Creek Country Robbie Ethridge, 2004-07-21 Reconstructing the human and natural environment of the Creek Indians in frontier Georgia Mississippi Alabama and

Tennessee Robbie Ethridge illuminates a time of wrenching transition Creek Country presents a compelling portrait of a culture in crisis of its resiliency in the face of profound change and of the forces that pushed it into decisive destructive conflict Ethridge begins in 1796 with the arrival of U S Indian Agent Benjamin Hawkins whose tenure among the Creeks coincided with a period of increased federal intervention in tribal affairs growing tension between Indians and non Indians and pronounced strife within the tribe In a detailed description of Creek town life the author reveals how social structures were stretched to accommodate increased engagement with whites and blacks The Creek economy long linked to the outside world through the deerskin trade had begun to fail Ethridge details the Creeks efforts to diversify their economy especially through experimental farming and ranching and the ecological crisis that ensued Disputes within the tribe culminated in the Red Stick War a civil war among Creeks that quickly spilled over into conflict between Indians and white settlers and was ultimately used by U S authorities to justify their policy of Indian removal

view on such topics as Perception in yoga and physics The moral responsibility of scientific power Science as a spiritual path Healing the soul truth love and God Each of us is an artist of our own life Ravindra says Starting from the raw material of our self we sculpt something which corresponds to our aspirations our understanding our skill and sensitivity This work of transformation is an imperative of our human existence

Changing Clothes in China Antonia Finnane, 2008-01-24 Based largely on nineteenth and twentieth century representations of Chinese dress as traditional and unchanging historians have long regarded fashion as something peculiarly Western But in this surprising sumptuously illustrated book Antonia Finnane proves that vibrant fashions were a vital part of Chinese life in the late imperial era when well to do men and women showed a keen awareness of what was up to date Though foreigners who traveled to China in the early decades of the twentieth century came away with the impression that Chinese dress was simple and monotone the key features of modern fashion were beginning to emerge especially in Shanghai Men in blue gowns donned felt caps and leather shoes girls began to wear fitted jackets and narrow pants and homespun garments gave way to machine woven cloth often made in foreign lands These innovations marked the start of a far reaching vestimentary revolution that would transform the clothing culture in urban and much of rural China over the next half century Through Finnane s meticulous research we are able to see how the close fitting jacket and high collar of the 1911 Revolutionary period the skirt and jacket blouse of the May Fourth era and the military style popular in the Cultural Revolution led to the variegated globalized wardrobe of today She brilliantly connects China s modernization and global visibility with changes in dress offering a vivid portrait of the complex subtle and sometimes contradictory ways the people of China have worn their nation on their backs

Mapping the Academic Debate Johannes Duschka, Christoph Kleine, Monika Wohlrab-Sahr, Florian Zemmin, 2024-12-16 This volume maps the international academic debate on secularity It places seminal contributions from within Western academia alongside less well known texts from various parts of the world in several cases this is the first time that they have been translated into English The volume demonstrates that the academic debate on secularity was and is a global debate with contributions from many regions The collected texts relate to each other either directly or indirectly by referring to similar arguments whether reinforcing or criticising them and thus create a discourse When speaking of global secularity we

therefore do not insinuate a uniform world secularity resulting from the alleged global diffusion of Western norms ideas and concepts It is rather a web of relations that is constituted via various different references These references are not evenly distributed the development in the West is often the point of reference to which positions from other regions relate to which they connect or from which they distance themselves But the references are not completely unidirectional We also present texts from Europe that underline the multidirectionality of the process even early on Thereby the volume offers the reader the material with which to trace these global exchanges and references
