 First published in 1975 this book offers a critique of some of the new perspectives in the sociology of education This is achieved through a case study of a progressive child centred school The book suggests that a liberal approach to education fails to appreciate how thoroughly a complex stratified industrial society penetrates the school It argues that the practice of progressive education may be a modern form of conservatism and an effective form of social control both in the narrow sense of achieving classroom discipline and in the wider sense of contributing to the promotion of a static social order It cautions against naive utopian solutions which see the freedom and self development of the child as an individualized process unrelated to a social context which may undermine the ideals of freedom and spontaneous self development In addition to offering a study of the implementation of the open approach to child development and pedagogy the book can also be read as a piece of critical sociology intended to make the reader look again at the way in which problems have been generated and solutions proposed within sociology and education Piano Playing, with Piano Questions Answered Josef Hofmann,2023-09-18 Josef Hofmann's Piano Playing with Piano Questions Answered is a timeless masterpiece that delves into the art of piano playing with both depth and clarity Through detailed explanations and insightful analysis Hofmann provides a comprehensive guide for pianists of all skill levels His lucid prose and practical advice make this book indispensable for anyone looking to sharpen their piano skills Set against the backdrop of the golden age of piano playing Hofmann's work stands out as a beacon of knowledge and expertise in the field This book is a must read for anyone seeking to unlock the secrets of the piano and improve their technique Whether you are a seasoned pianist or a novice just starting out Hofmann's insights will surely inspire and elevate your playing to new heights Elgar Encyclopedia of Critical Management Studies Leo McCann,Ödül Bozkurt,Rachael Finn,Edward Granter,Carolyn Hunter,Nina Kivinen,Arun Kumar,Brian Wierman,2025-04-09 This expansive Encyclopedia provides a detailed overview of Critical Management Studies CMS This exciting and iconoclastic area of research and scholarship has had a major impact on the academic field of business and management studies opening up possibilities for exploring radical and liberatory ideas in the often conservative and technicist realm of business school education Covering many of the substantive areas of CMS such as control and gender and providing reflexive discussions and critiques this Encyclopedia is a vital contribution to this important and unique field

Reports to the General Assembly of Illinois at Its ... Regular Session Illinois, 1889 *THE NATIONAL CAKE: TO BAKE OR TO SHARE?* Akwalefo Bernadette Djeudo, 2013. In this book the reader is told that the unjust gap between the rich and the poor leading to social injustice in Cameroon and the world results from elite globalization and the reliance on the concept of sharing the National cake. The idea of baking the cake collectively and sharing it in an equitable manner so that everyone has a fair share is not known by the political and administrative culture. Consequently Cameroonians spend more time talking about their share of the national cake instead of how to make the cake. The underlying principle of governance in Cameroon is best captured in the clause national cake. Call it public resources. Should the cake owned by everybody be baked or shared? Many politicians and administrators get lost amidst the intricacies of power and the grandeur that comes with it and feel that the national cake is only to be shared. They forget that they had made promises prior to their appointments and regard the civil service as an end rather than a means to an end. Money to them is the defining value and the primary mediator of relationships among persons and institutions. Ideals of equity are out the window and at the national and local levels governments and citizens alike have become economic beggars and a consumer nation has been created. Beggars don't create jobs; they take from those who have. Nothing paralyzes a nation like citizens who lack a sense of mission for their country. In my opinion Cameroonians should spend less time on politicking and more on constructive endeavors. They should be challenged, activated, motivated and transformed into nation builders or bakers of the national cake that will be equitably shared. They should be builders of a sustainable, emerging and democratic Cameroon united in diversity. An emerging and sustainable nation refers to a nation that is embarked on a holistic development that can continue indefinitely into the future by properly addressing human, political, social, cultural, economic, ecological and spiritual dimensions of development. This author envisions a better quality of life for all Cameroonians through the development of a just, moral, creative, spiritual, economically vibrant, caring, diverse yet cohesive society characterized by appropriate productivity, participatory and democratic processes and living in harmony within the limits of the carrying capacity of nature and the integrity of creation. In Part one of this book therefore this author

describes the problems affecting the process of baking and sharing the national cake in Cameroon as reflected in neopatrimonialistic and clientelistic ties In Part two the author carries out an assessment of the material capital and human resources of the country including technical personnel and investigate the possibilities of augmenting these resources if found to be deficient in relation to the nation s requirements This part also indicate the factors which are tending to retard economic and sustainable development and determine the conditions which in view of the current social and political situation should be established for the successful execution of President Biya s major ambitions and accomplishment programme The discussion framework in this part follows the seven dimensions of development spiritual human social cultura political economic and ecological In Part three of the book a complementary Plan to the Cameroon Vision 2035 that will lead to the most effective and balanced utilisation of the country s resources in making the national cake is formulated and the nature of the machinery which will be necessary for securing the successful implementation and financing of the plan is determined *Musical Observer* ,1929
