022-10-02 In his final collection of essays Father Schall explores the life of faith across a dazzling array of subjects from Martin Luther to bioethics With his characteristic patience brilliance and careful tenacity Father Schall interrogates profoundly what it means to try to be a citizen of the Kingdom of God in the city of Man Never shying away from controversy across 14 articles and 4 book reviews Father Schall investigates the critical themes of his life and scholarship reason and revelation the nature of modernity literature and salvation metaphysics and politics and much more Whether the reader is new to Father Schall or a longtime student this posthumously published collection of essays offers a profound meditation on the nature of political philosophy and particularly what it would mean for Catholicism to offer a political philosophy From such fundamental considerations Schall explores ethical literary and legal themes displaying his typical breadth and depth of engagement with all that is real Ultimately Father Schall leads one on a Socratic enterprise an education whereby one comes to question for oneself basic assumptions and to dig deeper into the first principles as they are recalled in the orders of knowledge and being While Father Schall has passed on to his reward this collection of essays helps ensure that his lessons continue to guide challenge and enrich students for generations to come

Between Form and Event: Machiavelli's Theory of Political Freedom M. Vatter, 2013-04-17 Before Machiavelli political freedom was approached as a problem of the best distribution of the functions of ruler and ruled Machiavelli changed the terms of freedom requiring that its discourse address the demand for no rule or non domination Political freedom would then develop only through a strategy of antagonism to every form of legitimate domination This leads to the emergence of modern political life any institution that wishes to rule legitimately must simultaneously be inscribed with its immanent critique and imminent subversion For Machiavelli the possibility of instituting the political form is conditioned by the possibility of changing it in an event of political revolution This book shows Machiavelli as a philosopher of the modern condition For him politics exists in the absence of those absolute moral standards that are called upon to legitimate the domination of man over man If this understanding lies open to relativism and historicism it does so in order to render effective the project of reinventing the sense of human freedom Machiavelli's legacy to modernity is the recognition of an irreconcilable tension between the demands of freedom and the imperatives of morality *Western Political Thought* Robert Eccleshall, Michael Kenny, 1995 This is a guide to the vast amount of literature on the history of political thought which has appeared in English since 1945 The editors provide an annotation of the content of many entries and where appropriate indicate their significance controversial nature and readability **Political Philosophy of Niccolo Machiavelli** Filippo Del

Lucchese,2015-04-08 The Political Philosophy of Niccolo Machiavelli is a clear account of Machiavelli s thought major theories and central ideas Geared towards the specific requirements of students who need to reach a sound understanding of Machiavelli s ideas it is the ideal companion to the study of this influential and challenging philosopher Machiavelli

Conference For The Study Of Political Thought. U.S.A. Meeting. 1969. Toronto., **The Nature of Political Theory**

Andrew Vincent,2004 Andrew Vincent here offers a comprehensive synoptic and comparative analysis of the major conceptions of political theory throughout the twentieth century It challenges established views of contemporary political theory and provides critical perspectives on the future of the subject **Political Thought From Machiavelli to Stalin** E. A. Rees,2004-03-12 This is the first book in English to explore the relationship between Stalin s ideas and methods and the practices advocated by Machiavelli and those associated with Machiavellian politics It advances the concept of revolutionary Machiavellism as a way of understanding a particular strand of revolutionary thought from the Jacobins through to Leninism and Stalinism By providing a wide ranging survey of European political thought in the Nineteenth and early Twentieth century E A Rees locates the Bolshevik tradition within the wider European tradition *Leo Strauss and the Problem of Political Philosophy* Michael P. Zuckert,Catherine H. Zuckert,2014-06-30 This critical study of the influential political theorist dispels popular myths and reveals the inner logic of his varied and notoriously complex writings Political theorist Leo Strauss was unexpectedly thrust into the media spotlight for his alleged influence on neoconservative politics With The Truth about Leo Strauss Michael and Catherine Zuckert challenged the many claims and speculations about this complex thinker Now with Leo Strauss and the Problem of Political Philosophy they offer a more comprehensive interpretation of Strauss s thought using the many manifestations of the problem of political philosophy as their touchstone Strauss they argue sought to restore political philosophy to its original Socratic form This is demonstrated through his critique of positivism and historicism two intellectual currents that undermined his Socratic project The authors also explore Strauss s interpretation of both ancient and modern political philosophers including Plato Aristotle Machiavelli and Locke Finally they examine Strauss s thought in the context of the twentieth century when his chief interlocutors were Schmitt Husserl Heidegger and Nietzsche Leo Strauss and the Problem of Political Philosophy is the most in depth treatment of this often misunderstood thinker examining his ideas across his long career It reveals Strauss s overall intellectual project to decode how ancient and modern theory attempted to solve the problem of political philosophy And it shows why Strauss considered the ancient solution both philosophically and politically superior **The Legacy of Isocrates and a Platonic Alternative** James R. Muir,2018-07-27 Bringing together the history of educational philosophy political philosophy and rhetoric this book examines the influence of the philosopher Isocrates on educational thought and the history of education Unifying philosophical and historical arguments Muir discusses the role of Isocrates in raising two central questions What is the value of education By what methods ought the value of education to be determined Tracing the historical influence of Isocrates ideas of the nature and

value of education from Antiquity to the modern era Muir questions normative assumptions about the foundations of education and considers the future status of education as an academic discipline *The Structure of Political Thought* Charles N. R. McCoy, 2017-07-05 Originally published in 1963 this classic book is a rethinking of the history of Western political philosophy Charles N R McCoy contrasts classical medieval principles against the hypotheses at the root of modern liberalism and modern conservatism In Part I The Classical Christian Tradition from Plato to Aquinas the author lays the foundation for a philosophical structure capable of producing constitutional liberty Part II The Modern Theory of Politics from Machiavelli to Marx attempts to show beginning with Machiavelli the reversal and destruction of the pre modern structure postulated in Part I McCoy stresses the great contributions of Aristotle to political thought found in his more familiar Ethics and Politics but also includes key insights drawn from Metaphysics and Physics These contributions are developed and perfected McCoy argues by Augustine and Aquinas Two other important features include McCoy s epistemological insights into Plato s work that will be new to many readers and the author s juxtaposition of traditional natural law with the modernized theory of natural law The modern account of autonomous natural law in McCoy s view helps explain the totalitarian direction of key aspects of modern political thought This classic volume on the origins of modern philosophical thought remains a standard in the field **Machiavelli's Liberal Republican Legacy** Paul A.

Rahe, 2005-11-14 The significance of Machiavelli s political thinking for the development of modern republicanism is a matter of great controversy In this volume a distinguished team of political theorists and historians reassess the evidence examining the character of Machiavelli s own republicanism and charting his influence on Marchamont Nedham James Harrington John Locke Algernon Sidney John Trenchard Thomas Gordon David Hume the Baron de Montesquieu Benjamin Franklin George Washington John Adams Thomas Jefferson James Madison and Alexander Hamilton This work argues that while Machiavelli himself was not liberal he did set the stage for the emergence of liberal republicanism in England By the exponents of commercial society he provided the foundations for a moderation of commonwealth ideology and exercised considerable if circumscribed influence on the statesmen who founded the American Republic Machiavelli s Liberal Republican Legacy will be of great interest to political theorists early modern historians and students of the American political tradition

Philosophy of Ethics and Society Hector Davidson, This book consists of the following titles and topics Adam Smith Ayn Rand Baruch Spinoza Bertrand Russell Camus Critical Theory Cynicism Epicurus Feminist Philosophy Humanism Liberalism Mary Wollstonecraft Montesquieu Moral Philosophy Naturalism Niccolo Machiavelli Parmenides Peter Singer Political Philosophy Simone Weil Socrates Transcendentalism Utilitarianism *Readings in Classical Political Thought* Peter J. Steinberger, 2000-01-01 Designed to include all of the texts from Presocratics through Machiavelli likely to be read in an undergraduate course on classical political thought this anthology has at its core generous selections from Plato and Aristotle Building on this core is a sufficiently diverse and substantial selection of texts from other writers including Thucydides and

the Sophists to allow for inquiry into the variety of Classical Greek approaches to politics as well as into Roman Medieval and Renaissance developments of the classical tradition. Preeminent translations and the editor's own thoughtful introductions further distinguish this unique anthology. *The Key Texts of Political Philosophy* Thomas L. Pangle, Timothy W. Burns, 2015

This book introduces readers to analytical interpretation of seminal writings and thinkers in the history of political thought including Socrates Plato Aristotle the Bible Thomas Aquinas Machiavelli Bacon Hobbes Locke Montesquieu Rousseau Tocqueville Marx and Nietzsche. Chronologically arranged, each chapter in the book is devoted to the work of a single thinker. The selected texts together engage with 2000 years of debate on fundamental questions which include: What is the purpose of political life? What is the good life for us as individuals and for us as a political community? What is justice? What is a right? Do human beings have rights? What kinds of human virtues are there and which regimes best promote them? The difficulty of accessing the texts included in this volume is the result not only of their subtlety but also of the dramatic change in everyday life. The authors shed light on the texts' vocabulary and complexities of thought and help students understand and weigh the various interpretations of each philosopher's thought. Accessible interpretive essays on the greatest texts in the history of political thought from Plato to Nietzsche. Includes key passage plus a succinct discussion that glosses the text, examines later day interpretations and guides students in forming their own interpretations. Allows students to learn from rather than only about each thinker and to apply their thought to the present day. **Western Political Thought** Leigh Weber, 2018-08-12

Political philosophy is the study of the fundamental questions about the state, government, politics, property, law and the enforcement of a legal code by authority: what they are, why they are needed, what makes a government legitimate, what rights and freedoms it should protect and why, what form it should take and why, what the law is and what duties citizens owe to a legitimate government if any and when it may be legitimately overthrown. Western political thought has been dominated since the beginning with an interest in the procedures by which political power is applied. Western political thought is an extremely important subject of study both for university as well as for competitive examinations. It is equally important for all those interested in politics. Aim of this book is to provide to our readers innovative and important aspects of this essential subject at different levels. In selection of the material care has been exercised to conform to the course contents. Efforts have been made to include readers' friendly essays. The present book provides general history necessary for the comprehension of political philosophers relating their works and contributions to the western political thought. The book traverses political thought down from antiquity, the middle ages through the renaissance to the modern period in a lucid manner. The book is useful for students, teachers, researchers, historians, politicians and general readers. **Engaging Nature** Peter F. Cannavò, Joseph H. Lane Jr., 2014-12-19

Contemporary environmental political theory considers the implications of the environmental crisis for such political concepts as rights, citizenship, justice, democracy, the state, race, class and gender. As the field has matured, scholars have begun to explore connections between Green Theory and such canonical political thinkers as

Plato Machiavelli Locke and Marx The essays in this volume put important figures from the political theory canon in dialogue with current environmental political theory It is the first comprehensive volume to bring the insights of Green Theory to bear in reinterpreting these canonical theorists Individual essays cover such classical figures in Western thought as Aristotle Hume Rousseau Mill and Burke but they also depart from the traditional canon to consider Mary Wollstonecraft W E B Du Bois Hannah Arendt and Confucius Engaging and accessible the essays also offer original and innovative interpretations that often challenge standard readings of these thinkers In examining and explicating how these great thinkers of the past viewed the natural world and our relationship with nature the essays also illuminate our current environmental predicament

Publisher **Machiavelli's Politics** Catherine H. Zuckert, 2017-04-25 Machiavelli is popularly known as a teacher of tyrants a key proponent of the unscrupulous Machiavellian politics laid down in his landmark political treatise *The Prince* Others cite the *Discourses on Livy* to argue that Machiavelli is actually a passionate advocate of republican politics who saw the need for occasional harsh measures to maintain political order Which best characterizes the teachings of the prolific Italian philosopher With *Machiavelli's Politics* Catherine H Zuckert turns this question on its head with a major reinterpretation of Machiavelli's prose works that reveals a surprisingly cohesive view of politics Starting with Machiavelli's two major political works Zuckert persuasively shows that the moral revolution Machiavelli sets out in *The Prince* lays the foundation for the new form of democratic republic he proposes in the *Discourses* Distrusting ambitious politicians to serve the public interest of their own accord Machiavelli sought to persuade them in *The Prince* that the best way to achieve their own ambitions was to secure the desires and ambitions of their subjects and fellow citizens In the *Discourses* he then describes the types of laws and institutions that would balance the conflict between the two in a way that would secure the liberty of most if not all In the second half of her book Zuckert places selected later works *La Mandragola* *The Art of War* *The Life of Castruccio* *Castracani* *Clizia* and *Florentine Histories* under scrutiny showing how Machiavelli further developed certain aspects of his thought in these works In *The Art of War* for example he explains more concretely how and to what extent the principles of organization he advanced in *The Prince* and the *Discourses* ought to be applied in modern circumstances Because human beings act primarily on passions Machiavelli attempts to show readers what those passions are and how they can be guided to have productive rather than destructive results A stunning and ambitious analysis *Machiavelli's Politics* brilliantly shows how many conflicting perspectives do inform Machiavelli's teachings but that one needs to consider all of his works in order to understand how they cohere into a unified political view This is a magisterial work that cannot be ignored if a comprehensive understanding of the philosopher is to be obtained

Machiavelli And The Nature Of Political Thought Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has become much more apparent than ever.
