**Gender Transitions Along Borders** Marlene Solis, 2016-04-28 In recent decades women living in border cities have taken on new roles and have become one of the most vulnerable population groups experiencing the effects of the economic crisis of the early 21st century and the consequent increase in social inequality and violence This situation is particularly evident for the northern borderlands of Mexico and

Morocco The geopolitical position of these regions is defined by their strong existing asymmetry with their neighbouring countries the United States in the case of Mexico and the Mediterranean European countries in the case of Morocco This book contributes to the understanding of current changes in the workplace in family in sexuality and sexual violence within the setting of the borderlands through various studies addressing the manner in which these transformations are interpreted and experienced by women in everyday life and in their individual and collective agency **Migrant and Refugee**

**Integration in Mexico** Nuty Cárdenas-Alaminos, Karla Valenzuela-Moreno, Liliana Meza González, 2024-07-25 Although Mexican emigration to the United States is still relevant it has also become a return transit and recipient country for thousands of refugees Now many of these migrants refugees and their families stay on Mexican soil territory trying to integrate within Mexican society This book brings together leading experts in Mexico and covers the political dimension of integration for migrants in Mexico analyzing integration policies civil society efforts and public opinion from various angles In this context many questions arise Among the most relevant What has the federal government done to assist these migrant groups who often arrive in conditions of great vulnerability What policies have been implemented at the subnational level of government to adequately integrate these population groups What actions have been implemented by other local actors such as civil society organizations What do Mexicans think about newcomers Immigrant integration in Mexico will be of interest to students and scholars across a range of disciplines including international relations development studies anthropology international studies sociology and Latin American studies **The Terror of the Machine** Devon G. Peña, 2014-10-14 Born

of thirteen years of field research this interdisciplinary work explores the complex intersections of technology class gender and ecology in the transnational milieu of Mexico's maquiladoras foreign owned assembly plants located along the U S border Devon Peña examines workplace and community struggles from the perspective of the women who work in the maquiladoras He describes the workers struggles for workplace democracy social justice and sustainable development He also observes the circulation of struggle from the factory to the community highlighting the efforts to establish worker owned cooperatives in the border region during the 1970s and 1980s Female maquila workers are typically portrayed as passive apolitical and easily exploited This book however presents an opposing view investigating the subaltern life of the shop floor the workers informal methods of resistance to hazardous conditions sexual harassment and managerial tyranny Using survey research oral history discourse analysis and site ethnography the author develops a cogent critique of labor process theory a critique grounded on his extensive study of actual workplace politics in the maquiladoras The Terror of the Machine is a trenchant analysis of the political cultural and environmental effects of maquila industrialization and an eloquent and persuasive call for alternatives in the direction of ecologically sustainable and culturally appropriate modes of development

*Soldiers, Saints, and Shamans* Nathaniel Morris, 2021-02-16 The Mexican Revolution gave rise to the Mexican nation state as we know it today Rural revolutionaries took up arms against the Díaz dictatorship in support of agrarian reform in

defense of their political autonomy or inspired by a nationalist desire to forge a new Mexico. However, in the Gran Nayar, a rugged expanse of mountains and canyons, the story was more complex as the region's four Indigenous peoples fought both for and against the revolution and the radical changes it brought to their homeland. To make sense of this complex history, Nathaniel Morris offers the first systematic understanding of the participation of the Nayarí, Wixárika, O'odam, and Mexicanero peoples in the Mexican Revolution. They are known for being among the least assimilated of all Mexico's Indigenous peoples. It's often been assumed that they were stuck up in their mountain homeland, the Gran Nayar, with no knowledge of the uprisings, civil wars, military coups, and political upheaval that convulsed the rest of Mexico between 1910 and 1940. Based on extensive archival research and years of fieldwork in the rugged and remote Gran Nayar, Morris shows that the Nayarí, Wixárika, O'odam, and Mexicanero peoples were actively involved in the armed phase of the revolution. This participation led to serious clashes between an expansionist, rationalist revolutionary state and the highly autonomous communities and heterodox cultural and religious practices of the Gran Nayar's inhabitants. Morris documents confrontations between practitioners of subsistence agriculture and promoters of capitalist development, between rival Indian generations and political factions, and between opposing visions of the world of religion and of daily life. These clashes produced some of the most severe defeats that the government's state-building programs suffered during the entire revolutionary era, with significant and often counterintuitive consequences both for local people and for the Mexican nation as a whole.

**Imagenes reciprocas** Paul Ganster, Mario Miranda Pacheco, 1991      **The U.S.-Mexican Border Into the Twenty-First Century** Paul Ganster, David E. Lorey, 2008. Systematically exploring the dynamic interface between Mexico and the United States, this comprehensive survey considers the historical development, current politics, society, economy, and daily life of the border region. Now fully updated and revised, the book analyzes the economic cycles and social movements from the 1880s that created this distinctive borderlands region and propelled it into the twenty-first century and a globalizing world. Richly illustrated with photographs, maps, and tables, the book concludes with an analysis of key borderlands issues that range from the environment to migration to national security.      Los grandes problemas de México.
