Noparty Democracy In Uganda:

No-party Democracy in Uganda Justus Mugaju, Joseph Oloka-Onyango, 2000 The continuation of no party democracy has been constitutionalised by the Constituent Assembly of Uganda causing great controversy The 1995 constitution provided for a referendum to be held in the year 2000 to enable Ugandans to revisit the question of political systems and choose between multiparty no party and any other form of democracy The eight contributors including Professor Ali Mazrui examine the case for and against multipartyism the justification for no party democracy as well as its myths and realities and the wider ideological implications of movement politics in the Great Lakes region They also explore the possibilities of bridging the gap between movementists and multipartyists in order to adopt a political system based on the widest consensus possible among the people in Uganda

No-party Democracy? ,2008 Are political parties an essential element of democracy Or can a no party system constitute a viable democratic alternative Giovanni Carbone examines the politics of Museveni's Uganda to illustrate the achievements contradictions and limitations of participatory politics in the absence of partisan organizations At a time when multiparty reforms were sweeping the globe Uganda opted for a controversial no party democratic model The country's politics over the past two decades thus provide the perfect opportunity for addressing the many questions

theoretical empirical and comparative that the notion of a no party system of elected government raises Carbone's analysis of how a no party electoral regime actually works or doesn't in Uganda fills a gap in both democracy studies and the study of African politics Publisher description Regime Hegemony in Museveni's Uganda J. Rubongoya, 2007-01-08 This is a study of the struggle for the restoration of legitimate power in Uganda following the 1986 National Resistance Army Movement NRA M liberation battle led by President Yoweri Museveni It addresses the empirical consequences of legitimacy on power relations and how this affects democratization and economic progress

Democratization in Africa Larry Jay Diamond, Marc F. Plattner, 1999 The country specific chapters serve to underline the differences between African democracy and liberal democracy yet some authors are at pains to emphasize that whatever their limitations African democracies are an advance over what had gone before African Studies Review

Autocratization in Contemporary Uganda Moses Khisa, 2024-01-11 Autocratization in Contemporary Uganda analyses two interrelated outcomes autocratisation manifest in the deepening of personalist rule or Musevenism and the regime resilience that has made Museveni one of Africa's current longest surviving rulers How has this feat been possible and what has been the trajectory of Museveni's increasingly autocratic rule Surveying that trajectory since 1986 the book takes as its primary focus the years since 2005 bringing to the fore the autocratic turn placing it within a broader comparative lens and enriching it with comparative references to cases outside of Uganda While positing the notion of autocratic adaptability as a defining hallmark of Museveni's rule the book examines the factors and forces that have made that adaptability possible analysing the dynamics around three key themes institutions resources and coalitions Through empirical research each chapter seeks to demonstrate how either one or two of

these three variables have functioned in propelling autocratization and assuring regime resilience producing theoretical and comparative implications that reach beyond Uganda

Electoral Democracy in Uganda Julius Kiiza, Sabiti Makara, Lise Rakner, 2008 Electoral Democracy in Uganda Understanding the Institutional Processes and Outcomes of the 2006 Multiparty Elections analyses the institutionalisation of democratic practice in the Uganda with reference to the 2006 elections The focus is on elections as a test of the strength and legitimacy of Uganda's political institutions It is argued that elections are more than the casting and counting of ballots Accordingly the book analyses the 2006 Ugandan elections in terms of the broader process involving the setting of rules for political contests the registration of voters and parties the nomination of candidates campaigning and voting the ballot counting and tallying and finally the handling of election complaints The book examines four key institutions that should ideally secure democratic governance the parliament the Electoral Commission EC the judiciary and political parties To present a comprehensive analysis of the key players in the electoral process the book has chapters on the roles of women civil society and the media and security agencies in the 2006 elections

Symbolic Confrontations NA NA, 2016-05-24 Donal Cruise O'Brien is a leading authority on Islam in Africa This is a collection of his writing over the last 30 years some significantly rewritten to render this a coherent book to use for teaching about the interplay between politics and Islam in Africa The author's main argument is that much of politics in Africa is negotiated through use of symbols and can not be separated from the religious origins and the systems of belief from which they originate The book focuses on Senegal a fascinating example of the spread of Muslim brotherhoods and their overarching influence on the construction and decision making processes of the state

Kanyeiamba's Commentaries on Law, Politics and Governance Kanyeiamba, George W., 2015-02-01 Justice Professor Dr George W Kanyeiamba is one of the leading jurists in the field of constitutional and human rights law In the last three decades he has been a key protagonist in

the metamorphosis that has seen Uganda emerge from tyranny and lawlessness to the present constitutional and political order. These essays address three thematic areas namely i Constitutional theory and practice including anecdotes on the making of the 1995 Constitution ii Human rights and iii governance and development. The work illustrates the hurdles met in the implementation of the 1995 Constitution arising out of constricted political spaces, excessive powers of the executive, a weak and gullible legislature as well as a threatened but resilient Judiciary.

Routledge Handbook of African Politics Nic Cheeseman, David Anderson, Andrea Scheibler, 2017-07-05. Providing a comprehensive and cutting edge examination of this important continent, Routledge Handbook of African Politics surveys the key debates and controversies dealing with each of the major issues to be found in Africa's politics today. Structured into 6 broad areas, the handbook features over 30 contributions focused around The State, Identity, Conflict, Democracy and Electoral Politics, Political Economy, Development, International Relations. Each chapter deals with a specific topic, providing an overview of the main arguments and theories and explaining the empirical evidence that they are based on, drawing on high profile cases such as the Democratic Republic of Congo, Kenya, Nigeria, Somalia, South Africa, Rwanda and Zimbabwe. The Handbook also contains new contributions on a wide range of topical issues including terrorism, the growing influence of China, civil war and transitional justice, making it required reading for non-specialists and experts alike. Featuring both established scholars and emerging researchers, this is a vital resource for all students of African Studies, democratization, conflict resolution and Third World politics.

Elections in Museveni's Uganda Sam Wilkins, Richard Vokes, 2018-12-07. Uganda's 2016 elections, which returned thirty-year incumbent President Yoweri Museveni and his National Resistance Movement (NRM) in yet another landslide, took place in an atmosphere of patronage, coercion and fraud. But is this diagnosis sufficient to understand the processes of voting and regime maintenance in Uganda today? Based on a series of detailed case studies from across Uganda, this book provides a more nuanced and complex picture of what the Museveni regime is and how it keeps winning elections. Whilst not denying that various electoral malpractices are systemic to the regime's survival, the authors find that these cannot be extricated from Uganda's history, its wider social realities and its local political cultures in which the NRM has become so embedded. In so doing, the authors, who include anthropologists, development specialists, historians, geographers and political scientists, develop new ways of thinking about the meaning of voting and elections in non-democratic Uganda and elsewhere. This edition was originally published as a special issue of the *Journal of Eastern African Studies*.

Readings in Gender in Africa Andrea Cornwall, International African Institute, 2005-02-14. *Readings in Gender in Africa* collects the most important critical and theoretical writings on how gender issues have transformed contemporary views of Africa. Scholarship from North America, Europe and Africa is represented in this comprehensive volume. A synthetic introduction by Andrea Cornwall discusses efforts to include women in research about Africa. The volume not only shows how gender relations have been constructed on the African continent but reflects the changes in approach and inquiry that have been brought about as

scholars consider gender identities and difference in their work Specific themes covered here include the contestation and representation of gender femininity and masculinity livelihoods and lifeways gender and religion gender and culture and gender and governance Readers from across the landscape of African studies will find this an essential sourcebook Published in association with the International African Institute London **Africa at the Millennium** NA NA,2016-04-30 This book is aimed at providing a framework for African issues in the 21st century Apart from its African centered approach it argues that previously marginalized areas of research require in depth study It also introduces new areas of interest absent in existing works The book pays particular attention to the relative success of African countries and regions in their attempt to find solutions to Africa s problems and the changing role in African states in international relations **Democratic Backsliding**

in Africa? Leonardo R. Arriola,Lise Rakner,Nicolas van de Walle,2023 This book advances ongoing debates on democratic backsliding and autocratization with specific reference to Africa It offers a carefully developed theoretical framework and unlike many previous studies adds an international dimension to the analyses of autocratization processes on the continent

The Awkward Embrace Hermann Giliomee,Charles Simkins,2005-08-08 Democracies derive their resilience and vitality from the fact that the rule of a particular majority is usually only of a temporary nature By looking at four case studies The Awkward Embrace studies democracies of a different kind rule by a dominant party which is virtually immune from defeat Such systems have been called Regnant or Uncommon Democracies They are characterized by distinctive features the staging of unfree or corrupt elections the blurring of the lines between government the ruling party and the state the introduction of a national project which is seen to be above politics and the erosion of civil society This book addresses major issues such as why one such democracy namely Taiwan has been moving in the direction of a more competitive system how economic crises such as the present one in Mexico can transform the system how government business relations in Malaysia are affecting the base of the dominant party and whether South Africa will become a one party dominant system The Right to Rule Bruce Gilley,2009-03-03 Popular perceptions of a state s legitimacy are inextricably bound to its ability to rule Vast military and material reserves cannot counter the power of a citizen s belief and the more widespread the crisis of a state s legitimacy the greater the threat to its stability Even such established democracies as France and India are losing their moral claims over society while such highly illiberal states as China and Iran enjoy strong showings of public support Through a remarkable fusion of empirical research and theory Bruce Gilley makes clear the link between political consent and political rule Fixing a definition of legitimacy that is both general and particular he is able to study the role of legitimacy as it has been maintained and lost in a diverse selection of societies He begins by detailing the origins of state legitimacy and the methods governments have used to wield it best He then considers the habits of less successful states exploring how the process works across different styles of government Gilley s unique approach merges a broad study of legitimacy and performance in seventy two states with a detailed empirical analysis of the mechanisms of legitimation The results are tested

on a case study of Uganda a country that after 1986 began to recover from decades of civil war Considering a range of explanations of other domestic and international phenomena as well Gilley ultimately argues that because of its evident real world importance legitimacy should occupy a central place in political analysis

The Politics and Policies of Sub-Saharan Africa Robert A. Dowie, 2001 This book attempts to correct the impression created by Western media that Sub Saharan Africa is in a state of anarchy The text analyzes and shows that while many Sub Saharan African nations are experiencing the worst time of their history others are enjoying their best times Thus the text argues that although some parts of Africa are experiencing crisis the continent is also a fine region of major new experiments in governance peace building and free market transformation programs Finally the text focuses some of its analyses on the colonial legacy economic and ethnic transformation indigenous institutions and other forces that seem to influence the governance of Sub Saharan African nations
