The Cultural Politics of Twentieth-Century Spanish Theater Carey Kasten, 2012-02-16 The Cultural Politics of Twentieth Century Spanish Theater argues that twentieth century artists used the Golden Age Eucharist plays called autos sacramentales to reassess the way politics and the arts interact in the Spanish nation's past and present and to posit new ideas for future relations between the state and the national culture industry The book traces the phenomenon of the twentieth century auto to show how theater practitioners revisited this national genre to manifest different oftentimes opposing ideological and aesthetic agendas It follows the auto from the avant-garde stagings and rewritings of the form in the early twentieth century to the Francoist productions by the Teatro Nacional de la Falange to postmodern parodies of the form in the era following Franco's death to demonstrate how twentieth century Spanish dramatists use the auto in their reassessment of the nation's political and artistic past and as a way of envisioning its future

Madrid's Forgotten Avant-Garde Silvina Schammah Gesser, 2016-04-01 This book explores the role played by artists and intellectuals who constructed and disseminated various competing images of national identity which polarized Spanish society prior to the Civil War The convergence of modern and essentialist discourses and practices especially in literature and poetry in what is conventionally called in Spanish letters The Generation of 27 created fissures between competing views of aesthetics and ideology that cut across political affiliation Silvina Schammah exposes the paradoxes facing Madrid's cultural vanguards as they were torn by their ambition for universality cosmopolitanism and transcendence on the one hand and by the centripetal forces of nationalistic ideologies on the other Taking upon themselves roles to become the disseminators and popularizers of radical positions and world views first elaborated and conducted by the young urban intelligentsia their proposed aim of incorporating diverse identities embedded in different cultural constructions and discourse was to have very real and tragic consequences as political and intellectual lines polarized in the years prior to the Spanish Civil War

Writing and Filming the Painting Laura M. Sager Eidt, 2008 This innovative interdisciplinary study compares the uses of painting in literary texts and films In developing a framework of four types of ekphrasis the author argues for the expansion of the concept of ekphrasis by demonstrating its applicability as interpretive tool to films about the visual arts and artists Analyzing selected works of art by Goya Rembrandt and Vermeer and their ekphrastic treatment in various texts and films this book examines how the medium of ekphrasis affects the representation of the visual arts in order to show what the differences imply about issues such as gender roles and the

function of art for the construction of a personal or social identity Because of its highly cross disciplinary nature this book is of interest not only to scholars of literature and aesthetics but also for scholars of film studies By providing an innovative approach to discussing non documentary films about artists the author shows that ekphrasis is a useful tool for exploring both aesthetic concerns and ideological issues in film This study also addresses art historians as it deals with the reception of major artists in European literature and film throughout the 20th century Multiple Spaces Salvador

Jiménez-Fajardo,1985 The Theatre of Antonio Buero Vallejo Catherine O'Leary,2005 This monograph examines the complex relationship between Antonio Buero Vallejo 1916 2000 and the ideologies of Francoist and post Franco Spain This monograph examines the complex relationship between Antonio Buero Vallejo 1916 2000 and the ideologies of Francoist and post Franco Spain The central focus of the study is Buero s political theatre and his employment of myth and history to challenge the notion of an España eterna It also considers Buero s creation of his own myths and his revision of history in order to rationalize and justify his own stance In his determination to write and stage committed drama in a repressive society Buero s choice with its inherent contradictions and ambiguities was posibilismo This book looks at this pragmatic employment of language and silence both in his art and in his dealings with the censors and with other representatives of the hegemony and analyses how posibilismo both aided and limited him The monograph also considers Buero s neglected post Franco theatre examining the reasons for its initial negative reception and its renewed importance in today s Spain In these days of digging up the past Buero s post Franco insistence on rejecting the pacto de olvido is perhaps more relevant than ever before CATHERINE O LEARY lectures in Spanish at the National University of Ireland Maynooth **The Monument of Tomorrow** Miguel Caballero,2025-07-15 Rupture iconoclasm and tabula rasa are concepts commonly used to describe the approach to cultural heritage associated with the avant garde and revolutionary politics during the early twentieth century Highlighting artists and radical intellectuals who worked to protect public monuments in 1910 1950s Spain The Monument of Tomorrow challenges the persistent narrative imposed by Francoism of an iconoclastic Second Republic in Spain Author Miguel Caballero draws on a wide range of sources to examine how artists architects writers and activists transformed monument and heritage conservation into a progressive experimental cause in their fight against fascism During the Spanish War with its devastating air raids these individuals were motivated by the defense of culture to become determined conservationists Caballero s research incorporates surviving monuments architectural plans propaganda posters and literary works including novels plays and poetry The war became a laboratory for experiments in conserving and redefining monuments and national heritage Modernist style protective structures for example were built atop Madrid s historic monuments including statues of Cybele Neptune and Phillip III in Plaza Mayor Such innovations later influenced strategies for safeguarding monuments during the Second World War This history Caballero argues makes the Spanish War pivotal to development of the concept of World Heritage Ultimately The Monument of Tomorrow demonstrates that heritage

conservation does not have to be politically conservative Those interested in anti fascism art history modern architecture modernism cultural heritage conservation and preservation Iberian studies and war studies should find valuable insights in this innovative original work

Censura y teatro del exilio Berta Muñoz Cáliz, 2010 Transcurridos setenta años desde que se produjera el mayor xodo de intelectuales y artistas hasta entonces habidos en este país es mucho más lo que nos queda por conocer de aquel episodio de nuestra historia reciente En lo que al teatro se refiere la práctica ausencia en los escenarios de los creadores del exilio durante las cuatro décadas de dictadura planteaba una serie de interrogantes sobre la actuación de la Administración franquista en este sentido especialmente a través de la censura En qué medida fue la censura la responsable de esta situación es una de las cuestiones a las que intentaremos dar respuesta en las páginas de este libro
