

Number Writing Poems!

Come right down and then you're done.
That's the way to make a one!

Around and back on the railroad track.
Two! Two! Two!

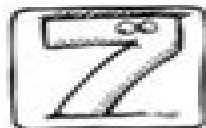

Around the tree, around the tree.
That's the way to make a three!

Down, over, down some more.
That's the way to make a four!

Put on a hat. Then take a dive.
Make a round belly. Now that's a five!

Make a hoop and then a loop!
Six!

Across the sky and down from heaven.
That's the way to make a seven!

Make an 'S' and close the gate.
That's the way to make an eight!

Make a circle and then a line.
That's the way to make a nine!

Number Poems:

The Number Poems Matthew Welton, 2016-09-15 Matthew Welton is a poet enchanted by form and process. Many of the Number Poems abide by subtle patterns or constraints creating symmetries in the arrangement of sentences, lines, words, or metrical feet. As with good architecture, however, Welton's rules and methods resist exclamation; rather, they are the framework upon which are established localised ambiances, be they of warmth or dazzlement, the home or the dream. Other sequences, such as the mind-altering Melodies, for the meanwhile begin with a palette of words and images and recombine them kaleidoscopically. By adding layers of colour and sound, Welton composes a modulating sensory wave. Even in silence, we do not so much read these poems as perform them. In her seventh volume, Marilyn Hacker confronts life and death at the end of our genocidal century, making another extraordinary contribution to the feminist and lesbian canon **The Poems** William Shakespeare, 1992-01-09 This is a fully annotated edition of all the poems which are now generally regarded as Shakespeare's, excluding The Sonnets. It contains Venus and Adonis, The Rape of Lucrece, The Phoenix, and the Turtle, The Passionate Pilgrim, and A Lover's Complaint. The introduction to the two long narrative poems examines their place within the classical and Renaissance European traditions, an issue which also applies to The Phoenix and the Turtle. The Passionate Pilgrim is a miscellany of twenty sonnets and lyrics containing only five poems which are certain to be Shakespeare's. John Roe analyses the conditions in which the collection was produced and weighs the evidence for and against Shakespeare's authorship of A Lover's Complaint and the much-debated question of its genre. He demonstrates how, in his management of formal tropes, Shakespeare like the best Elizabethans fashions a living language out of handbook oratory [Sight Word Poetry](#) Laureen Reynolds, 2004-08-24 The enticing rhymes and predictable patterns ensure successful reading experiences for beginning readers.
