None Dare Call It Witchcraft:

None Dare Call it Witchcraft Gary North,1976 None Dare Call it Masculinity Andrew Strombeck,2003 The Republican Noise Machine David Brock,2005 Bestselling author David Brock documents the most important political development of the last thirty years How the Republican Right has won political power and hijacked public discourse in the United States Over the last several decades the GOP has built a powerful media machine newspapers and magazines think tanks talk radio networks op ed columnists the FOX News Channel Christian Right broadcasting book publishers and high traffic Internet sites to sell conservatism to the public and discredit its opponents David Brock s penetrating analysis of news stories from the disputed 2000 presidential election to the war in Iraq to the political battles of 2004 reveals that this booming right wing media market is largely based on bigotry ignorance and emotional manipulation closely tied to America s long standing cultural divisions and the buying power of anti intellectual traditionalists Writing with verve and deep insight Brock reaches far beyond typical bromides about media bias to produce an invaluable account of the rise of right wing media and its political consequences **Unmasking the New Age** Douglas Groothuis,1986-01-24 Douglas Groothuis explains what the New Age movement is analyzes its major doctrines and shows how it is influencing politics science health care and education *Psychic Healing* John Weldon,Zola Levitt,2013-02-13 You might expect this book to ridicule the whole idea of psychic healing surgery without anesthesia instantly closed wounds and other bizarre phenomena relating to this occult science Rather than labeling psychic healing quackery or trickery or cheap magic the authors verify the fact that psychic healing is very real and the ramifications are horrifying Normal people cannot heal psychically Only occultists can In genuine psychic healing demonic energy is employed Eyewitness accounts of weird operations dematerializing flesh and other mind boggling evidences abound in this text More than just one of the strangest and most disturbing books you may ever read this is a carefully researched heavily documented expos of an alarming otherworld practice **Conspiracies of Conspiracies** Thomas Milan Konda,2019-03-15 The most comprehensive intellectual history of American conspiracy theories yet produced The American Historical Review It s tempting to think we live in an unprecedentedly fertile age for conspiracy theories with seemingly each churn of the news cycle bringing fresh manifestations of large scale paranoia But the sad fact is that these narratives of suspicion and the delusional psychologies that fuel them have been a constant presence in American life for nearly as long as there s been an America In this sweeping book Thomas Milan Konda traces the country s obsession with conspiratorial thought from the early days of the republic to our own anxious moment Conspiracies of Conspiracies details centuries of sinister speculations from antisemitism and anti Catholicism to UFOs and reptilian humanoids and their often incendiary outcomes Rather than simply rehashing the surface eccentricities of such theories Konda draws from his extraordinary assemblage of conspiratorial writing to crack open the mindsets that lead people toward these self sealing worlds of denial What is distinctively American about these theories he argues is not simply our country s homegrown

obsession with them but their ongoing prevalence and virulence Konda proves that conspiracy theories are no harmless sideshow They are instead the dark and secret heart of American political history one that is poisoning the bloodstream of an increasingly sick body politic Meticulous scholarship essential context for understanding our present mess Survival Global Politics and Strategy Incisive and engaging Konda s assessment of the new dynamics of conspiracy theories in contemporary US politics is a significant contribution Written with a clarity of expression rare in academic writing the book is accessible to a wide readership Choice
