

Nurse Communicates

Susan Dandridge Boshier

Nurse Communicates:

Nurse-client Communication Deborah Antai-Otong, 2007 Nurse Client Communication presents an overview of effective communication and its influence on therapeutic relationships across the life span Nursing students novice and experienced nurses will find this unique book refreshing informative and essential in working with clients families and professional colleagues in various practice settings In addition this text focuses on the impact of culture ethnicity and the impact of the nurse s own culture on communication empathy and understanding

Communication in Palliative Nursing Elaine Wittenberg-Lyles, Joy Goldsmith, Betty Ferrell, Sandra L. Ragan, 2013-01-01 Communication in Palliative Nursing unites complementary work in communication studies and nursing research to present a theoretically grounded curriculum for teaching palliative care communication to nurses The chapters outline the COMFORT curriculum comprised of these elements Communication Orientation and opportunity Mindful presence Family Openings Relating and Team communication Central to this curriculum is the need for nurses to practice self care Based on a narrative approach to communication which addresses communication skills development holistically this volume teaches nurses to consider a holistic model of communication that aligns with the holistic nature of palliative care This work moves beyond the traditional and singular view of the nurse as patient and family teacher to embrace more complex communication challenges present in palliative care namely providing care and comfort through communication at a time when patients families and nurses themselves are suffering In addition to collaborating with physicians the nurse s role involves speaking with patients and families after they have received bad news and often extends to discussions of spiritual and religious concerns This book covers communication theory clinical tools and teaching resources to help nurses enhance their own communication and create comfort for themselves as well as for patients and their families

Manual for Nursing Communication Observation Tool (Ncot) Bonnie W. Battey, 2010-06-17 The purpose of this tool the Nursing Communication Observation Tool NCOT is to assist you as an observer in collecting and analyzing data about interpersonal communications It is patterned after the work of Robert Freed Bales of the Center for the Behavioral Sciences at Harvard University and designed for observing any interpersonal communication occurring in nursing practice contexts in which you as a nurse interact with your clients peers leaders and colleagues of nursing and other health care professions

[Nurse's Legal Handbook](#) Kathy Ferrell, 2015-08-31 An authoritative guide to the legal and ethical issues faced daily by nurses this handbook includes real life examples and information from hundreds of court cases It covers the full range of contemporary concerns including computer documentation workplace violence and harassment needlesticks telephone triage pain management prescribing privacy and confidentiality An entire chapter explains step by step what to expect in a malpractice lawsuit

The Nurse Communicates-- April Sieh, Louise K. Brentin, 1997 This unique text guides readers in communicating effectively with clients their families and health care team members It features an overview of general principles in communication theory

and includes scenarios and examples of nurse interactions with others providing the basis for discussion and reinforcement of clinical application

Textbook of Palliative Care Communication Elaine Wittenberg PhD, Betty R. Ferrell RN, PhD, MA, FAAN, FPCN, CHPN, Joy Goldsmith PhD, Thomas Smith MD, Sandra Ragan MD, Myra Glajchen, The Rev. George Handzo, 2015-10-23 The Textbook of Palliative Care Communication is the authoritative text on communication in palliative care providing a compilation of international and interdisciplinary perspectives This volume was uniquely developed by an interdisciplinary editorial team to address an array of providers including physicians nurses social workers and chaplains and it unites clinicians with academic researchers interested in the study of communication By featuring practical conversation and curriculum tools stemming from research this text integrates scholarship and inquiry into translatable content that others can use to improve their practice teach skills to others and engage in patient centered communication The volume begins by defining communication explicating debatable issues in research and highlighting specific approaches to studying communication in a palliative care context Chapters focus on health literacy and cultural communication patient and family communication barriers and approaches to discussing palliative care with specific patient populations pain life support advance care planning and quality of life topics such as sexuality spirituality hope and grief Team communication in various care settings is outlined and current research and education for healthcare professionals are summarized Unique to this volume are chapters on conducting communication research both qualitatively and quantitatively to promote further research in palliative care

Communication for Nurses Lisa Kennedy Sheldon, 2005 A practical entry level text Communication for Nurses offers direct effective techniques delivered in a concise user friendly format that enables readers to develop a professional communication st

Communication for Nursing and Health Care Professionals Robert J. Meadus, 2023-08-15 According to the Canadian Patient Safety Institute CPSI ineffective communication among nurses and health care providers is one of the leading causes of medical errors and patient harm As they navigate hectic environments and unexpected situations it is critical for health care professionals to have strong communication tools at their disposal when interacting with patients and colleagues Communication for Nursing and Health Care Professionals aims to assist health care and nursing students in developing these tools for their professional practice Using case studies to cover a broad range of scenarios within health care environments this text emphasizes practical applications of communication concepts and strategies Designed for undergraduate students in nursing and health studies the chapters include learning objectives key terms end of chapter discussion questions and a variety of activities to enrich skill building and classroom experience With a unique focus on the Canadian health care system this essential text will help foster students communication skills and effectively prepare them for their practice across professional positions
